(Allah (ﷻ) and Muhammad (ﷺ) in My Dreams)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

Introduction of Muhammad Qasim:

My name is Muhammad Qasim. I testify that there is no God except Allah and Muhammad ﷺ is His messenger. I am proud that I am the Ummati of the last Prophet Muhammad ﷺ. For the last 28 years, I have been constantly dreaming about Pakistan, Islam and the End times.

Talking to Allah Almighty and the Last Prophet Muhammad ﷺ in Dreams:

All praises to be Allah Almighty, In my dreams, I have spoken to Allah more than 500 times and I have had the privilege of meeting the last Prophet Muhammad ﷺ more than 300 times. I do not look at Allah Almighty in my dreams but just as we stand with our heads bowed in prayer, I find myself standing in front of Allah's Throne and I do not dare to look up at Allah Almighty. Allah Almighty is on His Throne and Allah's voice comes from the Throne, or Allah's Nur was there and Allah's voice comes from that Nur or Allah speaks to me from heaven. In the same way, I find myself standing before the last Prophet Muhammad ﷺ with my head down, and I do not dare to raise my head before the last Prophet Muhammad ﷺ. That is why I have not been able to see the blessed face of the last Prophet Muhammad ﷺ until today. Of course, I have seen the face of the last Prophet Muhammad ﷺ from a far but from such a distance that the impressions of the face of the last Prophet Muhammad ﷺ are not clear. In a dream, I hugged the last Prophet Muhammad ﷺ, and my whole body was testifying that I was embracing the last Prophet Muhammad ﷺ. In the same way, in many of my dreams, I have shaken hands with the last Prophet Muhammad ﷺ and my hand was testifying that I am shaking hands with the last Prophet Muhammad ﷺ. Allah Almighty and the last Prophet Muhammad ﷺ told me in my dreams to share my dreams with others and that is all I'm doing, so I kindly request you; not to blame me. The mercy of Allah is for everyone. I just want to be a friend of Allah and nothing more. That's why I trust in Allah Almighty only and only Allah Almighty is my Wakeel (Trustee).

The Beginning of the Dreams and Its Main Content:

I was about 12 or 13 when Allah Almighty and the last Prophet Muhammad ﷺ both came together in my dream for the first time. And then after that in 1993 when I was 17 yrs old, Allah Almighty and the last Prophet Muhammad ﷺ started to come regularly and continuously in my dreams. And ever since, Allah Almighty and the last Prophet Muhammad ﷺ keep coming into my dreams. In these dreams, Allah Almighty and the last Prophet Muhammad ﷺ have given me many good news about Pakistan. In a dream, Allah Almighty told me that Qasim! "I would defend and protect Pakistan." In another dream, the last Prophet Muhammad ﷺ told me that "a time would come when Pakistan would make everything of the world herself, even the space craft."

Muhammad Qasim's Personal Training Through Dreams:

From 2007 Allah Almighty and the last Prophet Muhammad ﷺ started to teach me about the things which I should do and the things which I should avoid. Mostly Allah Almighty and the last Prophet Muhammad ﷺ told me to avoid all types and forms of shirk (worship other than Allah) and to be a good human.

The Command to Narrate Dreams:

April 2014, Allah Almighty and the last Prophet Muhammad ﷺ started telling me in my dreams to share them with everyone. And then I started to share my dreams with my family members, friends and some other people. I also shared my dreams through Email to Pakistan Army Official Sites, Pakistan Government Sites, leading personalities, and with Islamic Countries Official Websites. But it seemed that no one believed in me or my dreams. And they all ignored me. After that I stopped sharing my dreams.

The Last Prophet Muhammad ﷺ Emphasis on Narrating Dreams:

In December 2014, the last Prophet Muhammad ﷺ came twice in my dreams in a single night and told me "Qasim! "You have to share these dreams to everyone to save Pakistan and to save Islam." I got confused and I said to myself that I have shared my dreams with many people and they do not believe me. What more should I do? Then Peshawar School got attacked and I thought about it. Then I decided to share my dreams on the Internet. Let me make it clear that I am a simple person and not religious, I am clean shaved, I did not use to pray regularly and I don't pray Tahajjud (overnight prayer).

Hope for Allah's Mercy:

I did not despair of the Mercy of Allah Almighty. Whenever I start to despair then Allah Almighty or the last Prophet Muhammad ﷺ would come to my dreams and say that "Qasim! "Despair not of the Mercy of Allah." "Qasim! be patient! Allah does not waste the rewards of those who are patient and Allah is the best disposer of affairs." They motivate me with such words and I become fresh again. In January 2014, Allah told me that Qasim! "I have tested you for 20 years. I wanted to see whether you are from the ones who despair of the Mercy of Allah or not".

Visit of Other Prophets (Alaihimusalam):

In Sep 2015 in a dream for the first time in my life, I look in the eyes of the last Prophet Muhammad ﷺ. When my eyes look into the last Prophet Muhammad SW's eyes, they get fixed and I couldn't look away. I feel as if in his ﷺ eyes Allah has filled all of His Nur. I have seen many other prophets (Alaihimusalam) and messengers in my dreams but I only looked at the face of Suleiman (Alaihisalam). And I have seen Isa (Alaihisalam) in my dreams many times. In one dream, I saw Isa (Alaihisalam) coming from the sky. And Yajuj & Majuj came out and they spread across the whole earth. Me and very few people join Isa (Alaihisalam) and then we live with Isa (Alaihisalam). In a few dreams, I saw that when the whole world become peaceful, Dajjal from somewhere else appears and tries to destroy the peace of the world.

Records of the Dreams:

In 1993, when the dreams started, I made a notebook and I used to note my dreams in that notebook and the things like how many times I saw Allah Almighty in my dreams and how many times I saw the last Prophet Muhammad ﷺ in my dreams but few years back I lost that notebook during relocating. Total dreams are more than 800 and I still remember many dreams.

Urge to Avoid Shaytan:

Many years back in one dream, Allah Almighty told me "Qasim! Before sleeping read Surah-Ikhlās, Surah-Falaq and Surah-Naas.(chapters/Quran) and then sleep so Satan stays away from you". I have been doing this for the last many years.

Waiting for Dreams to Come True:

It has been a long journey for me and still I am waiting for Allah Almighty, I did not lose my hope for the last 23 years now. I don't know what is Allah Almighty has written in my destiny and only Allah Almighty knows best.

Jazakallahu Khairan.

In many dreams, Allah ﷻ told me, "Qasim! Go and spread light in the world as it is in darkness." In one dream Allah ﷻ told me "Qasim! I will defend Pakistan and I will save Pakistan." Allah ﷻ and the last Prophet Muhammad ﷺ told me many times in my dreams that "Qasim! one day you will take the whole Ummah out of darkness and then the whole world, and after that the world will become peaceful but it starts from Pakistan." In my dreams Allah ﷻ and the last Prophet Muhammad ﷺ guided me to the straight path. From 2007 Allah ﷻ and the last Prophet Muhammad ﷺ started to teach me about the things which I should do and the things which I should avoid. Mostly Allah ﷻ and the last Prophet Muhammad ﷺ told me to avoid all types and forms of shirk

In 1994, Allah ﷻ told me from the sky and I still remember His words that, "Qasim! The promises which I have made to you, I will indeed fulfil them and if I fail to fulfil my promises then I am not the King of all the Worlds." Ever since that day, I have been waiting for Allah ﷻ, when will the time of his promise arrive and when will my patience end? I did not despair of the Mercy of Allah ﷻ. Whenever I start to despair then Allah ﷻ or the last Prophet Muhammad ﷺ would come to my dreams and say that "Qasim! Despair not of the Mercy of Allah ﷻ. In January 2014, Allah ﷻ told me that "Qasim! I have tested you for 20 years. I wanted to see whether you are from the ones who despair of the Mercy of Allah ﷻ or not". I saw this dream in summer 2003, Allah ﷻ said "Qasim! Until the time when my promise arrives, even if you dip your hand in gold then it will become dust and when my promise arrives then after that, if you dip your hands in dust then it will become gold by my order." I saw this dream in spring 2002, that the last Prophet Muhammad ﷺ told me "Qasim! My son! Do not despair in the mercy of Allah ﷻ. Qasim! It is impossible that you exist and strange things don't happen. In your time, the earth will pour forth its treasures, trees will grow more fruits and bear less leaves. There will be sustenance upon sustenance. No one will remain poor and there will be peace everywhere and law and justice and no one has ever seen such a time before." I do not look at Allah ﷻ in my dreams and I just feel in my dreams that Allah ﷻ is on Arsh-al-Azeem (throne) and His voice is coming down from there

or I see Nur (light) and voice comes from the Nur or Allah ﷻ talks with me from the sky. In every dream I feel Allah ﷻ nearer to my jugular vein. I do not look at the face of the last Prophet Muhammad ﷺ but I can see his body. In one dream I hug the last Prophet Muhammad ﷺ and my whole body witnessed that I am hugging the last Prophet Muhammad ﷺ. I have shaken hands many times with the last Prophet Muhammad ﷺ in my dreams and my hands witnessed that I am shaking hands with the last Prophet Muhammad ﷺ. It has been a long journey for me and still I am waiting for Allah ﷻ, I did not lose my hope for the last 23 years now. I don't know when or how I will reach my destiny. I don't even know what is my destiny, only Allah ﷻ knows best. Please share my these dreams and visit my fb page n YT channel. It doesn't matter whether you believe in them or not. My job is only to share them, after that the choice is yours. All I wanna say is that "your choices of today are gonna shape your destiny for tomorrow. So make them wisely."

(The 1st Divine Dream of Muhammad Qasim)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

1980 or 1981

The first dream of my life came to me when I was about 4 years old. I started going to school at the age of 5. I didn't go to school at the time when I had this dream. So I guess this dream came to me when I was 4 years old. As a kid, I used to love gas balloons. I had an interest in helium filled balloons. I had loved releasing them and watching them go up in the sky. In this dream, I was in my house, and my older brother Javaid came from outside and said that "the balloon man is here, buy your balloon before he leaves, otherwise you will start crying." I got money from my mom and went outside. I asked the Balloon Man for one balloon and he said "Okay". While filling the balloon he said "Qasim! Did you know there are stairs on the roof of your house leading straight to the sky?" I was very surprised and excited because I was always curious to know where my balloon goes in the sky. I ran to the roof of my house with so much excitement. I even forgot to take the balloon with me. When I went to the roof, I saw actual stairs, exactly like the ones from the Mughal Empire. They were circular stairs made of red bricks leading to the sky. I became very happy when I saw the stairs. I started going up the stairs. I went up high and when I looked down, all the houses were tiny. Seeing this, I got even more happy and went further up. I was even able to touch the clouds and I got very excited. Then I thought my mom might be looking for me. So I decided to go back down when I get tired. Then suddenly, I got this feeling that these stairs will lead straight to Allah, The Lord of the worlds. I felt the strange pulse of happiness surging through my body and I ran up the stairs with full speed hoping to reach Allah. And this dream ends here.

(Reaching Qiyamah the Day of Judgement)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2005

“There was a beautiful dream in which I intend to follow the path of the last Prophet Muhammad ﷺ. When I dreamed of stairs, I always thought that I should see the next part of that dream. That what happens after I climb all those stairs? Then in 2005 I saw a dream that I came out of the earth/soil and I found myself in Maidan e Hashar (Day of judgement). And that soil was very pure and very clean and didn't look dirty or bad. There were clouds in the sky and the light rain and a very beautiful weather. And when I woke up I saw that my face was towards the south. The scene was so beautiful that I started praising Allah SWT that you are so merciful that you created this weather. Then I looked towards the west and I saw that two people were standing in front of Allah's Arsh (throne). One person's height is nearly touching the Arsh of Allah and the second man is only as tall so that he reaches the knees of the first man. One man was very tall and one was short and I said that "who is this person that his height is up to the Arsh of Allah? (I have always wished that my voice reaches Allah's Arsh) And His head cloth was rubbing the Arsh of Allah and he was moving slightly and due to that the Arsh was moving a little. And I said that "how great is this person that Allah's Arsh is shaking." And then I promised myself that I will follow the footsteps of that tall person and reach Allah SWT. When I woke up I had an amazing feeling and it remained for at least a month. Then I realized that the tall man could only be the last Prophet Muhammad ﷺ and the short man could be Ibrahim AS. Then after a month Allah SWT told me in a dream that the tall person was the last prophet Muhammad ﷺ and the short person was Ibrahim AS and you were right to think so!

(Time Line Events Before Qiyamah and the Big Signs)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

31 August 2022

In this dream I am amongst some people who are listening to me and asking questions about my dreams. They ask me how much time is left before Qiyamah (The Day of Judgement). I say to them, "When the wars (conflict) begin, which will all be part of World War 3 and Ghazwa tul Hind, then after these wars, there will come a time of peace. The wars will last for about 4 years, and the era of peace after this will be 7 years. Then after this time, Dajjal, prophet Isa AS and Yajuj Majuj will come. So approximately after 11 years of when the wars begin, Dajjal will emerge. And the beginning of World War 3 signifies that Qiyamat (The Day of Judgement) is very near. And there isn't much time left at all, as what some people have claimed and said that these events are very far away." Then someone asks me, how many people will die in these wars? Then I respond back from the perspective of Ghazwa tul Hind and the World War, that, "almost 1 billion people will die in this war. But in the war against Dajjal, many more people will perish. About 2 or 2.5 billion people will die and most of them will be Muslims." And the dream ended there.

(4 Major Signs of Qiyamah)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

10 April 2015

I saw a dream on 10th April 2015. Last Prophet Muhammad ﷺ addressed me and he said to me: "My son Qasim! Just before the day of judgement, 4 major signs will

appear." Then he said to me: "The first major sign is appearance of you my son Qasim!" I was shocked by the news and saw myself consulting a religious scholar to confirm about the first sign of Qiyamah. The scholar asked me the question, "Are you related to Prophet Muhammad ﷺ?" I told him, "He is my father and people used to call him by the name Abu Al Qasim." Then I saw that scholar talking to the people about my matter. He returned to me and said that, "Qasim! The first major sign is already shown by Allah and other will be coming ahead." After 3 or 4 weeks, I dreamed that the last Prophet Muhammad ﷺ prophesied that "the second major sign will be shown in the coming years which are the emergence of Dajjal." He also pointed that the last 2 major signs include the descent of Eesa AS and the destruction by the Gog and Magog." According to the all prophecies from the dream, the end of the time is very close. I myself cannot imagine that the world is going to end in the coming years. I never ask anybody to believe in me but believe in what Allah and His last messenger are commanding to Ummah through my divine dreams. I humbly request you all to share these dreams with your family and friends, also visit my Facebook page and Youtube channel for more upcoming and previous dreams also.

(Freedom From the System of Dajjal The Antichrist)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

19 February 2016

I saw a dream. In this dream we were in a very huge building. The building was managed with a system which prevented anyone from escaping. I was very concerned with this system of the building and I wanted to escape it but I couldn't find a way out. Then in a dream Allah told me "there's a way out, search for it and I will help you." I immediately started searching and on the way, I met a few people. I told them "Allah has told me there's a way out of the system. Come! Let's go and find it" but they said "are you crazy? No one has ever escaped this building and even if they did we have no clue how to do it. So don't waste your time and don't waste ours. Why don't you just keep on living in this building like everyone else?" I

said in my heart "you mean live like a slave?" I refuse to accept that so I continue my search. I found some influential people who had many followers. I asked them "is there a way out of here." They told their "take him to a doctor, this man is crazy." They took me to a doctor and the doctor said that "there is a defect in his heart and there is no cure." After seeing this I became worried. No one was listening to me and Allah hasn't helped me yet. I became disappointed so I left. I passed by several halls one after another until I reach a place where there was the light of the Sun and that light was shining on one or two people. They looked at me and one of them said "look! How beautiful his sweater is". I looked at my sweater and I became surprised thinking "when did I put on this sweater?" It was actually a very beautiful sweater with amazing colour. I didn't understand so I continued walking towards the source of the sunlight. A man said "if he is Mahdi then he will distribute food and money." I ignored them and went to the source of the light; it was a small hole in the wall where the sunlight was coming from. I became happy. But sadly the hole was not big enough for me to escape through, so I stuck my hand in to see if I could make it bigger and then it expanded by a little. Then I inserted both hands and my head and I was able to climb out. I became very happy knowing the help of Allah had arrived. I went forward and found my home. In my house there were many birds inside cages. They were hungry and chirping loudly. I thought how I can feed them since I have nothing to feed them with. I became worried so I clinched my hand into a fist and then suddenly I felt grains. I poured the grains into the container for the birds until it was filled and my hands also remained filled with grains. I was amazed and wondered where the grains came from? I gave a little food to every bird fearing the grains in my hands might run out but they didn't. Then I gave the birds water just like that and they were all eating. I became very tired after doing all this and told myself "how this is difficult work." I open the door of their cages and told them to go out in the morning and find their sustenance with their own and come back to your cages in the evening and also keep your cages clean. The birds all agreed and said "we will obey all your commands." I became surprised thinking what type of birds are these that they're able to talk to me. Then all those birds did exactly what I asked them to do and their breed multiplied swiftly. I said "I will sell these birds to the rich people of the building and gain wealth and I should also do something else to impress the people of the building and that I should surpass them so that they will have to accept my terms. I remember how they lacked a source of power in that building. So I wanted to invent a new generator to create electricity. Then a powerful and new generator appeared in front of me by the mercy of Allah. I was so surprised. I thought about it and Allah made it into a

reality. I said to the people of that building that "I invented a very easy and new formula to generate electricity." Then those people sent their best engineers and they were amazed by the generator and they requested the formula to make a similar one. I needed to gain wealth to free the people. So I said to them do you think that I will give it to you for free. Then I gained a lot of wealth by selling the birds and the formula. I freed many people from the building by giving money to the owners. I distributed money amongst the people and gave them food as well as a place to live. There was still more people in the building and I was debating whether I should give the rest of food and money to all of them or not. I know I would feel ashamed if the money finishes and I couldn't save the others and distribute to them but Allah said from the sky that "those people who do not despair from the mercy of Allah and remain patient then Allah gives such a reward to them and the treasures of Allah do not end by distributing, instead they constantly increase. And Allah is dominant over what He does but most people know not."

(The Help and Support of Allah, One Day Before Qiyamah)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

December 2016

In this dream It is the last day until Qiyamah (day of judgement) and I see a building which I have to climb. I don't have any equipment (stairs, etc.) to reach the top of the building. So people are making fun of me saying he is merely wasting his time. I see a brick in one of the walls of the building with little space that can be stepped on. From there I step on the bricks and start climbing which was a very difficult for me but I do not give up. I keep climbing up and say to Allah Almighty "why did you put me in so much trouble?" But with Allah's help, I finally managed to reach the top of the building. Muslims address me and say "we are your brothers and we want to help you." I think in my heart "you people used to laugh at me when I needed your help and when you saw that Allah is with me, you changed your attitude! And now you are trying to show me that you are a true Muslim! Rather

You are very bad people. Allah is the One who has given me success. It would be better for me to trust in Allah alone in the future."

(Respite and Mercy of Allah Before Establishing the Last Day / Day of Qiyamah)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

1998

I saw many dreams where it was the last day until Qiyamah (day of judgement) but every time Allah extended it by a day out of his Mercy. This is because Qasim did not finish the work he had been given. In the 1st dream of Qiyamah Muhammad Qasim says: I was talking to Allah while He was above His throne. Allah told me "Qasim! do all your work before 6pm so I can establish Qiyamah". I said "okay" and started to walk home. I saw a girl on my way and I wanted to marry that girl. I started to follow the girl and completely forgot that Allah will establish Qiyamah at 6pm. The girl was walking with speed and I couldn't keep up with her because there were many obstacles and big crowd slowing me down as well. When she left my sight, I kept on searching for her. When I was sure that I had lost her, I looked at my watch and it was 8pm. I was so shocked and terrified; I sat down holding my head thinking what has happened to me. Allah only gives us one chance and I have wasted it. But then I wondered how I'm even alive its past 6pm. I walked back to the place that I spoke to Allah completely filled with fear. I asked Allah in a fearful tone saying "O Allah! Why haven't you established Qiyamah yet?" Allah replied in a very soft and gentle way saying "Qasim! You never told me whether you completed your work or not so I didn't establish Qiyamah". After seeing Allah's Mercy I felt more at ease. I told Allah "how I met a girl and I wasted all my time chasing after her and in the end I couldn't even get her." Allah said "no problem Qasim! For you I have extended the time before Qiyamah. You must be very tired, you should go home and rest. Then work on any day that you choose and when you finish your work then tell me so I can establish Qiyamah." I was so excited. I said to Allah in my heart that "You have done such a huge favour on me today. From now

on, I will only ever rely in you." I went home slept and woke up at 7am. I took a bath put on new clothing and started my work. One of my works was to remove darkness from the world. I completed all my work by 10 or 11am. I told myself at 5pm that "I will tell Allah about my completion." But for now everything was peaceful, I and everyone were enjoying ourselves and we ate from the mercy of Allah. When it was 5pm, I went to the place where I talk to Allah. I told him "with your help I have completed the work you had given me". Then Allah said "okay Qasim! I will now establish Qiyamah". Then I asked Allah "you didn't establish Qiyamah yesterday because of me so does that mean you increased the lifespan of people?" Allah Told me "not only did I increase their lifespan but I also increase their Rizq (provision)." And the dream ended there. The same thing happened to me in my real life. In October 2013, I felt that I had wasted my life and I realized that my time won't ever come back. And then Allah told me in a dream on December 2013 that "Qasim! I have some very special plans for you now you take some rest and afterwards I will tell you what to do next". Then in the dream on April 2014, Allah told me for the first time "Qasim! Narrate your dreams to the whole world; I want everyone to know who you are".

(Surprising Changes in the Solar system and Its Terrible Effects on the Earth)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2004 / 2005

I saw in a dream: I'm not sure if I read in a book or if I heard that a great man passed away 1400 years ago and he made prediction that a big star will be included in the solar system. And it will pass by the earth as if it is going to collide with the sun but it will change its direction and when it will pass by the earth, the earth will become dark due to its impact. But Allah will bring the earth back in the orders it was and bring it back to its axis. Then the news arrives from NASA that "a big star is coming that will collide with the sun and that the solar system will be destroyed." But I said: "no it will not collide with the sun but the earth will be impacted." Then that star

changes its direction and exits the solar system and at that time the world becomes dark. But people are heedless that this world will be destroyed and scientists also say that "let the earth live as long it does. But I said: "No it will remain in its axis and it will be fixed." Then I sleep and in that dream Allah SWT says that "Qasim! You bring the earth back to its axis and I will help you." I woke up with surprise that "how can I fix it when scientists couldn't and they have all the tools!" Then I go out and see that the earth is closer to the sun. And I also look for the moon but I can't find it. And then, when I go on a machine in space, I saw that the moon is in between the sun and the earth and this is why the earth has become dark. Then I saw that if the moon was not in between the people, they would have been burnt down and the earth would have been burnt also. Then I said "how can I move the moon and the earth." Then I come back to the earth and there are some people who say: "Qasim! you do something" and I said "With the will of Allah the moon and the earth will go back to their axis." Then the people saw that it happened in front of them. Then everyone sees that and they become happy.

(Horrible Plan Against Turkey, Saudi Arab & Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

22 January 2017

In my dreams I saw that every country has its own building. The bigger the country is the larger is its building. The US had the largest building and Russia had the second largest. Muslim countries have white minarets instead of buildings and I saw only three of them. Two of the minarets were close together but the third one was far away. The first minaret had a flag of Turkey and was larger than the other two. The one next to it had a flag of Saudi Arabia and the one far away had a flag of Pakistan. Along with the third minaret were two buildings that had Flags of China and India. Then I saw non Muslim leaders making a plan. They said to one another that "we are the ones with the best buildings and we give freedom. But the Muslims have minarets and they believe in one God named Allah and they don't worship our Lords, those minarets are destroying the peace and beauty of the world. So if we

destroy these three minarets then our buildings will last forever and the Islam will be completely destroyed and then the whole world will be on the same page. Finally Muslims will accept our Lords and if they don't, we will kill them and we will rule the entire world and do whatever we want". After hearing this treacherous plan, I became surprised and worried. Then I saw they destroyed the minaret of Turkey from the base and it started to fall over. And the people of turkey didn't even know about it. The building of Russia was right next to Turkey. As soon as the Turkish minaret starts to fall, the Russian building supports it with ropes, which prevents the Turkish minaret from collapsing. Russia has its own interests in this, but the Turkish people and government do nothing to save their minaret and they can do nothing because the minaret is too big and its foundation is completely broken. Now it is only prevented from falling by Russia's safety ropes. Then the evil forces started breaking the ropes of Russia and then marched towards the second minaret. In so much shock, I said to myself that the evil forces work so much on their plan and we Muslim still are in deep sleep. We aren't doing anything to save the three minarets and we aren't doing anything to save Islam either. And if the first minaret was destroyed then the second wouldn't be safe either and the third minaret will be left all alone by itself. So how can the third minaret possibly fight of hundreds of buildings all by itself.

(Three Evil Countries Make a Terrible Plan for the Destruction of Kashmir Just Like Palestine)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

16 February 2017

In this dream, i find myself at the White House. I was standing in front of the White House looking at how it was built. I was impressed with the way it was constructed. Then I went inside and passed through a hall until I reached a door. I entered the door and there were two people talking to each other. One man was begging the other person to make him his younger brother. He was saying "I will obey every command of yours and that I will do whatever you say. Rather, look at this: I have

spread destruction in Kashmir in the same way Israel did in Palestine and I did this all just to make you happy.” The other person smiled and said: “You have just earned your position as my younger brother.” That man became so happy and said: “I will never ever displease my elder brother.” When I saw this, I became surprised thinking who are these people who have just become brothers? Then the elder brother left the room and I peeked inside to see who the younger brother was. I saw that it was the Prime Minister of India. He was feeling very happy that his heart's desire has been fulfilled. I became more surprised that he has become the younger brother of the President of America and now they will spread the destruction together. Then I followed the President of America where he was talking to someone else. That other person was the Prime Minister of Israel. He said: “We have found a younger brother who will do exactly as we say. Look at the work he has done! He is following the exact path as yours.” Then they both smiled and said that “the day is not far when we will rule the entire world.” He said: “I want to meet this younger brother of yours.” When they both came out of the room, I see that the President of America was talking to the Prime Minister of Israel. They both come into the hall and then the President of America calls the Prime Minister of India and says: "Come out! Now you don't have to hide from anyone. Now we will continue our mission together.” Then the three of them shook hands and they said: "Now we will surely crush Muslims." Upon seeing all of this I said that “the Muslims are sleeping and the evil forces are working on their plan day and night and all of them are uniting and so the Muslims will soon go through the worst tribulation and Pakistan will suffer as well.”

(How Will World War 3 Start? And How Will Pakistan Win in This War?)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

03 March 2017

In this dream I saw Turkey falling down and destruction was everywhere. Immediately after this happened, Israel became very active. It increased their

operation around Palestine and it also built a fort for Dajjal. And Muslims couldn't do anything either other than protest. Then Israel formed alliances with other countries and spread unrest. USA was among their supporters and helped Israel by offering their intelligence. When Russia found out about this, it immediately formed alliances with countries nearby. And Russia also became active and raced the others in conquering lands in the Middle East. It was as if they were all aiming to conquer the entire world. Then USA openly jumped in the Middle East and they met with Israel and other allies and together they started fighting against groups of Russia. And this caused Russia and their allies to fight back. And thus World War 3 had begun and the battlefields were countries of the Middle East. Due to which the worst destruction took place in the Middle East and huge amount of Muslims were massacred. The war became so violent and terrifying that neither were the Muslims able to fight back nor did anyone dare to come to their help. The bloodshed slowly spread throughout countries such as Egypt, Sudan, Saudi Arabia, Kuwait, UAE and almost every part of the Middle East. The team of Israel were constantly gaining more and more allies. And even some Muslim countries also became allies with either USA or Russia. Both superpowers wanted to conquer most of the lands. And whichever territory they attained, they held onto it firmly. And they continued fighting one another while massacring the Muslims. On the other side Pakistan grow stronger and started expanding. But then India who was allied with Israel started attacking Pakistan. USA Israel and even many other Middle East countries helped India against Pakistan. They all intended to destroy Pakistan completely. So Pakistan had a very large amount of enemies but Allah protected Pakistan with around **3,000 Black Fighter Jets**. Then the war against Pakistan began and with the help of Allah Pakistan came out Victorious against their enemies. Pakistan conquered all of India as well as Bangladesh and Afghanistan and once Pakistan claimed victory over India. Indonesia and Malaysia also became allies of Pakistan. Then Pakistan jumped in the Middle East by the will of Allah and they fought with both superpowers using the powerful black fighter jets. Pakistan attacked enemies in such a way that no one could stop them. After defeating both superpowers Pakistan became a superpower and secluded themselves from the world. Pakistan regains control of the Middle East and Arab countries too. All of these areas became a part of Pakistan and they started rebuilding those areas. Then the true Islam of the last Prophet Muhammad ﷺ started establishing in all those areas and peace finally prevailed where once the greatest war of mankind took place.

(3 Mighty Castles of Islam, 2 of Them Will Be Destroyed by Dajjal)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2014 - 2015

In this video I am unfolding some of the shocking truths through my divine dreams. There is no doubt that all of these events will happen soon one after another. In many of my dreams I saw Islam like three main powerful buildings which look just like castles. These castles are protecting Islam. Recently Allah well defined all 3 castles to me through the Divine dreams. According to my true dreams; first castle is Turkey and the second castle is Saudi Arabia and the third is Pakistan. In all of my dreams, I've seen that two out of three castles were destroyed by non-believers. In one of my dreams on December 2015, the last Prophet Muhammad ﷺ mentioned to me that the last castle of islam is Pakistan. On December 4, 2014 Allah showed me that two out of three castles were destroyed by the wicked Illuminati forces

and they faced not much resistance. Muslims were anxious when they saw the first castle get destroyed but they failed to resist them. Muslims got shaken heavily when the second castle was destroyed and they said that, it was a devastating loss to Islam. Then they move towards Pakistan, the third and final castle of Islam. I saw myself in the third and last castle of Islam. I saw that the three castles are located one after the other in a row and two of them got attacked by the enemies with weapons. I was very intimidated and I wanted to make the people aware but no one paid attention and they lost the two castles. Then I saw the enemy started to move towards the third and last castle of Islam. Muslims tried to run and hide themselves and ran around with fear. I told them that whether you fight or hide you will be killed. Then I decided to fight and die while saving Islam. Allah helped the Muslims in the third castle of Islam with His powers and also by the powerful black jet fighters. With the help of Allah Muslims defended the third and last castle of Islam successfully. Also by the help of Allah Muslims from the east will spread the true Islam around the whole world and the whole world was filled with peace and Justice until the appearance of the Dajjal. May Allah save all castles of Islam. Please spread these true dreams do not live in darkness and perceive the meaning of these divine dreams. The game of these wicked enemies is soon going to end. Glad tidings to the true Muslims.

(Kidnapping of the Son of a Prominent Head of State)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

20 June 2017

I see a big palace in this dream and an event has been organized there by the Head of the State of that country. There are many other people there and I find myself present in that event too. Suddenly something happens and some people arrive at the event and open gunfire. In chaos people start running in all directions to save their lives. The security guards of the palace fight back and stop those people. When the situation improves a little, someone calls the name of the head of the state and says that his son has been killed. This news spreads in the entire palace.

People start saying that the son of the Head of the State has been killed but no one finds his dead body. When the Head of the State comes to know about this tragedy he becomes furious and he vows to avenge the death of his son and punish the culprits. The news of the sudden demise of his son spreads in the whole world. Some people start predicting that now the circumstances are going to get worse as this is not an ordinary incident. The ruler spends a lot of energy and resources to find out the whereabouts of the culprits. A lot of raids are conducted and even if there is a shadow of doubt that area is destroyed by his forces. The situation worsens and chaos keeps spreading. Due to this incident many other countries are affected too so much so that Pakistan is also affected by this tragic incident. Upon seeing all this I said to myself that "this is a very bad situation and if it continues to remain like this then everything will get out of control." To assess the situation better I also leave for some place. When I arrive there then I see a minaret type building and I see some people are in there. They come out of the building and suddenly another group of people open gunfire on them. In response they also do the same. I hide in a place and after sometime almost all the people die due to the exchange of gunfire. I came out and said to myself that "there is definitely something present in this building that these people were hiding in it." An injured man said to me that "there is a man inside this building, go and help him as some people want to kill him." I go inside the building and after walking around for some time I arrive at the upper floor of the building and I find an injured man lying there. When I get a bit close to him, to my surprise it's the same son of the Head of the State and he is alive. I thought to myself that "People were saying that he has died and he is alive but it is too late now." I said to him that "People are thinking you have died but you are alive!" He told me that "some people kidnapped me but some other people found me and they saved me and brought me here and since then I am hiding here." I said to myself that "He is unaware that those people who saved his life and brought him here are themselves dead now." I gave him some food and medical assistance and I planned to take him out of here. The dream ends there.

(Horrible Plan Against Turkey & Erdogan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

28 February 2017

I saw Erdogan in a dream. The president of Turkey was speaking to a huge crowd. He said to the people of Turkey "we will make the Ottoman Empire again! And all these powers that I've been getting are also a part of it. And now we will regain the lost status of the Muslims." After addressing the crowd then Erdogan sat in his seat again. He had a smile that was filled with so much pride. It made me feel that with this much power he will claim to be the Mahdi (imam the guided-one). But Allah Knows Best. Then I saw big people of evil forces became angry. When they saw this, they said that "this man is very dangerous! After getting this much power he will be able to do anything. And his plans are dangerous as well. And if he wants to be like the Ottoman Empire then he will be even more dangerous". Another person said that "he should be stopped at any cost. He has already started his mission and he is conquering Syria". Another person said that "he might become a very strong leader from the Muslims. No matter what happens we have to stop him from getting more power. Otherwise this would be a big problem for us. We have to pave the way for the Messiah." Then I saw the last Prophet Muhammad ﷺ walking back and forth in extreme concern. This made me feel like something horrible will come very soon.

(Iran's Revenge on the United States)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

3 January 2020

I saw in this dream that after the assassination of the Iranian General, the Iranian government becomes very sad and enraged. It feels to me that Iran is being supported by some other Middle Eastern allies as well. Since their faces resembled the people of the Middle Eastern countries, all of these individuals vow to take revenge together. Then I saw that 2 American fighter jets are flying in the sky and practicing some defence exercises. Suddenly from another side around 4 fighter jets fly in and surround one of the American fighter jet and immediately destroy it. I am close by to those fighter jets as I am witnessing all of this. I said to myself "they have destroyed the fighter jet of the United States and this is not good because they shouldn't have done this against a powerful country like America without proper strategy and planning." Some Muslims are watching all this from the ground

became very happy and start chanting slogans in celebration that we have destroyed the fighter jet of America. Then they also shoot down the second American fighter jet and again the people became very happy and start celebrating. Their pilots also became very happy and say that "we have reached to such a point where we have take revenge from America." However on the other hand, the rest of the Muslim world becomes very frightened that "what has happened? Now America will take revenge and this is no ordinary thing." Then I found myself in the Middle East, where I am assessing the situation and looking at people's houses and I said to myself that "at this moment everything seems fine but when America will attack then all of this will be destroyed and people will have to run away from there and chaos will spread everywhere." Hence I decided to leave that place before any destruction happens and the dream ended here.

(Satanic Technology and the Trouble for Muslims)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

22 August 2015

In this dream I saw there was chaos and unrest everywhere. All the Muslims were busy with their own selves. I reached a place where evil forces were plotting a plan and were talking to each other, "How since Muslims are occupied with their own lives, they will be unable to save themselves so we will destroy every one of them and make it seem to the world that we are doing this for peace." After that, they started to make powerful machines one after another. I thought how no one could possibly fight against these powerful and dangerous machines. When they finished completing the machines, I went back. The machines flew high in the sky and those machine started firing at each other. We Muslims were trapped in the middle and all of our buildings and businesses were there. Also there was a huge wall that blocked off the rest of the world from seeing what was going on. So they showed the rest of the world how powerful their machines are and how two groups were fighting each other but in truth, it was actually just one group destroying Muslim's and their houses. The evil forces told the world that a group amongst the Muslims

have powerful machines and they also said that we have to destroy them or else they will destroy the world peace. But these were horrible lies and all of the machines belong to evil forces. It was only a wretched excuse to massacre the Muslims and to be shown to the world as the righteous ones. I gather a few people and asked them "how can we fight them?" Because of this war, we will get completely destroyed. We Muslims didn't know what to do. Everyone was trying to hide and we kept on getting killed. Then the Nur (light) of Allah appeared on my right hand index finger but it wasn't enough to destroy those machines. I said "ya Allah (oh Allah) do something otherwise we will get destroyed. Our homes have perished and many of us have been killed. We are getting humiliated in front of the entire world." Then Allah increased the Nur so much that I was certain it will perish those machines. When I went out to fight those machines, then my clothing changed. I said to myself that "Qasim! It's finally time to destroy those machines." I started to run, and then ran in the air by the mercy of Allah. I was face-to-face with those machines and I threw the Nur of Allah through my index finger and to my amazement, those machines couldn't bear it for even a second and completely melted down. I went back and all the Muslims came out and became overjoyed saying indeed Allah has saved us and protect us. I told them how Allah is with us and you shouldn't ever be afraid again.

I saw in a dream that Israel started constructing a large brown coloured building in the land of Palestine. Because of this the Muslims of Palestine became very angry as well as other Arab nations thinking why is Israel making a building there, this is the land of the Muslims. The Muslims of the world raise their voices against it. They started to protest against Israel but Israel did not stop and the Muslims were unable to do anything further to stop them except they just protest. When I saw this I said

“what kind of building is this that so many Muslims are protesting.” I went on a flying machine similar to a plane to see what the building was. When I came closer, I saw more and more Muslims protesting but Israel had almost completed the building. When lights were turned on in that building, Muslims became outraged and started even more protests. Then suddenly there was a huge blast at the base of the building. The impact was so intense that the entire building was disintegrated to mere ashes. A terrifying dust storm was formed because of this and it spreads everywhere. Many Muslims and their families were affected by it. I saw thousands of dead and injured men, women and children. The dust storm was so intense, it blocked out the light of the sun and changed day into dark evening in an instance. It was so bad no one could even go for help. I just couldn't bear watching so I turned away however the storm continued to spread. It spreads to the Middle East, Sudan, Egypt, and many more Arab countries. It caused so much destruction it was hard to put in words. I said to myself “what exactly did Israel do to cause such a huge storm. What was in that building that Arab countries were angry about? And when will this treacherous storm stop?” And the dream ended there.

I saw in this dream that the president of America went to Israel for a visit. I said to myself that “there must be a reason for this and I have to find out why.” I wore a suit and flew to Israel on a plane type machine. The president of America and the prime minister of Israel gathered in a building to meet. I said that “I must go inside and if Allah wills then no one will recognize me.” I took Allah’s name and went inside. No one stopped me since they thought I was part of the meeting and an agent of an intelligence agency. There was a huge hall in the building and there were many people in it. I kept an eye on the president of America and the prime minister of Israel. Then they both went to the corner of the room to a cabinet type

area. I followed them and saw that they sat there and started talking. I said that “I have to get closer in order to hear what they're talking about. I don't think they will recognize me since no one has yet.” I stood near them as if I was minding my own business. Israel's prime minister told American president that “I have almost completed the secret Temple of Dajjal and soon only the name of Palestine will be left and then we will rule the entire Middle East.” The American president then replied “we will rule the entire world not just the Middle East.” I became shocked that they had already built the temple of Dajjal while I was unaware. I came out from there in a state of great concern and I started to go towards Palestine. I saw that the army of Israel were breaking the houses of Palestine and Palestinian children were fleeing with their mothers. I became sadden by seeing those small children encounter such a great hardship. I said “how will they survive and who will help them? Then I saw that all of them were going towards the building in which I just left. I said to them “why are you going to the building where your persecution is being planned?!” A woman said “then where else can we take our children? We have no other choice. She said "they may kill the adults but perhaps they may spare the younger ones.” I became even more saddened on hearing this. I said that “those people are very oppressive and they had made a plan to finish everyone.” I quickly boarded my plane and went to find the Temple of Dajjal so that I can destroy it before it is completed. I soon found the Temple of Dajjal. It was a light brown coloured building and it was completed. After seeing this I said that “something is going to happen and it's best to get out of there.” Just as I turned a blast occurred which leads to storm and sand and dust started blowing everywhere. Big buildings started to get destroyed and the homes of Muslims started taking on severe damage. I thought about those kids and I started to search for them in the storm but the storm was intense and overwhelming. It had blocked out the light of the sun which made the temperature plunge drastically. I saw those women and children from far away. Upon seeing those kids I said “how will they survive outdoors in such frigid hard conditions.” I tried to reach them but the debilitating effects of the sand storm were just too much for me to manoeuvre. I was devastated by what had happened. I felt helpless. No one was coming to help these people and I had no means. I knew only Allah could save these people.” I continued to observe the sandstorms destruction and decided it was time to go; staying there risked my machine and me becoming trapped there. I set back towards Pakistan and the dream ended there.

Muhammad Qasim Told,

31 March 2018

In this dream, I find myself in a house which is in the Middle East. It was a very big house but it was old fashioned. There were a lot of rooms in this house and the walls were painted green. There were people in the rooms of the house who were all busy working privately. I said to myself "what am I doing in this house?!" I walk through the house and there was a window in one of the rooms which opened outward. Standing at the window was a child around 12 years old and he was looking at something outside. I look out the window to see what he is looking at and I see a house off in the distance. This house was very modern and large like a big building. There were a lot of people there. A man had a red car and he was driving it around there. I feel like this man may have been the homeowner. He was drifting the car and performing different stunts. On lookers start praising him after seeing this. That man was doing some pretty awesome stunts. After that, I begin walking towards another room, the same child from before comes running towards me and greets me. He tells me his name and I greet him back. He said "did you see that man drifting that car?" I said "yes I saw him. This is leisure for rich people. He has a car and has a large area too that's why he is performing different stunts." The kid said to me "can you please play cricket with me? I have a bat and a ball." I said "sure why not!" Just then his mother called him from the other room and said "finish your homework first, then you can play! Then that child said to me "please stay here! I will be back as soon as I complete my school homework and I will bring back the bat and ball too. I told him "that's fine! I will be waiting here!" Then suddenly something comes in my mind that I walk towards the window again and start watching the man with the red car. After a while another man comes up to the window and start watching the car stunts too. I look at that modern house and it was strongly built and looks very nice from there. The man with the red car shouts to the crowd with pride: "Look! I am doing such a good stunts." Then suddenly I hear a strange sound from the base of the walls of that house and the earth around

them start to sink. The walls of the house also start collapsing after that. Upon seeing this, I tell the man standing next to me that "look! The earth is sinking from there and the walls are also collapsing." He was surprised to see this and said "how did this happen? This house was so sturdy!" I said "yes but I am worried what if the debris from the walls of that house fall on our house and damage it." He replied "no! This is not possible. That house is far away, even if the walls collapse, the debris won't reach here." Then I see that the earth in front of that house starts sinking and one of the side wall collapses. The earth start sinking very fast but the people in the surroundings don't pay attention towards that. They were busy watching the stunts of the man with the red car. Neither does the man himself pay any attention towards that situation. I said to myself "the earth beneath this house is sinking and these people are heedless and are still busy boasting about this man." Then suddenly that man turns his car towards the parking area. The earth was already sinking very fast and some of the people who were praising the man also get swallowed by the earth. Others start screaming when they saw them getting sunk into the earth. Due to the collapsing walls and sinking earth there was a lot of dust around there. As soon as that man reached the parking bay and he was about to park the car, the earth sinks and that man sinks very deep along with his car. Upon seeing this I become very sad. I asked the man next to me "do you think this man is still alive?" He said "no, he must have died." I said "yes, after getting buried under so much soil he must have died due to suffocation." Upon seeing this horrible scene I said "I have to go outside and warn those people to get out of there as that house is collapsing." By the time I reach outside, the earth starts sinking even faster and a lot of destruction happened in that house due to this. Then the earth continues to sink until it reaches the house where I was present. The earth sinks from under one of the walls of this house too and the wall collapses. Then one of the rooms of this house also collapses and creates dust around there. I become worried that this calamity has also reached here and what is going to happen next?! Suddenly the earth stops sinking near the main entrance door of this house. It only sinks up to there and doesn't sink any more due to which the people of the house can get out. I express gratitude to Allah (swt) that the earth has stopped sinking there. When I take a look at the soil which was sunk, it was equal in breadth all the way starting from that house. I see some pieces of iron in the soil that sank and there were similar patterns on that soil. It was cut in an organized manner in lines as if in the hindsight someone was collapsing these houses with proper planning. Then I thought that I need to hurry up. I run towards inside and shout out "get out of this house! Because the earth beneath this house is going to sink". Some people listen

to me and they carry their belongings and start to head out. Then I realize that some of my stuff is also there. I quickly go towards a room to pick up my things. Upon seeing them I get a feeling that I got all this from Allah (swt). After picking up my stuff, I think of that child and I go and find him in one of the rooms. I tell him to get out of there as this house is going to collapse. He and his family pick up their belongings and run towards outside. The sinking earth was still stopped near the main door but the earth starts sinking from the other side of the house and there was a destruction in the surroundings. After evacuating that house people ask me what shall we do now and where can we go? I said to them "don't worry" and I point towards the east and tell them "to go in that direction. There is a small river on the way. After crossing the river you will see another house, you can go to that house." Those people start walking in that direction. I was also carrying my things with me and I never put them down. I said to myself "what if I put it down somewhere and forget it or lest it gets buried." Hence I carry my stuff all the time. I go inside the house again and bring some more people out. As I come out, the first group of people return to me and ask how we will cross the river? I take them along, that river is shallow at one point. I ask them to cross the river from that point. We cross the river and go further ahead and find a small, old and weak house. When I see that house I said "It is the same house where I was born." I tell those people to seek refuge in that house and when Allah (swt) wills everything will be fine. Those people go inside that house. I said to them "we need to strengthen this house and we need to protect it from beneath the ground as well so that calamity doesn't befall this house and damage it and Allah (swt) will definitely help us." Then I go back as there are some other houses as well. I tell the people of those houses and the two big houses "to get out and go towards that house across the river." Those people start heading towards that small and old house one after another. After this the scenes in the dream go into a fast forward mode. I don't remember what happened during that time. Then when the scenes become normal again, I find myself in front of the door of the house. I feel like that calamity has shed away and those people who were saved are all in this house. When I go inside the house, I find that it has changed completely. I become very surprised and said that this is the same house that was built by the last Prophet Muhammad SW and I was looking for the same house in my dreams. Allah (swt) has returned this house to us by His special mercy and I become very happy. This house is much bigger than those two houses. I walk around in this house and find that there is peace and prosperity everywhere. I enter a very big room there. And I see that a lot of people are sitting together talking to each other. Muslims from all over the world with different

languages and cultures are gathered there. I looked at them and thought that until the calamity didn't befall them these people didn't even want to see each other. And now they are gathered in one place and talking to each other as if they are real brothers. They are consoling each other and treat each other with great respect and honour. Then a young man enters the room, he looks familiar and I feel like I have seen him before. Then I thought to myself his looks resemble the child that I met in that house in the Middle East. During this, that young man also looks at me and starts talking to me. I said to him "I met a child and you resemble a lot with him. I remembered that child upon seeing you." He said to me "I am the same child." I become surprised and call him by his name and ask him "are you that same child?" He replied "yes! I am the same child that you met." I said to him "you have quite grown up now." He said "yes, I am a grown up now and I am very happy to see you." I talk to him for some time and upon seeing this I get lost in myself. Then I sit somewhere in that room. I am still holding tight to my things that Allah (swt) gave me. I said to myself "many years have passed in chaos and I didn't even realize that this young man was a child at that time. After so many years, I got time to take a sigh of relief and saw these times of peace and prosperity. Ya Allah! When I see the walls of this house, I feel as if it is very strong and no one can defeat it. There are blessings and mercy of Allah (swt) showering upon us from the walls and the roof of the house." Then I think now there isn't much time left. Very soon we are going to meet with Allah (swt), the lord of the worlds! And dream ends there.

Muhammad Qasim Told,

I saw in this dream that, I come out of my house and I saw a park there. Then I saw that a big building is under construction and it is near to completion, and I saw a big hall like room there which had quite a few beds inside it. One of the beds was occupied by a familiar person and he said that "this is my bed." I said to myself "what is he doing here?!" He said "if someone else wants to live here they can come

and occupy the other beds for themselves." I went to one of the corners of this hall like room and saw a park on my left-hand side. Another person came there who also looked familiar. Here I said that "Corona situation will remain the same for a few months and if a strict lock down is implemented then it will be safer otherwise virus will spread." Here I recalled the earthquake dream in my mind and I said to them that "economy of some of the countries will be ruined due to this virus. Rather it might be the case that some countries might break apart to an extent that only their names would survive." And here I recalled that part of the earthquake dream where the business buildings started collapsing. Then I thought about Pakistan in my mind but I did not say anything out of concern that it might become true. Here the other person said that "if the economies of the countries are going to collapse then we should get some dollars and reserve them." I said to them "No! My suggestion is that we should buy and preserve the gold as it will be acceptable in any country." The dream ended there.

In this dream I don't know where it started but I saw a little chaos and some people tried to find ammo to fight others. I asked someone "why are you looking for ammo?" He said "there are bad people coming and they will try to destroy our homes and they will kill us." When I look around, I find out what he is saying is the truth. Then I saw a place where there are some people present with ammo and they went another way. I go there and I saw some ammo then I saw a person and he started to collect it. He said "we need it to defend ourselves". When he finished collecting ammo then he ran home. I also go behind him to see what he will do. When I go to his house some people came and started to attack his home. But he defends it and they run away. Then I go in another direction and I saw chaos has spread even more. People with ammo are running here and there. Then I saw a big and well known person also collecting ammo. I asked this well known person "why

are you doing this?" He said "more enemies are coming here and this situation will become more troubling, we have to save ourselves". Then I went to another side and there I saw another well known person and he was also collecting ammo. I asked him "why are you collecting ammo?" He said the same; I was so upset that I said "what is going on here?" And from where is this ammo coming from?" I saw that the ammo kept on coming and people kept collecting it to fight. Everyone was busy in collecting ammo but who is our enemy? Then I heard the news on TV that some important person got killed. And after it more chaos arose. Then I said "now this chaos is going to spread throughout the entire country."

In this dream I find myself in a place that looks like Pakistan that is not developed. In the distance, I see some buildings and nice houses. I say, "I should go there because that place is better than that." Then I go there and see nice buildings, houses and lots of people. Suddenly I hear an explosion and I feel warm. People are crying out for help and Allah saves me by His grace. When I reach out to people for help, I find many dead and injured people crying for help, their bodies melting. I say, "What kind of explosion was that? If I hold someone's hand, their hand separates from their body because their body is melting." I say, "What's the matter?" Many of the dead and wounded have no hope of recovery and are dying of pain. One lucky survivor says to me, "Qasim! Get out of here, this place is not safe." Then I hear another explosion and then a series of explosions. I say, "I can't help anyone in this situation." Then I run back from this place to the first place and say, "However this place is not developed but it is a better place than that developed place." Then I think, "Who is doing these explosions and when and how can they be stopped?" And the dream ended there.

(Truly I am not Claiming Imam Mahdi or Anything)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

23 February 2016

Muhammad Qasim narrates that in a dream, I saw that Allah commands me to do something in a dream and I am doing that. Some people say to me, "You are misleading people in the name of Allah and His Messenger, the last Prophet Muhammad ﷺ." Some say, "You write these dreams yourself and try to show people that you are Imam Mahdi, while others say that I am a liar." Today, I am responding to the statement that "I did not use the name of Allah and His Messenger, the last Prophet Muhammad ﷺ to mislead the people, nor did I write these dreams myself, nor I am trying to show people that I am Imam Mahdi. I have never claimed to be the Messiah or even a scholar, I am just a simple man and I want nothing from anyone. Khatimin Nabiyyeen Hazrat Muhammad ﷺ, is the last prophet of Allah, and Allah's mercy is for everyone. I just want to be Allah's friend. That's the truth and now it should be clear." These are the dreams of Allah, (the

Lord of the worlds and the owner of all creatures). I have tried my best to describe my dreams exactly as I have seen them and only Allah, the Lord of the worlds can turn these dreams into reality. I seek help only from Allah and Allah alone is my helper. I have never forced anyone to believe in these dreams, everyone has the right to believe them or not. Allah and the last Prophet Muhammad ﷺ, have commanded me to narrate these dreams and this is what I am doing. Allah has also told me, "Qasim ! If someone calls you a liar, tell him to come and I will come too, and then we will send the curse of Allah on both liars and whoever uses the name of Allah and the last Prophet Muhammad ﷺ to mislead the people would always be in the fire of hell and may the curse of Allah be on the liars! Ameen."

I Am an Ordinary Muslim. Avoid Giving Me 'Titles':

When I started sharing my dreams, I only put my trust and faith in Allah Subhanahu Wa Ta'la. I had the belief that only Allah can help me and only He can turn my dreams into reality. Before sharing my dreams, I had never heard or read any hadith about the Mahdi, and then people told me that your Dreams are like the Mahdi's. I respect Mahdi (Alaihissalam). But, (I think) my dreams do not belong to him. I never saw him in my dreams. I am only sharing my dreams, as I was commanded by Allah and His Messenger Khatam-un-Nabiyyin Muhammad ﷺ. I have never been shown who the Mahdi is and I am not the Mahdi, nor do I want to be the Mahdi, because Allah and Khatam-un-Nabiyyin Muhammad ﷺ are with me and I need nothing more to succeed. I am just like any other ordinary person (a simple human being). And I hope and trust only in Allah SWT. Allah's mercy and help are not only for the Mahdi. I hope you understand. I have always denied that I am the Mahdi. And, I really don't want to be (The Mahdi). Mahdi cannot turn my dreams into reality. There is only one Almighty Allah who can do this. And I solely hope and faith in Allah SWT. Allah SWT's help and mercy are for (His) all creatures, not just for the Mahdi. I am one hundred percent a simple person and nothing more than this. I'm just trying to spread my dreams, nothing else. I'm not making any other claim and never will. I hope everything is clear now.

(Torment of Allah and the Search for a Safe Place)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

5 October 2017

In this dream I saw myself in some place that was surrounded by homes and buildings. I felt that Allah was right above us and closer to us than the clouds. I felt that "Allah was in a state of extreme anger." With a loud and terrifying voice, He started saying things like "the verses of punishment from Quran." I felt that Allah gave some orders to these people "to do something and these people didn't obey the order nor did they care about them." Allah said "I will send the same punishment to you, just like I sent to the people before you who did not obey my orders". Allah mentioned "the punishment of the people of prophet Lut (AS)" and asked "Have you forgotten the punishment I sent to them?" I said "oh no! Allah is very angry." I saw that the people were running around frantically attempting to hide but everywhere they hid, Allah said "I know where you're hiding and no one can hide from me." Then they started running the other way and Allah told them the same thing again "I know where you are hiding and no one can hide from me". At this point I started to run and hide too. I said "this isn't good because when Allah becomes angry there is nothing or no one who can stop Him and it's just better to stay away and try to find a safer place." Then I saw a few people running alongside me. I did not ask them why they were running with me. I saw a place far away and I said "that looks like a good place to take cover." Then I sat in a corner with my back against a wall. The people who were with me sat next to me. The place where we were was much more peaceful but I could still faintly hear Allah's voice in the far distance. I said "Allah will not send His punishment here." Then I saw a few influential people had arrived. They were chatting amongst each other and said "the people here seem to be peaceful and out of harm's way so far, maybe this means Allah won't send His punishment here." So I began to wait it out, worried and wandering when Allah's anger will end. I thought to myself "when it ends and I go back to the place where we were. Will there be anything left?" And the dream ended there.

(Finding a Peaceful Place and Migrating to It)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

30 November 2017

I saw in this dream that I was in my city and the conditions weren't good. There was chaos and restlessness amongst the people. All the people were trapped in some problem. The influential people were only concerned about themselves. I was watching this all from the roof of my house and I said "Is this the state in which we are to live?" I was still watching when Allah said from the sky "Qasim! Go out, there is a peaceful place where there are my blessings and mercy, search for it, there is every kind of peace there." I became very happy that Allah has shown me the way. I left the house and I start searching for that place but I couldn't find it. I met a few people and I told them that "there is a peaceful place and we have to search for it." I could not find a way to get out of the city so I could find the place. I went to some influential people and told them but they didn't believe me and they said "there is no place like that so please don't waste your time looking." Well eventually I reached a place where there was a huge building. I said "I should get on the roof of this building and just maybe I can see the place I'm looking for from up there." I got on the roof and looked all around but I only saw my own city and did not find any place else. I said to myself "Qasim! This is the same building which I often use to see in my dreams where I go to the huge building, jumped off and Allah holds me up with his Mercy and then I start running in the air." I said "If I want to find that place then I will have to jump." I prepared myself to make the jump and came running from the back and made the jump and instead of falling down I started to run in the air. I said that "Allah has really held me." I was running in the air. I went far fast. I even went outside the city but I could only find abandoned areas outside the city. I kept on running but I couldn't find any place which was peaceful and had the Mercy of Allah. I became tired and disappointed. Then I went back to my home and kept on thinking that "how I struggled so hard and still couldn't find anything and how the influential people had no confidence in me finding it either. I said to myself that "perhaps the people were right that there is no such place and maybe I should not waste my time." I was busy working when Allah again told me "Qasim! Go out and find that place and keep on running until you find that place and do not

despair in the Mercy of Allah". Upon listening to Allah I said "I have tried already, I couldn't find it and the influential people didn't believe me either I was thinking why I try again?" Then I said "instead of living in this darkness it's worth searching for the place again Perhaps I may find it." I got out and reached the building again and looked around thinking "where should I go this time." Then I thought "I should go first as high as I can and from there, I should look for the place". I made the jump again and went as high in the air as I could. I looked in all directions but couldn't find that place. I said "I can't see it not even from this height but I should try again. Before I went to north, now I should go to east." I came down a bit and faced directly towards the east and started running in that direction. Those influential people who did not believe me before saw me running. When I was about to get out of the city there was some turbulence in the air and I became a little slow but Allah took me out of there with no problem. I began to see there were abandoned areas but I kept running very fast. I didn't stop but after going very far away I became irritated and said "I am not going to find that place", but Allah said "keep on running until you find that place." So I kept on running and suddenly I started seeing some greenery. When I got near it, I said "this is the place I have been looking for. Finally I have found that place. Allah told the truth that place was very peaceful, it was full of greenery." I became very happy after finding this place. I said "I should go here prepared." This is a new place and a peaceful one. Maybe I might not go back to my old house again. I set up some location markers so I won't have trouble finding it again. I set off back home. After reaching my old house, I packed my luggage and started back out to the place of peace, but on the way I met two people I had met before and they believed my dreams. Those people were looking for that place too. I told them the whole story and said "I found the place" they became very happy and said "take us with you please!" I said "ok! Both of you hold onto me when I begin running in the air with the Mercy of Allah and you will also be able to run with me and you won't fall." We set out for the place of peace. We took off and went just a short distance when the hand of one man slipped and started to fall down. I grabbed him. I said "this is dangerous; we should make a flying machine so that no one falls." Then I made a flying machine with the Mercy of Allah and we travelled more easily in that. When we started to fly, other people called me and asked "can we come along with you?" When I came down, I see these were those people who met me the first time and I had told them everything too and they were very happy. They said "take us with you too." I said "ok!" Then I increased the size of the flying machine and it became a very large car type flying machine. We all sat in it, and I looked at them and said "Is there anyone missing from those people who

met me for the first time or the people who helped me?" For a moment I felt a bit weary to travel. Then I said that "Allah has facilitated everything for us and all I have to do is fly the Machine. Allah will make a way and besides what are we going to if we're stuck in this darkness. I glanced at my home and then started flying towards the new place of peace. And the dream ended there.

(Hungry Lions and Allah's Help)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

March 2015

In this dream, I was in my old home and everything was broken and there was no light. I said "maybe it's written in my destiny to live in this darkness forever." But then Allah appeared on his throne and said "Qasim! For how long will you keep on living in this Darkness? Come out of your home and search for the place of my mercy and blessings. A place with no darkness and sadness." I immediately left my house in happiness thinking how kind is Allah that he came to take me out of this darkness. I travelled a small distance until I saw 8 or 10 hungry big size lions roaring. I ran back to my house frightened and slammed the door behind me. I say, "Oh Allah! There are 8, 10 big hungry lions outside, they will eat me raw." Then Allah said "believe me none of them can touch you." I looked outside of the window searching for lions, at the same time, 3 terrifying dogs appeared running towards me and were barking ferociously. I run backward fell back on my rear. Those dogs struck the metal barrier on the window and fell down outside. I say to Allah that "look, these dogs have attacked me and you say that no hungry lion can reach me?" I sat down on the corner of the wall and Allah became angry and struck those dogs with lightning and they died right there. Allah said "Qasim! Either you obey my command or live in this darkness forever. Trust me, I will protect you and make you reach your destiny and Qasim! I am all-powerful in what I do". Allah went away and I kept laying there thinking about what I should do. Then I thought no matter what I do, death will still reach me. Its better I die outside and then die in this darkness. And as Allah says that, I will protect you and will bring you to your destination, then

I should trust in Allah. I had no other option, so I took Allah's name and left the house in fear and terror. I even left the door open so I can easily run back. I slowly went forth in extreme caution at first. I didn't see any of the lions. Then ahead, I saw the detached arm of a lion. I thought who could possibly kill such a scary lion. Going a little further, I see the head of a lion and the body of another one. Seeing this, I say that "no one can do this except Allah." I saw a huge building and I climbed its roof to search for Allah. I saw the Nur (light) of Allah going somewhere and I ran after it. When I reach the Nur, it disappeared. The Nur of Allah was so captivating that I came to realize that I was on the ground. I became shocked thinking why didn't I fall? I realized indeed, Allah was holding me the entire time. I felt very excited and I called out to Allah saying "where are you"? Then Allah said the name of my destination and said "Qasim! I am here, come quickly." With energy, I looked at that area thinking I have to get to Allah. Then I saw a large, black coloured luxury motorcycle. I drove it but the road was filled with mud which slowed me down. I wish the road was good so I could drive it fast. When I said this, a black-coloured carpet road came out of the earth and spread forth. I became happy and drove my bike at full speed, reaching my destination. It is a magnificent building, like a magnificent farmhouse where people go for walks and entertainment. I am very happy and I go inside. The atmosphere inside is very calm and peaceful. It seems as if no one has come here for centuries but its colour is a little bit faded. Looking ahead, I see that someone had freshly painted the building and it felt like Allah was going to flourish the building again and make it new. There I also see halal animals such as deer etc. I went from one room to another and then reached a large hall. And in that hall was the Nur of Allah. Allah said "Qasim! did I not tell you that I would bring you here safely?" I said to Allah that "you made your statement come true and you showed me the way. You took me out of darkness and you brought me to light. Indeed, you are the best guider. Now I will take a shower tomorrow morning and will complete rest of my work, and then I will inform you about my completion." Allah replied in a serious tone saying "Qasim! if you complete all your work by tomorrow then, I will establish Qiyamah (day of judgement) in the evening".

(Flying Carpet and the Throne of Allah Subhanahu wa Ta'ala)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2011 / 2012

In this dream me and my brother are going somewhere. It feels as if Allah Subhanahu wa Ta'ala is also watching us and observing us. Then on the way, we saw a blast. I said to my brother that "stop here! We should help these people." Me and my brother stop and it is such a scene that I become very worried and I said that "we should go from here I am feeling sick." Here Allah Subhanahu wa Ta'ala doesn't like this act and He doesn't pay attention to us. And I become more worried and said that "If it happens to get worse I would have vomited." Then I said that "If this happens again then I will help the people and Allah Subhanahu wa Ta'ala will like my repentance. Then we come back home but its dark there. I said that "till when will we remain in darkness?" Then I said, "It would be so good if I find a way out of this darkness". Then some people said that "there is a carpet that flies and goes high up." Then I ask some people, "How to get in?" Then there is a fence and a path and there is a room and inside there is the carpet. Those people charge 25,000 rupees for the ride. Then when I count the money it's enough and I said "Allah Subhanahu wa Ta'ala must have given me this money". Then I talk to the people at the gate and they ask for 25,000. And there are people who have already tried it and they said that "we have already used the carpet and it doesn't fly and these people are deceiving everyone that it flies." Then I thought that instead of doing nothing I should try it. Then people saw me and said that "another man is going to waste his money." Then I go inside the fence and when I go inside the room then there I saw the carpet. I said, "It's the same carpet that I gave to the last prophet Muhammad ﷺ and he offered prayer." And then I said that "this carpet will definitely fly." Then I sit on that carpet and it really flies. When I fly high then the fence also breaks up and the carpet starts flying and the same people who are doing this business say that "we could never make it fly and this man has sat on it and made it fly!" They were running after me and before they got to me they said that, "If we knew we would have stopped him here." Then I said that "The carpet

will go to Allah Subhanahu wa Ta'ala." Then I reach Allah Subhanahu wa Ta'ala and when I get there Allah Subhanahu wa Ta'ala says "Qasim! Congratulations to you that you have got here! You sit down and do Tasbih here and those people can't get to you." The dream ended there.

(Ants Make the Wooden Dice / Podium)

Assalamu Alaikum.

Muhammad Qasim Told,

February 2019

In this dreams i saw, Some people come and invite me. Among them, some are religious and some are political. They say that "come and speak here." They ask me to come on stage and speak in front of a dice/podium. That dice/podium has been imported from non Muslim country and they made it. And when I see it, I see that it's been made by non believers. I kick it and it falls on the ground. From the land where the ants live, I ask them to make dice / podiums for me. I am not going to speak on the dice / podium prepared by the infidels. Those ants come out of the ground and form wooden dice / podiums. People are amazed at how "it happened! We never saw it happen!" Then I make a speech there and the news about this incident spreads everywhere.

(Tallest Building of the World in Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

3 August 2018

I saw, in this dream people are talking among themselves that "there are tall buildings in the other countries but there is none in Pakistan." Then an idea comes in my mind that I should make a building. In the dream, I see that the tallest building of the world has 110 floors. I have a plot of land and I ask someone "if a building can be built on that land?" He said that "it is impossible for a building, you need a big plot of land and this plot is only 10 marlas or around 25 square meters." And I

replied to him that "So what at least the building can be constructed". He said to me that "There are some government rules and regulations as well, you can't build more than a 3 story building otherwise they will intervene and stop you". Then I said to myself that "I should try, I will construct the building so quietly and quickly that no one will come to know about it and when everyone will see the building they will become happy." I start the work at night time and perhaps within a single day I manage to build around a 3 to 4 story building. Then I also do the interior designing and I build flats in such a way that each floor has one flat which people can rent out and each flat will have kitchen, rooms and washrooms. Then in 3 to 4 days that building has already reached 30 to 40 stories. I also design and make the interior, then I see that there are some people who are working on the interior as well. I got surprised that "who are these people and who has called them here?" I talked to them and they said that "they are here to do the work. The work you are doing is very good but we are improving its interior so that people get impressed by it." Those people were working very hard and they almost do nonstop work. They put some chemical on the wall and rubbed it and the wall started to shine. I asked them that "why are you using chemical and even to apply it you are wearing special gear and it is not an easy job to rub it either." They said that "without this chemical the floor and walls will not shine and neither will someone like them." I said to them "do as you like." Then I told them that "tomorrow this building will reach 60 stories" and they replied "that is fine." Next morning when I arrived, that building had really reached sixty stories and it could be seen from a faraway distance. When I entered the building then those people were working inside on the next 20 stories of the building, however the wall on one of the sides was not built yet. Here I got a bit worried that we have built sixty stories but what if the building collapses as it is weak and a wall on one of the sides is also not built yet. I only thought about this and suddenly a machine with a pipe arrived there and started filling the concrete, upon seeing this I became satisfied. Then after this perhaps some people came there to see the building thinking that who has built it? Since it was good from inside so the people also liked it. Some people went to the top story and started watching Lahore city to see how it looked like from such height. I said to myself that "there is no railing up there and what if someone falls down." Then I went upstairs to put the railing but it got installed by itself. "All this work was done by the mercy of Allah Subhanahu wa Ta'ala." Then those people brought some big people inside that building so that more people come to know about it. When some media people came to know about the building then they came with cameras and reporters to see the building. At this point, I think, I go to

check the interior of the building and when I went up to the roof, those people was present there and they were showing it on the television that "so far this is the tallest building of Pakistan." When I arrive at the top my dress also changed. Those people talked to the media persons but when I arrived then the journalists said that "Qasim has also come here, we should ask him that how he made this building?" I had a back pack on me that was hanging off my shoulder like a school bag but it was small. When I am about to run and jump off the building then those people who were working there they said to me that "what are you doing? Do you want to fall and die?" The people from the media also get worried and I think I told them that "no need to be worried." Then I jump off the building and I remain in the air and I told them that "this bag that I have on me has a special gas in it and it can carry the weight of a single person." Then I ran and went further away and looked at the building and said that "this has to become the tallest building of the world and by the mercy of Allah Subhanahu wa Ta'ala this job has become easier now." When people saw me running in the air then they became very happy and the people of the media were also happy. It felt as if now a lot of people have come to know about this building because people were also watching me from down below and one or two TV channels were also showing this through the live broadcast.

(Decorated Car of Muhammad Qasim)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

In this dream i was in my home in a room. I took a shower and wore new clothes. My home was very old, damaged and rusty and I was thinking about my dreams that "how many of my dreams came true? And where am I according to my dream?" Then I think about it and I said that "my dreams related to people I meet came true so far and these people are better than me, they can do hard work and I am not able to do fast and hard work due to my weakness. If my weakness can go away I would do work like they are doing." Then I said "any way, let's go, maybe more dreams will come true soon." Then I went out from the room and went to the road in front of my home and I was watching the scenery. Then I saw our old car coming and that car stopped right in front of me. And 2 young boys came out, one

is elder in age and the other one is younger. When I saw the car and boys, I said "oh this is our old car, yes we got to fix it and now it's able to run again by the help of Allah. And now young and hard working people are driving this car." The elder boy talked to the younger boy that "we have to decorate things for this car so this car will look more good." The youngest one said "yes the guy will come soon to decorate this car." They unload decorations from the car and put them in the garage. During this I did not talk to them. I was just looking at them thinking "what are they doing?" Then they went to the same home from where I came from. Then I said "yes we are again joining at one place, we were living at different places. Now we are gathering in our old home and soon more people will come to know us and they will join us soon." Then I go inside the home to see what they are doing inside the home. I saw about 4 to 5 people including these young boys, they were planning something saying "we have to do more good work". I look at them and I said that "let them make plans and don't disturb them." During all this I did not talk to anyone and then again I went outside. When I go to the garage, again I saw a man who arranged the decorations. When I saw him, I said "I saw him before somewhere but I don't remember him", so I ask him, "who are you and what are you doing here?" I didn't tell him that I saw him before. He said "I am a man who decorates the cars and I came here because someone asked me to decorate this car." I said "yes I saw a young boys talking about you". Then I asked "are you good with it, I mean are you a professional?" He said "I already decorated many cars before, the cars you are seeing on the roads, I decorated them all, so don't worry I will decorate your car in a professional way". Then, I start working with him so there is not a single mistake left by decorating the car because when the other people see our car they should feel good by seeing our car. There was a box and in this box, there were colours and brushes and they were beautiful colours and brushes. I never saw these types of colours before on any other cars. Then I see some colours and brushes were missing in the box, I ask him "why are they missing and where are they?" He said "this is all the decorations I have and these boys took them all and he said, leave them!" Then I said that "wait! Let me find it from the other decorations, maybe they are in other places". Then I look at all the decorations and I say to Allah "help me find them". And then I find 3 to 4 colours and I give it to him and he said "nice you found some colours." Then, I said that "about 4 colours are still missing and the car will not be decorated properly." Then he said "I will decorate it so no one will notice it". Then he starts decorating the car, and he said "when its ready, people will ask about you; how did you do this and we never saw a decorated car before like this." And dream ended there.

(Muhammad Qasim's Dreams Interpretation)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

29 September 2018

In this dream I am sitting in a room with a few other people. I narrate a dream of mine to them and then I ask them for its interpretation but they do not tell me the correct interpretation of that dream. In that dream, I leave the house around 11:00 am in the morning. The intensity of the sunlight is very high but I have to reach a place under any circumstance. Muslims also see me on my way but a lot of them simply ignore me and very few people join me and then the afternoon comes, then evening and then the night falls. At night time, we reach a house and then after a long and dark night a new morning begins. Upon hearing this dream they say that what can be the meaning of this dream. They tell me the interpretation of the dream but I am not satisfied with it. Then one person mentions another dream of mine and tells me the interpretation of it but I said to him there are many dreams but we can not be sure about their interpretation. Then I leave from there and I see that one person is drawing something on a wall. When he sees me he calls me towards himself and draws a painting on a wall to demonstrate the interpretation of the dreams. He explains the interpretation of my dream and the other dreams by his drawings on the wall. When I see his painting on the wall I said to myself that his painting is quite good and he has put a lot of hard work in it. I listen to all his explanation however I am still not satisfied and keep thinking what can be the interpretation of my dream. After talking to that person for some time I leave from there. When I come back into the room then people are discussing among themselves that what happened to the other dreams that Qasim has shared? When will they become true? Those people are quite worried about the dreams – one person says that "we should ask that particular person about these dreams as he might be able to explain their interpretation and also tell us when they will become true". Just after I listen to their interpretations then suddenly I find out about the interpretation of the dreams as if Allah has enlightened my heart with their interpretation. And I say to them that listen to me carefully, I will tell you the

Interpretation of this dream: When I leave the house in the morning at 11am, this is the time when Allah and Muhammad SAW order me to share my dreams. The intensity of the sunlight means that this work is not easy, even though the Muslims read my dreams but most of them do not believe in them. I keep on walking and some other people keep joining me and by the help of Allah at the night time we eventually reach the house in which we are present in now. This means that the dreams which were important to share we have shared them all and we have also shared them with the big people. The day time in the dream symbolizes the time when the Muslims could have united if they wanted to, and at that time the circumstance were not too bad for the Muslims. The sunlight was intense meaning despite the rough and hard circumstances the Muslims could have united meaning they could have planned according to the dreams. But then the afternoon came, then evening and eventually the night-fell meaning that not only that Allah has warned the Muslims about what is going to happen but well before time as well so that they can prepare themselves. But the Muslims have wasted the time and did nothing, now it's the night time meaning the time for unity is gone and the Muslims have been surrounded from every direction. Now the Muslims will not be able to see and decide that which direction they should go into and how to get out of this darkness. No matter what planning the Muslims do to come out of the darkness it will be unsuccessful and the evil forces will kill them and they will not be able to do anything and they will keep getting persecuted and oppressed. Look at the world around you today you will find that Muslims are being oppressed more and they will stay in the darkness. When the Muslims will be oppressed then after that the time will come when Allah will order me that "Qasim! Go and turn the darkness of this world into light with My permission and help". Then with the help of Allah I will end the darkness from this world and the world will become so bright that neither will there be the intensity of the sunlight nor of the cold; meaning there will be peace everywhere. This is the interpretation of my dream. Upon hearing my interpretation those people become very happy that we are very close whereas we were thinking otherwise. Dream Ends.

(Adhan of Muhammad Qasim Ibn Abdul Karim Inspires Religious Leaders)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

29 March 2022

In this dream I see a small hill and that I have to climb on this hill and say the Adhan (Azaan). I am also accompanied by some people. As I walk towards this hill, I am confused at first because I have never done this, but I feel that I have been instructed to give Adhan. So in some hesitation I continue to walk towards the hill. When I get to the top of the hill and begin the Adhan. When I begin with 'Allahu Akbar Allahu Akbar' my Adhan does not sound professional (like the Adhan given in mosques which has beautiful tone of recitation). But as I continue further in reciting the Adhan, reaching the part Ashadu an La Ilaha Illallah, Ashadu un namu hammadar Rasool Allah' it continues to become better and professional. When I recite the part 'Hayalas Salah Hayalal Falah' I do it with a professional tone like in the mosque. Then I see that more religious people beneath the hill start noticing

my Adhan and they seem impressed. I finally say 'Allahu Akbar Allahu Akbar, La ilaha illAllah' in a beautiful and professional way, then it comes to my mind that this Adhan ending sounds just the way it was done hundreds of years ago in Makkah, when the first Adhan happened in Makkah. Dream Ends.

(Meeting With Allah and the Last Prophet Muhammad ﷺ)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

"All my dreams are as clear as if they were happening in real life. But when I wake up, I feel like it was just a beautiful dream. Whenever I see Allah Almighty and His last Prophet Muhammad ﷺ in a dream, I wish I could have such a dream all the time. The colours I have seen in my dreams, I have never seen in real life, I will give them 10 out of 10 marks. Shaytan can never imitate the glory of Allah Almighty. Nor he can take the form of last Prophet Muhammad ﷺ. Allah Almighty is the one who often appears in my dreams. I have never seen Allah Almighty with my own eyes in my dreams. I just feel that Allah Almighty is on the Throne and I am hearing Allah's voice from behind the curtain. The sound sometimes comes from the sky or I see incredible light, sometimes a wonderful sound comes from this incredible light. Whenever I see the light of Allah Almighty, my eyes freeze, it is impossible to describe it. I do not say that it is the light of Allah Almighty. Allah Almighty is above all that cannot be classified as light and He is the Creator of light. Allah Almighty's voice is also incredible, it has so much mercy and purity that it is impossible to describe in words. In my dreams, the voice of Allah Almighty is louder than a human being; there is no weakness like breathing while speaking in this voice. In every dream, I feel that Allah Almighty is closer to the front of my brain and my jugular veins. Allah Almighty has never spoken to me out loud, nor has He ever spoken to me in anger or in annoyance. Allah Almighty always speaks to me very kindly and calmly even though I commit countless sins every day. Allah Almighty and the last Prophet Muhammad ﷺ never forced me to follow their teachings, that is why I like Allah Almighty and the last Prophet Muhammad ﷺ more than anything else. Allah Almighty and the last Prophet Muhammad ﷺ speak to me in Urdu, it is my basic language. I bear witness that there is no god but Allah and Muhammad ﷺ, is the

last Prophet and Messenger of Allah and that I am only a Ummati of the last Prophet Muhammad ﷺ. I bear witness that curse upon the liar.

(Al-Masjid An-Nabawī and Golden Papers)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

5 March 2015

In this dream I saw myself sitting in Al-Masjid An-Nabawī. I felt a very good feeling of peace, knowing that I am in the pure Masjid of the last Prophet Muhammad ﷺ. And then I saw the last Prophet Muhammad ﷺ coming towards me. He sat right in front of me and in his hands were four big size papers made of gold. The last Prophet Muhammad ﷺ told me in a very excited tone that "Qasim! Give this message of mine again to my Ummah (nation) that whoever supports you is just like a person who has supported me and that person will be with me on the day of judgement. And Qasim, give this message of mine to those people who are with you that they shouldn't worry about this work they have done as not being written as good deeds. They should never think of their work as no value. No matter what type of work it is even if someone does a very small amount of work, then Allah will never ever let it go to waste. Allah will multiply that work many, many times. This isn't any ordinary work which they are doing. They shouldn't think that I do not know their names and their contributions. Allah has written them on these papers and I read their names and their work over and over. And Allah informs me of them directly, they have nothing to worry about. And they will be with me on the day of judgement. These golden papers which Allah has, given me, I will carry them with me all the time. And on these golden papers are the names of those who will be with you in difficult times. Qasim! The true Islam of mine will spread throughout the entire world with the help of Allah. Make sure you deliver this message of mine to those people." I sat there quietly listening to everything the last Prophet Muhammad ﷺ said. I wanted to read the names on the paper but I couldn't move a single part of my body. I don't even know if my name is in there.

("Qasim, Whoever Is with You as If He Is with Me" - Hazrat Muhammad ﷺ)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

9 October 2015

In a dream, I saw the last prophet Muhammad ﷺ giving a message to the Muslim Ummah (nation), which I am going to share today. On that night, the last prophet Muhammad ﷺ appeared thrice in my dream. Yes, Prophet Muhammad ﷺ appeared in my dream three times in a single night. In the first dream, I saw that the last prophet Muhammad ﷺ was worried and walking here and there and then, he ﷺ tells me with great zeal that:

"Qasim, convey this message to my Ummah, that whoever stands with you is just like a person standing with me and whoever supports you is just like a person supporting me and he will also be with me on the day of Judgement."

And the other two dreams were the same too.

Muhammad Qasim says in a dream of Sep 30, 2015, I saw that it was daytime and Allah ﷻ was on the Arsh (throne). The last prophet Muhammad ﷺ and I were at same place. I was sitting lost in my thoughts. The last prophet Muhammad ﷺ asked me the reason. I replied him ﷺ that "this task is too difficult. Till now, only a small number of people have believed in me and my dreams and few other people are waiting to see if my dreams come true or not and they say that only Allah ﷻ knows if I am telling the truth or not. And everyone else thinks that I am crazy and to support me is a sin." Upon hearing this, the last prophet Muhammad ﷺ became anxious and a bit angry and came towards me hurriedly and said that

"Qasim, convey this message of mine to my whole Ummah that whoever supports you and stands with you is just like a person who is standing with me and supporting me. It is my Islam since you are doing everything because Allah ﷻ and I said so and Allah ﷻ will give them a double reward. Look, whoever is

supporting you, Allah ﷻ himself is writing their names on a golden paper with golden words and my son, Allah ﷻ does not waste the rewards of those who do good".

I don't care whether people believe me or not. It doesn't affect me and I am not asking for any reward from anyone. The last prophet Muhammad ﷺ ordered me to convey his message and I am just following the last prophet Muhammad's ﷺ command. That's all.

Assalamu Alaikum.

Muhammad Qasim Told,

May 2015

In a dream, I saw the last Prophet Muhammad ﷺ was sitting with his Companions (may Allah be pleased with them). I told myself that "the last Prophet Muhammad ﷺ and his Companions such as Abu Bakr Siddiq (may Allah be pleased with him) and Umar (may Allah be pleased with him) had established Islam, and now I have to restore true Islam just as it was 1400 years ago." Then Allah ﷻ emanated in a manner befitting His majesty and said, "You are not alone, I am on your side." The dream ended here.

Assalamu Alaikum.

Muhammad Qasim Told,

28 September 2015

In this dream I was going somewhere in the darkness of the night. And I didn't know where to go. As I keep on walking, I see that under an open sky the last prophet Muhammad ﷺ was laying on a bed. I go to him running and after sitting on the bed. I ask him ﷺ that why are you laying here? Why are you not sleeping in your home? So the last prophet Muhammad ﷺ said "Son, which home? The house which I made has been taken over by some people and the people who were in my house have run away in the form of groups and the ones who have taken over my house are damaging it severely." During this for the first time in my life. I look in the eyes of the last prophet Muhammad ﷺ. When my eyes look into the last prophet Muhammad's ﷺ eyes, they get stuck on his and I couldn't look away. I feel as if in his ﷺ eyes Allah ﷻ has filled all of His Nur (light), which was an unbelievable moment for me. I saw that the last Prophet Muhammad ﷺ eyes were wet. Last prophet Muhammad ﷺ said to me, "My son! Free my house through Allah's help from those people and rebuild my house again. And lead my nation and unite them all into one nation again so that my house is again respected in the world as it was respected before. And don't be afraid for Allah is with you. He will help you in every condition. You are my son and it is impossible that the Mercy of Allah skips my son." I looked into the last prophet Muhammad's ﷺ wet eyes and said that no matter how dangerous it is. I will do this work of yours ﷺ by the help of Allah. Upon hearing this eyes of the last prophet Muhammad ﷺ were filled with happiness and the last prophet Muhammad ﷺ started invoking Allah ﷻ that "help my son". Then I went away from there and the Nur of Allah showed me the way to the house of the last prophet Muhammad ﷺ. And when I reached the last prophet Muhammad's ﷺ home then I said to myself that Qasim this is your own home. Then I saw that there were some armed people on the roof of the house who are watching over the house so that no one comes inside. Suddenly I see the Nur of Allah ﷻ again on my right hand index finger and from this Nur of Allah ﷻ, I destroy them. And then I go

in the home and I see that the whole house has converted into a cave so I become very sad. Then I look for the Muslims thinking where they all are? And how will I call all of them. Then I say Allahu Akbar, Allahu Akbar. So some people hear my voice and say, "Who is this one who is raising his voice from the house of Khatam-un-Nabiyyin Muhammad ﷺ?" Then suddenly my eyes open.

(Spiritual Ranks of the Prophets (AS) and Muslims)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2009

I saw this dream in 2009. It was dark evening time and I was sitting inside of my house, then suddenly a sharp light entered from the window. I ran outside out of curiosity and what I saw was beyond words, I saw beautiful castles floating in the sky; shining like stars. They were see-through like crystal and moving in one direction, and then among them was a very marvellous and magnificent looking castle, this castle was extremely huge and much taller and wider than any other castle. My eyes were fixated on this castle, I couldn't look away, its beauty was immense and its height was immeasurable; going above the sky and beyond my fields of vision. This castle was leading ahead of all the other castles, on that castle was the name of the last prophet Muhammad ﷺ written eloquently. In the dream, I strongly felt that these castles were the spiritual ranks of the Prophets (AS) and on every castle the spiritual ranks were also written. After seeing the beautiful and amazing castle of the last prophet Muhammad ﷺ, I felt overjoyed and thanks to Allah ﷻ that I am a person in the Ummah (Nation) of the last prophet Muhammad ﷺ, whose spiritual rank is greatest to Allah ﷻ. The spiritual rank written on the castle of the last prophet Muhammad ﷺ was 99,000 and this was the highest to Allah ﷻ. The second biggest and most beautiful spiritual Castle was that of prophet Ibrahim (AS), and there were the spiritual ranks of other Prophets (AS) and I didn't see a spiritual rank of any Prophet (AS) to be less than 12,000. All these beautiful castles of the Prophets (AS) were like the shining of the stars. There were really no words to describe how astonishing it was and soon after, they went by until they

were no longer visible to me. From what I have seen in my other dreams, the spiritual rank of the Sahabah kram RA (Companions of the last prophet Muhammad ﷺ,) are from 8,000 to 10,000. No one can ever reach the spiritual rank of any of the Prophets (AS) and also no one can ever reach the spiritual rank of any of the Sahabah kram (RA) and the spiritual rank of a normal Muslim starts from 200. The dream ended there.

(Admission of Muhammad Qasim Bin Abdul Karim in the School of Hazrat Umar RA)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2004

In this dream I was living in a house. One day I was talking to myself and Allah was watching me from the sky. I say to myself "Qasim! What sort of life is this? You don't do anything special all day long". Then after some time the last Prophet Muhammad ﷺ came to my home. He made me sit next to him and said that "look Qasim! I have got you admission in a nice school (I have forgot the name of the school). You will go to school from tomorrow." And he passed his hand over my head and said "read and write in the school and then enlighten my name throughout the world as it once was". I became very happy that Allah listened to me. Last Prophet Muhammad ﷺ got me admission in the school and gave me the address of the school and said that "reach the school before 8 tomorrow." I said "ok I will reach the school on time Inn shaa Allah (Allah's will)." Last Prophet Muhammad ﷺ did not give me any books. I had a few old books and I gathered them and pressed and prepared clothes for the morning. I was thinking that it would be an ordinary school. Who is going to observe me there? I woke up in the morning and got ready and went out of my home. A bit far from the home came a road junction and I could not remember where to turn from here. Hazrat Abu Bakr (Radiallahuanhu/, May Allah be pleased with him) was passing from there and I stopped him to ask the address of the school. Hazrat Abu Bakr (Radiallahuanhu) became surprised hearing the name of the school and looked at my state and asked

"why are you asking the address of that school?" I said that "I have been admission in that school and this is the first day of mine." He (Radiallahuanhu) looked at my admission letter and said "Maa shaa Allah!" (Impossible without Allah). He (Radiallahuanhu) told me the way to the school and I started to go towards the school. Now when I came near the school my eyes widened with surprise. I said that "how great is the building of this school." And then I saw a few students who were wearing very nice clothes. Their bags were also very nice. I thought that have I entered another school? Then I looked at the name of the school and no this was my school. Then why did last Prohet Muhammad ﷺ not tell me that this school is very amazing. I became very confused after seeing all this and thought that what is happening with me? My clothes are very ordinary and I have my books held into my hands and they are also very old. Outside the school was a cafe area. I sat there, and a few students came there and they sat on the table next to mine. I was getting nervous by seeing them. One of them asked my name and I told him my name. One called me and asked me to sit with them. I said to myself that "Qasim! Get ready! They will make fun of you." I sat with them and they talked to me very politely and asked me that "are you a new student here?" I said "yes this is my first day here." One asked me "what will you eat?" I said that "I have already eaten from home". They ordered juice and sandwiches for themselves and also ordered for me and said to me that "don't get tense. We are taught here that we are all brothers and we should take care of others like we take care of ourselves". And if you have any problem then you tell anyone, he will help you." I thought that Subhan Allah (glorified be Allah) the building of this school is amazing just like the students here are also amazing. But I was being affected by low self esteem inside myself. I was becoming very ashamed. Then the school bell rang and every student started to go towards the main gate and they told me to go with them also. I said to them that "you all go! I will come alone". When they were all gone then I started to walk towards the main gate slowly and said that "what just happened with me? Last Prophet Muhammad ﷺ did not tell me that this school is very extraordinary and its students are also and so are their clothes and their bags, what should I do now? Every student of the class is wearing nice clothes and only I am wearing old and torn clothes. My books are also old and rotten and my shoe is also of plastic and broken." After saying this I closed my eyes and said that "it is better to go home than to get ashamed." Suddenly I felt like the books just vanished from my hands and I got a bag. I opened my eyes and I was surprised to see that my clothes were also changed and they were like the clothes of others and my shoes were also changed. And there was an amazing bag in my hands. After seeing all this, I said

that "how did this happen? What happened when I closed my eyes that my clothes were changed to very nice clothes?" Then Allah said from the sky that "Qasim! It is impossible that Allah will leave alone someone on whose head is the shadow of mercy of the last Prophet Muhammad ﷺ. And Allah is very merciful and is fully Dominant over everything." After hearing this, a wave of strange happiness went through my body and I ran towards the main gate shouting in excitement that Allah made me like the other students of the school by His mercy." When I reached the gate then Hazrat Umar (Radiallahuanhu) was standing there. I said "Salam" to Hazrat Umar (Radiallahuanhu). He replied to my greeting and said that "I was waiting for you." I said to Hazrat Umar (Radiallahuanhu) that "I also got admission in this school and this is my first day." Hazrat Umar (Radiallahuanhu) said "Subhanallah only those who can get admission in this school are specially gifted by the mercy of Allah. Now we will go inside and then we will praise Allah and then we will go to classes. I said to Hazrat Umar (radiallahuanhu) that "I checked the schedule and you will take my first class" and He (radiallahuanhu) said that "Inn shaa Allah (Allah's will)." The dream ended there.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2 April 2016

In this dream, the last prophet Muhammad ﷺ speaks to me with a phone like device. The last prophet Muhammad's (ﷺ) voice sounds old, very tired and anxious. Last prophet Muhammad ﷺ says to me: "Qasim! I called a lot of people but no one heard me. I'm very tired now. I do not have the strength." So I reply him, "Please! Order me! I am here." The last prophet Muhammad ﷺ says to me: "Qasim! I want to meet you for a very important job. Can you come to me? So I reply him, "Why not, I have to get my passport and visa. So the last prophet Muhammad ﷺ says, "Okay, but do it all quickly." I go to a travel agent and he tells me that it will take 3 to 4 months. Hearing this, I say in my heart, "It will be too late. The last prophet Muhammad ﷺ has told me to come quickly." I come back and tell

the last prophet Mohammad ﷺ that it will take me at least 3 to 4 months. On hearing this, the last prophet Muhammad ﷺ becomes depressed and says, "Wait there, I will come to you." I reply, "Please be patient, I will come myself." You are already very tired and you have become old. "So the last prophet Muhammad ﷺ says, "No son! Work is very important. Don't be late. I have suffered a lot for my Ummah (nation) before. Still I will do it." So I feel very sorry for him and say, "Okay! You may come. May Allah help you and make it easy for you." At the same time, I pray to Allah that, O Allah! Help the last prophet Muhammad ﷺ and make his journey easier!" Then I rush to the airport so that the last prophet Muhammad ﷺ may arrive and keep waiting for me. Shortly afterwards, the last prophet Muhammad ﷺ arrives at the airport. I am very happy to see him and run to him. The last prophet Muhammad ﷺ too is very happy to see me. I say to the last prophet Muhammad ﷺ that "Allah has brought you here." So the last prophet Muhammad ﷺ says, "Yes, indeed Allah is very kind." I put him in my car and bring him to my house. I have a rented house and there is dim light in it. When the last prophet Muhammad ﷺ comes home, he sits next to me and says, "Qasim! I have come for a very important task. No one is listening to me. Look! if the condition of my Islam remains same, I am afraid that Islam may end. Everyone is busy with his own affairs. No one cares about me and my Islam. I want you to do this work for me. Explain all the dreams that Allah has shown you and convey my message to the people. Look! I've got a tool for you. Through it you convey your dreams and my message to all. And tell the Muslims that the last prophet Muhammad ﷺ has given the message that however Qasim is, after all he is my Ummati (follower) and I don't differentiate among any of my Ummati (followers) and Islam will rise from Pakistan. People should not quarrel over this and they should not be divided into groups. Near the Day of Judgment, Islam has to rise with the mercy of Allah from somewhere. No matter from where Islam rises, the good thing is that all Muslims will be united again and regain their lost glory. Islam will be looked upon with respect in the world again. So what's wrong with that? Hearing this, I say to the last prophet Muhammad ﷺ that "no matter how difficult this task may be and no matter how dangerous it may be, I will definitely do your job with the help of Allah. A wave of joy runs through the eyes of the last prophet Muhammad ﷺ and he hugs me tightly to his chest and says, "I hope from Allah that you would not disappoint me." Then the last prophet Muhammad ﷺ takes a deep breath and says, "O Allah! Thank you!" Then the last prophet Muhammad ﷺ says, "Qasim! There is also a map in this box and when you build a city of true Islam on this land with the help of Allah, I will call you to me and tell you what you have to do next." I say to the last

prophet Muhammad ﷺ that "Insha'Allah! Do not worry and rest now. Now this work is mine and I will do it with the help of Allah." After that, the last prophet Muhammad ﷺ starts praying to Allah for my success and help. Then I say in my heart that "I have promised to the last prophet Muhammad ﷺ to do this job but may Allah help me! How can I do this without the help of Allah?" Well, I take the name of Allah ﷻ and start my work. When I open the box given by the last prophet Muhammad ﷺ, it has a computer-like device and a map. With this device, I send my dreams and the message of the last prophet Muhammad ﷺ to the people and go to some big personalities. I tell them that the last prophet Muhammad ﷺ has given me this message. So they laugh and say, "Qasim! Do your work and don't waste our time." I get a little disappointed to hear this but then I say, "No! I promised the last prophet Muhammad ﷺ that, I will do this for you. Then I open the map and see which map is this. So there is a map of Khurasan and on the land before Khurasan in the east. The last prophet Muhammad ﷺ has made another map similar to Pakistan on which the last Prophet Muhammad ﷺ has written that "If you see true Islam is spreading from the land before Khurasan near end times then join it even if you have to walk barefoot through the mountains." Then a man messages me, and he talks to me in detail but he did not understand my words well. So I say to him, "Come to my house! I will show you the map and see it for yourself." Then he comes to my house and looks at the map and says, "Yes, I have also read in the hadith that this is not the land of Khurasan but the land before Khurasan. Then he says, "Now I understand what I have to do. If this is the mainland, then the army with black flags is the army of Pakistan. So I say, "Pakistan's army is the best army in the world and is selectively targeting terrorists." In response, the man says, "We have to convey the message of the last prophet Muhammad ﷺ to the Pakistan army." We have to save this last stronghold of Islam." So I say, "We have to hurry and the last prophet Muhammad ﷺ also says that whoever reads my message should pass it on and then we work as a group and spread these dreams and messages very fast." Then these dreams and the message of the last prophet Muhammad ﷺ are spread all over the world with the help of Allah ﷻ. And then the same big personalities say, "We wish! Qasim! We would have believed your words first." After that I say to myself, "If Allah had not been merciful and without Allah's help, this would never have happened."

Muhammad Qasim Told,

9 February 2018

In this dream, I was passing through a place. On my way, I look at the ground with some grass grown on it. I felt that in this land, gold, gems and other precious metals are present. When I dig the earth, I find a stone like object. When I remove the dirt from it, I find that it is gold. I become very happy and keep on digging the earth and find gold, gems and other precious metals. I become very happy and say that "I will make a machine just as I saw in the dreams by the help of Allah (ﷻ)." I put everything in a bag and pick it up and move forward. Now, I start to search for a place where I could melt this gold and other metals and make the machine. I keep on walking and then I see a building to my right. I say, "I may find some iron furnace there, from which I will be able to make the machine". When I enter the building, I feel that it is under the control of some satanic forces. I become scared on this thought and say, "If someone sees me, they will capture me". But I have to go inside the building and I do not have any other option. I say, "When the last prophet Muhammad ﷺ migrated from Maccah, the non-believers had sieged the area but he recited a few verses from the Quran, due to which the non-believers could not see him. Therefore, I should do the same thing". I try to remember but cannot recall the words, which the last prophet Muhammad ﷺ recited. (36:9). The light in the building was very dim, due to which the visibility was just a few feet. I pronounce the name of Allah ﷻ and start to move forward while reciting Surah-e-Al-Ikhlās. The satanic forces could not see me. In the building I was walking on a straight path which was very long and I was carrying a lot of weight also. I get tired but I do not give up and keep on walking continuously. It is a big building which is very deep from inside. I am continuously in fear with impression that the satanic forces are present there. After reaching a point, I feel that I have got out of the reach of the satanic forces. I get very tired and then I see a place to my left side. When I go there, I see an iron furnace, some templates and an iron table. Hence, all the materials that I required were present there. I say, "Yes! This is what I was searching for". I place my things there and after taking some rest I start to look at the iron furnace. I face a lot of difficulty due to the darkness. When I look at the iron furnace, I see

that fire is not burning in it. It seemed that the furnace was not used for many years. Coals were present in it too. Suddenly, I realize that there is nothing there to light the fire on coals. I say, "If I knew this before, I at least would have carried a matchstick with me." I become very tired and say that "this is a difficult job. I thought that it would be easy." I search for something to light a fire in the dark. At last, I find some oil and stones. I pour the oil on coals and start to rub the stones so that somehow they would catch fire but they do not. My hands already get tired because of picking the entire heavy load. During all this, the stone in my left hand falls down. I get up in anger and say that "I cannot do this work anymore." I am very tired and still a lot of work is left. For now, I cannot even light a fire and even if I do. Melting the gold and metals and making the machine is a difficult job. In my frustration, I throw the second stone on the coals too. It hits the first stone, which cause a big spark and the coals catch fire. But I still say, "I do not want to do this work anymore. I did everything that I could." Then I give a glance at the path of return with desperation and say, "I wish I had not ever started this work. Now how can I go back on this long way which is dangerous too?" Then, I look at the other side and say, "I should move forward and check. Maybe there is some way to get out of here." I just take couple of steps; I hear the footsteps of some people walking towards me. When I look to my right, I see a few people. I stop after looking at them and say, "Who are these people?" When I look closely, I see that they are wearing black clothes with turbans on their heads. They stop near that iron furnace and take out the gold and gems from the bag and place them at one side. Then they increase the fire in furnace and start to melt the gold. I become surprise and say, "What are they doing; these are my things". But then I say, "Why should I care? I am not going to do this work". I could not see clearly because of the dark. Those people make something from the melted gold. One man puts two things made from gold on the table and then starts working again. That gold was shining highly in the dark. I say, "What have these people made?" When I go near, I find two golden gears with gems embedded on their surface. Upon seeing them, I became very surprised and happy and say, "These are exactly like the gears that I wanted to make." When I examine carefully, I find them nicely made but still there is some room for improvement. Firstly, I thought that I should tell these people to improve the gears. But then I stop and say, "Whatever has been made in this darkness is enough. I should not bother them as Allah ﷻ has made my work easy. Once they have made all these parts, I will make the machine." Whilst looking at the gears, I hear the sound of someone's footsteps. I turn back to have a look and see that the last prophet Muhammad ﷺ is coming towards me. I become happy to see him.

From the walking style of the last prophet Muhammad ﷺ, I realize that he has become very weak and that made me sad. I greet him and he greets me back. I say, "Look! "These people have made these gears with such a hard work." "How they are shining and the gems on them are shining too." The last prophet Muhammad ﷺ become very happy on seeing them and says: "These people are working very hard and doing good work. Allah ﷻ will give them a big reward." Then, I say: "Could you hold them and check their quality?" The last prophet Muhammad ﷺ says, "I have become very weak and the muscles of my right arm are weak too." "These gears are quite heavy and I cannot pick them up". I say, "Do not worry; soon when all the parts are made, I will make a machine and will be capable of fixing your arm. Your arm will become normal again and you will get energy in your body too and you will work like you used to work before." Upon hearing this, the last prophet Muhammad ﷺ became very happy and he said in excitement, "Qasim! May Allah ﷻ grant you with more knowledge." The dream ends there.

(Blessed Car)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

February 2017

In this dream, I saw that, we are the final generation of people and it was our turn to use a car to reach our destination. But to our disappointment, we found out that the previous generation had mistreated that car. Everything was completely rusted and almost destroyed; the seats were like garbage and the engines were completely busted up, the tires were flat and the car wouldn't start up at all. Then I and some people with me started to fix the car. In my dreams on February we fixed more and more parts. I and those with me suffered a lot doing the hard work. For example, in one dream, we took out the engine together and replaced it. In another dream, we replace the body of the car. In one dream, we were able to start the engine while it was damaged badly we decided to go with it. But then we found out that the car had no breaks then we stopped the car and did a lot of work fixing it. In February 11th 2017, I saw the last prophet Muhammad ﷺ walking around

nearby. He looked extremely tired and worried. This encouraged us to work even harder and faster and finally, the car was good enough to drive but it went very slow. I went and told the last prophet Muhammad ﷺ that we got the car running however it won't go very fast. Then the last prophet Muhammad ﷺ became filled with pure happiness. When he came near, he said this was my old car and now we are able to drive it again. In the back of the car was I, the last prophet Muhammad ﷺ, one female and three other people and in the front was a young driver. I said "we are heading towards our destiny with the mercy of Allah." And the dream ended there.

In another dream, i saw the last prophet Muhammad ﷺ was praising and glorifying Allah the almighty, and I said, "Where is the last prophet Muhammad ﷺ going?" Then I saw that the last prophet Muhammad ﷺ is going towards Allah Almighty. Then I asked Allah Almighty, "What is the best way for us to go towards you?" بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

24 March 2017

I saw a dream and i was travelling in a city, trying to find the house of the last prophet Muhammad ﷺ. Everywhere was darkness. The Muslims had small broken houses with barely any light. And that light was coming from the big buildings of non-Muslims. I travelled a long distance until I saw a place very far away. I don't get a ride to reach there. So here is the best opportunity for me to find the house of the last prophet Muhammad ﷺ. Then I saw some people who recognized me and they asked me, "Qasim! Where are you going?" "I told them, "I'm trying to get to a place where we will get everything and there will be no more darkness and that place is the lost House of the last prophet Muhammad ﷺ. They asked me, "Can we find that place?" I told them, "Yes, from my dreams, I found it." Then they started walking with me and I asked them, "Why are you coming with me." They told me, "We believe you and we also want to escape this darkness." Then I told them, "This will be very hard for you and you will get tired, and you will leave me." They said, "We will not get tired, and we won't leave you". I said, "Ok but if you get tired then don't blame me!" Then we travelled some distance and started to become hopeless. A person pointed to a place and said, "We should go there." We started walking there until we reached the edge of the city. The lights of the building also disappeared and we were in complete darkness. Any dangerous animal can attack us, so I said, "Let's go back." Then I look at the city from behind and I see bright and beautiful light from one place. And I said, "It'll be hard to find the house of the last prophet Muhammad ﷺ without a machine." On our way back we saw a mysterious guard. I told him, "I saw you somewhere", then I asked him, "What are you doing here?" He didn't respond so then I said "at least we are not alone." Suddenly, I saw a sharp light from where the guard man was. We turned one or two blocks until we reached a park. The park was filled with awesome and beautiful lights. All the lights were coming from one small house in the middle of the park. On the door, it was written: "House of Ibrahim (Alaihisalam)." I became happy that at least we found the "House of prophet Ibrahim (Alaihisalam)." When I opened the door, an amazing light emanated from inside. There were small rooms but only enough for us to sit

down. I said, "The house of the last prophet Muhammad ﷺ is much bigger than this and we have to find that one." A woman said, "No matter Ibrahim (Alaihisalam) is a friend of Allah." I said, Yes! This is true, but it is necessary to get out of this darkness." Then in a small room, I found a control room and in front of this was a window. I realized this house can fly and I told the others that how we can use this to find the house of the last prophet Muhammad ﷺ. Then I flew the house high in the air and I went towards the direction of that far away city. And I said to myself "Insha'Allah (if Allah wills), with the help of Allah we will reach there soon." We flew some distance and the dream ended there.

Muhammad Qasim Told,

6 August 2018

In this dream I was at my home it was morning time. Allah ordered me to come out and find the place, He had shown me in my dreams. I get very happy that Allah has given me a task. I get ready and leave the house but can't figure out which direction to go to look for the place. Then I start walking in one direction, and after some distance I meet a few people. They ask me if I was Qasim, I get surprised that I've never met these people, how do they know my name. Then they ask me if I was going somewhere? I tell them yes, Allah has ordered me to find the place Allah had shown me in my dreams. They get very happy upon hearing this and say that they also want to go with me. I tell them I don't know where is that place, I have yet to find that myself. I don't even know how far is that place, you guys may get tired. They tell me, they would be with me in any case whatsoever. I say "as you wish, but don't blame me later." They say "ok." Upon walking for a while, I find a big bus, It was a modern one and was quite large. I get a feeling that Allah has prepared this bus for us. I tell all of the people with me to hop in. All of us get seated and I start driving. After driving on a few small roads, we reach at a relatively large road, and realize this is the same road that will take us to the peaceful place. I take a turn

towards the large road. There was a lot of traffic on that road. There were houses on both sides of the road. It feels like the houses behind the visible ones are being destroyed as we are passing by. It appears to be a war-like situation. I say, "we have to pass from this road quickly so that we can avoid trouble or a road blockage." I trust in Allah and keep on driving. Then the sky gets covered with thick clouds. I keep on driving for quite a distance but the road doesn't come to an end. And the traffic keeps on increasing. I say that I'm exhausted and the road is not coming to end. Then suddenly something happens and the traffic increases significantly and unrest appears. A lot of people appear rushing to the road from left and right and start running here and there. Some vehicles catch fire and people start dying as well. I ask myself "what's happening here?" I try to speed up the bus but there's a lot of traffic. Suddenly the road starts to break; it breaks into small pieces and starts sinking into the ground to cause a traffic jam. Then the water flows in from somewhere and the whole area starts sinking. I honk the truck in front of me but its tires are stuck in the road and it can't move. It was such chaos that the vehicles coming from behind were hitting the ones in front so that they move. I get worried upon seeing this and ponder what should I do now. I try to reverse but it was stuck. Its tires were stuck in the ground. I tell the people with me that the road is blocked, the bus is stuck, and the road is sinking and there is water everywhere. I tell them, if they want they can leave before the bus sinks into the earth or don't blame me afterwards there's still time, you guys can leave. People say "we won't leave you in any case we would stay with you here in the bus." I get angry and say that "I'm leaving, you guys can do what you want." I open the door of the bus but find the water all around it. I tell myself that "now it's hard to go back." I find stairs next to the door of the bus; I climb the roof of the bus using them. I could see that the road ahead was too long. And the traffic was stuck throughout. Also the road keeps on sinking and people's cars kept on catching fire, and the unrest keeps on spreading. Then I take a look at the path we had come from, and say "why didn't Allah tell me that this path was so long and difficult and that I would get stuck here?" "If Allah had told me before, I would not come this far." Then I look at the way forward and I find no way of going forward either. Tired of the situation, I sit right there on the roof and grieve over what had happened to me. Then the scene changes and I feel like Allah is watching us from the sky. And the bus is visible to me from the sky with myself sitting on top and people talking to each other inside it that "we are not going give up we need to move forward." Then a person gets up and takes the driving seat. He reverses the bus a bit, then turns it right, puts it on the sidewalk and takes it out. He starts driving the bus on the space in front of the houses

including the footpath. I get surprised that who's this guy who has taken the bus out? I don't see any signboards along the road maybe they had fallen already. Now the bus moves slowly with a lot of hiccups. I feel pleased that the bus is moving at least. Then I come downstairs and tell them that we have to move carefully so that we don't incur any damage because we have this bus only. People were talking to each other and I tell them in a bit angry tone to not make noise and sit quietly. Let the driver drive the bus and the ones sitting on the front rows should guide him and be careful if there's any obstacle or danger so that we avoid any harm to the bus and we don't get stuck again. Then I say that Allah will take us to our destination, He will guide us Himself and will show us the path. I get to the back side of the bus. The path was quite difficult. The bus had to be taken through many obstacles. When one gets tired, the other one starts driving. Bus keeps moving with Allah's help and then the evening falls. Then immediately, the road becomes very smooth and homes and buildings start appearing on both sides. I get to the roof again and find out that it was a peaceful place and the lights of homes and buildings were lit. Then I see light beyond those houses and buildings. Upon seeing this, I say, that's the place we had to reach. The scene changes again and it feels like Allah is watching us. The bus is moving on the road and the road was approaching an end where it divides into two further roads. [Left and right] I ponder, which way we have to go? Then I feel like Allah is guiding us and He has made the driver realize which way to go. Then the bus turns left, then going on that road for a while, there's another road to the right. Bus takes that road going forward a bit more, the buildings and homes almost end. And the night has almost fallen. Then I see a house on the right that has Allah's Nur (light) is coming out of it. The bus turns right once again on the road where that house is. Upon seeing it, I say that "this is exactly the place Allah had told me to reach." I couldn't believe myself that we are reaching there. When we reach a bit closer I say "this is the house Prophet SAW had built himself." I've found myself looking for this house in many dreams. Then I could see Allah's blessings being bestowed on the house. I feel both happy and surprised that Allah has made us reach here. Then I look at the sky and say with excitement, and in a bit loud voice "There's no doubt that my Allah is the Lord of the skies and the earth He has no partner." "He ordered me to find this place, I praised Him and left my house." "I found people on my way and I kept on taking them aboard." "We faced many obstacles and difficulties and we got totally stuck at one place but Allah showed us the path with his grace." "He helped and guided us, and kept on taking us out of difficulties." "Finally Allah has made us reach this place with His grace. Allah has proven His words." "No doubt Allah has His stronghold on His work. " The

bus reaches the gate of the house in the meanwhile my voice echoes from the sky and spreads all over the world. The scene then was very blessedly wonderful. It felt like Allah was directly listening to my words. People inside the bus rejoice upon seeing the house and chat with each other happily. They say "Alhamdulillah" for being able to see this house closely. And the dream ended there.

(Big Masjid & the Prayer of the Prophet Muhammad ﷺ)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

25 February 2015

I saw in this dream last prophet Muhammad ﷺ came out of his house after making wudu for Asr prayer. He ﷺ was old and needed a stick to walk. He ﷺ called out asking "is there anyone to take me to the Masjid?" But no one responded and everyone remain caught up in their own work. He ﷺ became very upset and started to walk towards the closest Masjid. When he ﷺ reached the Masjid no one had waited for him and the prayer had already finished. He ﷺ became even more upset and depressed that no one waited for him. He ﷺ started to walk towards his house and again no one offered any assistance. I had just finished doing a difficult work and met the last prophet Muhammad ﷺ near his house. He ﷺ said "Qasim! You came to me when the prayer is finished. What's the use now? No one listen to me or took me to the Masjid." I said "don't worry there's a Big Masjid far ahead where prayer hasn't started so how about I take you there." He ﷺ said in a sad tone that "Qasim! You couldn't take me to the Masjid that is near so how you will take me to the Masjid that is farther and catch prayer on time. You don't have a car either, so it's fine Qasim! Just leave it. I will just pray at home." I told him "don't worry! If I got here earlier, I would have taken you to the Masjid on time. Allah ﷻ is with us so I will take you to the Masjid with the help of Allah ﷻ." He ﷺ said "let us hurry and go to the Masjid". Now I became worried. I don't even know the way nor do I have a car. Now only Allah ﷻ can help me. So Allah ﷻ said in my right ear, "Qasim! Pick up Muhammad ﷺ and run. I will take you to the Masjid." So I picked up Muhammad ﷺ in my arms and ran then. I started to run in the air with the

mercy of Allah ﷻ. He ﷺ became very happy upon seeing a huge Masjid in front of us. He ﷺ was even bragging about me saying "this is my son who has taken me to the Masjid with the help of Allah ﷻ." The people got up for prayer right when we entered and the last prophet Muhammad ﷺ led the prayer for the others. I didn't enter the Masjid because I didn't have wudu. I told myself that if I had wudu then I would have prayed with them. The Masjid was very big so by time, I finished doing my wudu. The prayer would have already finished. I said to myself, "If I did wudu before coming here, the last prophet Muhammad ﷺ would have missed his prayer. Either way the good thing is the last prophet Muhammad ﷺ got to the Masjid on time with the help of Allah ﷻ. I gave thanks to Allah ﷻ and started to watch the last prophet Muhammad ﷺ pray. The dream ended there.

(Muhammad Qasim Distributor)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

I saw in this dream that how I was distributing food to other people. I finished distributing food to everyone and they had enough food to fill themselves. When I saw how much food I had left, there was a lot remaining. Then the last prophet Muhammad ﷺ told me "Qasim! distribute more food." I looked around and everyone looked satisfied and filled. Then I started distributing more food and people looked at me in shock. They were telling me "Qasim! we are satisfied and our stomachs are filled." I continued distributing and I saw how I still had food left. Then I started thinking whether I should keep the rest to myself or not. Then I thought about something that made me feel bad. I thought that what if the last prophet Muhammad ﷺ appears in someone else's dreams saying to him that, "Go and tell Qasim that the last prophet Muhammad ﷺ said to distribute more food." I don't ever want the time to come where the last prophet Muhammad ﷺ starts messaging others just to convince me. This would definitely make me feel really bad so I started distributing more food until in the end people would refuse. And the dream ends there.

(Muhammad Qasim In Madinah and Makkah)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

7 June 2015

I saw this dream in 2015. I see construction work was going on in my house. Then I was standing in front of my house and the Last Prophet Muhammad (ﷺ) came to me and said, "Qasim! When your house is completed, I will call you to come to the Madinah and I will meet you there. Then I will order you to go to Makkah and show gratitude to Allah ﷻ and then you have to help the Muslim Ummah." I said, "Yes, I will do whatever you ask me to do." Then I saw myself in a huge Masjid along with a very small amount of light. The Imam had already started the prayer and I join them. When we finished the prayer, a few people looked at me and said to me "We can see clearly, a light is coming from you". I answered, "So what?" They said to me that, "Can you see that we are living in darkness and that darkness is increasing every day, please help us out, you have a light, bring us into this light, only then we can come out of this darkness." I answered them that, "I only have the Nur of Allah ﷻ and I can fill the whole world with it." They requested me to do it for them. Then I throw the light of Allah ﷻ in the dark sky, the sky became full of Nur, and the entire world was shining with Nur and the face of the Muslims also began shining like the stars and everyone was happy.

(How Is Pakistan's Success Possible? Allah's Message to the Army Chief)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

28 September 2016

In this dream, I see that Pakistan and Pakistan's army is getting into difficulties. And the army chief does his best to get Pakistan and the Pakistan army out of these difficulties and bring peace and prosperity to Pakistan. But every effort of the army chief is in vain and the resources of the Pakistan army are dwindling. And because of hard work, the health of the army chief is also deteriorating. I get upset when I see this. And then Allah Subhanahu wa Ta'ala came on his Arsh (throne) and said that "Qasim! give this command of mine to the army chief of Pakistan, that Pakistan and its army and army chief will stay in the same condition until they listen to your dreams carefully with attention and until they don't believe in the things that which you tell them. And Qasim! I am the best planner and I will make a plan for your success." Allah Subhanahu wa Ta'ala has also shown me in my dreams that when the army chief of Pakistan finds out about my dreams and he listens to my dreams carefully, then the last Prophet Muhammad ﷺ testifies to the army chief that "my son Qasim is not lying to anyone about his dreams. His dreams are true and come from Allah Subhanahu wa Ta'ala and it is going to be exactly as Allah Subhanahu wa Ta'ala has shown Qasim in his dreams. When I tell the important dreams to the Army chief of Pakistan, he makes plans according to them to save Islam and to save Pakistan and Allah Subhanahu wa Ta'ala caused those plans to succeed by His help. And then we save Pakistan and Islam with the help of Allah Subhanahu wa Ta'ala. In my dreams Allah Subhanahu wa Ta'ala has also shown plans to save Islam and to save Pakistan.

(What Is Ghazwa E Hind? When Will It Begin? Imam Mahdi AS)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

I have seen Ghazwa E Hind or World War 3 many times in my dreams.

Survival of Islam:

This war was imposed upon Pakistan, and we defended our country and Islam. That was a worst war against Islam in the history: it was not only the war of the survival of Pakistan but also the war for the survival of Islam. Because before this War, two main powerful castles of Islam, Turkey and Saudi Arabia were destroyed by wicked illuminati forces. And, since Pakistan was the last castle of Islam. So, it was very important to defend Pakistan to save Islam.

The Situation of Pakistan Before This war:

Before this war, Allah ﷻ conveyed the news of my dreams to Pakistan Army Chief, and the last Prophet Muhammad ﷺ also gave him the witness of my dreams that Qasim is not lying to anyone regarding his dreams and his dreams are true, and they are from Allah ﷻ. And something exactly is going to happen as shown in Muhammad Qasim's dreams. After that, Pakistan Army and the people of Pakistan believe in my dreams very much. After that, the Army and people of Pakistan took bold steps to save Islam and Pakistan. Pakistan is ruled by people who love Pakistan, who are obedient to Allah and the last the Prophet Muhammad ﷺ, and who are sincere. Pakistan is cleansed of all forms of Shirk (polytheism) and justice is established. And such a system of justice was formed that the rest of the world became surprised and such a system of government was formed that Pakistan started to progress and also started to prepare for the war.

During Ghazwa E Hind, the Situation of Middle East:

But with that, destruction started to happen in Turkey and Middle East, and new terrorist groups were formed in the Middle East. Pakistan could not jump into all

the wars in the Middle East and Turkey due to its limited resources, but it does protect the sanctity of Macca and Madina.

Tricks of India and the Black Standards of Khorasan:

When Pakistan started to progress then India tried to attack Pakistan, but Allah ﷻ helped Pakistan with powerful Black Jet Fighters. According to my dreams, these black jets are extremely powerful and diverse, and the world has never seen such technology before. After seeing these Black Jets, India did not dare to attack Pakistan.

Independence of Kashmir:

But, India continued to persecute Kashmiri Muslims, so Pakistan decided to liberate Kashmir through these Black Jets. And then, without any effective resistance, Pakistan freed Kashmir. India did not dare to resist Pakistan because of those Black Jet's extremely high combat capabilities.

The Development of Pakistan and the Preparation for Ghazwa E Hind or World War 3:

As India did not attack Pakistan because of those Black Jets; so, this allowed Pakistan to develop and prepare for the war. But on the other hand, India and its allies, other terrorist groups, and the world's major powers were preparing for the war against Pakistan. After seeing these Black Jets, many Muslims from all over the world came to Pakistan to glorify Islam and join Ghazwa E Hind. Pakistan also took measures, to protect Muslims living in India so that they remain safe during the war. The whole world observed that Muslims are uniting once again. Allah also made us very intelligent, and by His mercy, we built our own technologies, aircrafts, ships and became self-sufficient.

Why Is Ghazwa E Hind Called 'Ghazwa'?

According to my true dream, the last Prophet Muhammad ﷺ participated in this war invisibly and secretly, which was only in the knowledge of the leading commanders of that time.

The Beginning and the End of the War:

A while before this war, the last Prophet Muhammad ﷺ called me to Madina through a dream. When I went there, I saw unrest and darkness among the people. So I told him to be patient for a while, Allah ﷻ will fix everything with his help. When I came back the enemies were ready to attack Pakistan and we were also ready too. After completing the preparations for war, India invades Pakistan with the help of its allies and then the worst war started. Then enemies of Pakistan were sure that they would destroy Pakistan but the planning of Allah ﷻ was something else and Allah ﷻ helped Pakistan in this war. Muslims did not kill any children or old people or unarmed men who wished to make peace. I don't know for how long this war continued, but Pakistan won this war with the help of Allah ﷻ.

After the War:

After this war was finished, I came to know that in this war 80 crore (800 million) people were killed. Then I became very sad and I said that "why was this war ever imposed upon us. We only defended ourselves and our enemies themselves wanted death." We helped all women, kids, elderly and adopted them as a family and they reverted to Islam. Since we won this war with the help of Allah ﷻ and the enemies got defeated then Muslims from the East came out with the help of Allah ﷻ into the world and regained their territories of Middle East and Turkey and there was no one to stop us and all forms of terrorism and oppression were demolished. Pakistan becomes a super power with the help of Allah. We spread true Islam in the entire world with the help of Allah ﷻ, and the entire world got filled with peace. Islam got spread in the whole world once again and everyone came to know that the real Islam of the last Prophet Muhammad ﷺ is full of Peace. Allah's blessings and bounties are everywhere and no one remains sad and poor. And above all, it is pleasing to Allah. And this peace lasts for eight or ten years and then Dajjal (antichrist) appears.

(Muhammad Qasim and Alem Ulama Muftis and Muslim Leaders)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

20 September 2015

I saw in a dream that there is darkness everywhere. We have everything but no electricity to light up bulbs and tube lights and everyone is in search of electricity. Then I see that Allah ﷻ gives me electricity by His Mercy. Then I go to Ulamas(Scholars), Muftis (experts in Islam) and Leaders and I tell them that "I have electricity and I can light up the houses of people with it." But Ulamas, Muftis and Leaders don't believe in me that I really have any electricity. They say that "I am lying." Ulamas, Muftis and Leaders only disagree with me that I have no electricity but they don't say anything more to me. Neither do they stop me nor do they forbid me that I should not say this to anyone else. They say that "let him do whatever he wants. For he is merely wasting his time, he has no electricity." But Allah ﷻ tells me that "Qasim! Don't worry! I am with you. No one can stop you and I will help you." And then Allah ﷻ helps me and normal Muslims start to believe in my words. And then this news spreads all around the world. And then everyone believes me and they say that "light up everything with the electricity that Allah ﷻ has given you". Then, when I spread the light with the Mercy of Allah ﷻ, the Ulamas say that "Alas! We should have believed him".

(Prime Minister Imran Khan and Shirk)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

25 July 2018

In a dream, i saw that Imran Khan was surrounded by many difficulties and troubles. The Prime Minister of Pakistan, Imran Khan is facing a lot of challenges and difficulties and he can not pursue his goals in the way he wants to and he fails in his pursuit. Due to his failure he becomes very upset. I am observing all this situation whilst sitting in a room. Then Imran Khan also walks towards that room where I am already present. When he enters the room, he is saying something out of anger that I do not remember. I talk to him and tell him that "if you want the help of Allah Subhanahu wa Ta'ala, then you should avoid all forms of shirk. The way you prostrated in the shrine is a major form of shirk and you should repent and seek forgiveness for this act of yours and in the same way you should prostrate before Allah Subhanahu wa Ta'ala in repentance. You have to make a firm and sincere promise that you will never bow down to anyone except Allah Subhanahu wa Ta'ala." I also remind him that "you yourself used to say that Imran Khan doesn't bow down to anyone except Allah Subhanahu wa Ta'ala! Then why did you do so?" Then Imran Khan realizes his mistake and says that "yes! I used to say this!" Then he says that "I used to bow down only to Allah Subhanahu wa Ta'ala but unfortunately, I got surrounded by such people that I went in the wrong path." Then I tell him that "whoever has died is dead and he is disconnected from this world and we can not call him for help." Imran Khan is listening to me with great care and attention. I tell him that "if someone goes to a grave and seeks help from the dead then this is also a form of shirk. If a person bows down in respect for greeting someone like the people of Japan do it, then that is also a form of shirk. Similarly there are many other forms of shirk. If you want Allah's help and you wish to be successful then you have to protect yourselves from all forms of shirk otherwise you will never succeed." Imran Khan is listening to me very attentively as if someone is seeing a great hope in something. And Imran Khan sees this hope in avoiding shirk and its forms because no one had explained to him about shirk and its forms like this before or warned him about them.

Muhammad Qasim Told,

25 August 2018

In this dream i find myself in a huge area of land. There are other people around there too as if they are patrolling the area. The land is very big and everything seems to be fine. Suddenly something happens and the land sinks very deep similar to the depth of a river and a lot of people get affected by this incident. Upon seeing this I became shocked and said "what has happened here? Everything was fine then how did all this land sink?" People wait for some time thinking that it might get fixed but nothing improves. I said to myself "I will go and see what is Imran Khan doing at this moment in time?" Then I head towards the place where Imran Khan is present and I see that he is going somewhere along with some other people. Imran Khan is upset and he is walking in anger as I have seen him in my dreams. He expresses grief on the situation and complains about some people that "Why are these people not letting us do the work? This incident that just happened, how will it be fixed?"

(Imran Khan's Government Fails to Reform Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

27 August 2018

I saw in this dream that Prime Minister Imran Khan is trying to do reforms in different institutions. The opposition parties insist that no reforms are being done and everything is still the same. Media and the journalists also insist that the ruling

party, PTI, has same old people who have been a part of the previous governments too, what change are they going to bring about? But PTI and its government reject all these allegations and they say that we are working hard and there is a lot of work being done. The supporters of the ruling party PTI adopts the same narrative as usual and insists that their government is doing everything right. Then suddenly something happens and everything collapses and the reality about the performance of the government gets exposed and people are in great shock. They can't believe the situation and they express their despair by saying "What has just happened...? Imran Khan has also failed!" And after this there is severe crisis in Pakistan.

Muhammad Qasim Told,

27 August 2018

In this dream I saw that Imran Khan was in a dialogue with the Americans and he was having a conversation with them. During the conversation there was an exchange of harsh words, and Imran Khan became angry and he began to speak in anger. There is a similar kind of reaction from the Americans too. Then the conversation becomes more heated and there is also an exchange of threats from both sides. Imran Khan tells the Americans that "we are not slaves." He gets up and starts walking in anger as I have seen him in my other dreams. Out of despair he says "is there someone that can help resolve these issues?" I see this all while standing next to my oven and I'm preparing to make something and I say "this is the same situation". After this I do something that I cannot remember.

(How Should Imran Khan Rule? and How Can He Succeed?)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

20 October 2018

In this dream i see how Imran Khan should rule and how he can succeed. In a dream; I am sitting in front of the TV and different things are going on it. Imran Khan is saying that "debt is drowning this country; we have to get rid of it so that we can be free." Then I saw that Imran Khan is levying different taxes so that we don't have to take loans but because of this price of the things is going up and inflation starts to rise and at the same time people's anxiety also increases. I am watching all this and saying that "this is how inflation will come to the country. Imran Khan is also putting the entire burden on the people. Today, a sack of cement costs Rs. 600. If it continues like this, it will cost Rs.1000 in a short time. Everything else will be the same. How can prosperity come to the country in situation like this? In this way, the burden on the poor will increase and people's confidence in politics will erode. Imran Khan should cleanse Pakistan from shirk and not increase the price of things and not impose taxes on them. In this way the burden on the poor will not increase. Imran Khan should live on debt now. Where this country has been in debt for so long, there has been some time more. Imran Khan should stop the theft of gas and electricity in this country. Fix institutions, eradicate corruption, end money laundering, catch corrupt people, bring back the money looted from them, and fix the system of hospitals, police, courts and other government departments. When all these institutions are fixed, then Imran Khan may not need to take a loan and there will be no inflation and Imran Khan will have the full support of the people otherwise what Imran Khan is doing, inflation will rise and the poor people will be crushed apart and in this way we may have to borrow more than before and Imran Khan will also lose the support of the people and the country will be stuck in a swamp where It will not be easy to get out of."

They said "We are close to Imran Khan, however if you describe the dreams to him yourself it may come across better and be taken to heart". The people direct me to where he might be. Then someone there asked me, "What will you do after spreading the dreams?" I said "I will establish a company that the people can benefit from, and attain a better quality of life. It will also help the country prosper and progress." The dream ended there.

Muhammad Qasim Told,

7 November 2019

In this dream, I am on the roof of my house and it is evening time. Planes are flying in the sky. Suddenly I see a big plane passing through the land of Pakistan. And a small plane is flying under it. Then I realize that there are some hackers who are trying to destroy the system of this plane and they blast the plane. There is a loud explosion in the plane and the little plane below it tries to save itself and I say "how can this little plane survive but it saves itself." And as soon as the big plane crashes on the ground, people start shouting that "it has crashed on the land of Pakistan,

so the responsibility goes to the Imran Khan's government because it happened in the presence of Imran Khan." Then, I see that Imran Khan comes on TV and agrees with this and says "because this blast happened while I was there so I resign" and then Imran Khan's supporters get upset and in the country a state of chaos ensues.

(True Dream About Imran Khan Sickness)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

February 2020

In this dream I saw that I go to a house, where there are a lot of people moving around. In the hall where I am, the door of one of the rooms suddenly opens. There I see a person get sick and people gather around him. Then I go to see and say "May Allah has mercy on this person whose health is bad." The door is open and there are some employees. Then I look carefully and Imran Khan is lying on the bed. His condition is as if his blood pressure is high and he can't even walk. There are doctors and employees around. At the same time, the army chief was there in a state of worry. When I see this, I say that this is Imran Khan! I thought someone else would. Then I walk from this hall to the kitchen. Meanwhile someone grabs me a plate and tells me to take it to the kitchen so I say "why is he giving it to me." Anyway, I take this plate and see that the custard is made. When I go to the kitchen, I see Imran Khan sitting at the table. I say that "Imran Khan had a problem in walking so how he came here before me." Ignoring him, there is a woman in the kitchen and I give her the plate. She takes the plate from me and starts adding something to it. Meanwhile Imran Khan starts asking me a question. But I don't understand and I keep quiet. So that woman says that "Imran Khan has asked you something." Then I ask Imran Khan "what did you say? I do not understand you." Then he repeats and I understand. In such a short time, that woman puts something more in the same custard. And she asks me to give this plate to Imran Khan. I say "why did she ask me to give this plate to Imran Khan." Anyway, I give it to Imran Khan, then Imran Khan is very happy to see me and wants to talk to me, but I do not pay much attention. Then he start eating and that dream ends there.

(Did Imran Khan give bases to America?)

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

Assalamu Alaikum.

Muhammad Qasim Told,

6 June 2021

I saw this dream on 6th June 2021. In the beginning of this dream I see Imran Khan promoting and talking about his accomplishments and achievements. That his tenure of leadership is better than the past and Pakistan is progressing. There are other people present there too who are applauding Imran Khan. After seeing this I say, the reality isn't what Imran Khan is saying, these figures are wrong and fake. Because the reality on ground, for the common man is different. And I also say that Imran Khan must focus towards Afghanistan now as well. Then I see that my dreams are spreading in another country. At this moment, a group of people become powerful in Afghanistan. And those people come to know that Pakistan has secretly given its bases to USA. So that the American government can keep an eye on them. After learning this secret, these group of people from Afghanistan threaten Pakistan. And soon after this they increase their terrorist activity in Pakistan. I recall that in my dream there is an explosion and this group of people become more aggressive. All of Pakistan reacts to this, and people criticise the government for secretly giving bases to America. Imran Khan is also worried about this reaction from public. He says that these terrorist events were well controlled in Pakistan, and now people will blame me for what's happening today. And the secret of our support to America is also public. All this will now become my responsibility.

(Imran Khan Should Accept His Failure)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

28 November 2020

In this dream, I saw a big hall. There was a Stage in this hall where Imran Khan was sitting. Imran Khan was sitting on a chair next to the desk. And a very close one of Imran Khan was resting next to him. In the dream, I could not recognize that other person. Other than that, the rest of the hall was empty. And I was standing behind the Stage. Then I saw Imran Khan softly saying to this person that "I have failed. I have not been able to fulfill my promises that I made to the people; the way I wanted to and now, I have failed." I was surprised to hear Imran Khan and said that "In front of the people, Imran Khan claims for numerous achievements that I did great things, our country is developing and we are prospering but inside of the house, he is acknowledging to his close ones that he has failed." Then I came in front of Imran Khan and said that "Mr. Imran Khan! Sitting next to your close ones, you are saying that you have failed and admitting your failure but when you go to the public, you say that great progress is taking place. So when you already know you have failed, why don't you admit it in public?" Imran Khan tried to counter my point. Then I told Imran Khan, "Khan Sahab! The sooner you admit that you have failed, the less Pakistan will suffer and so quick Pakistan will come out of trouble." Imran Khan again said something, but I repeated, "the longer you take to admit your failure, the more Pakistan will get into trouble and the problems will increase. So, the sooner you accept your defeat, the better for this country and you as well." In the meantime, Imran Khan tried to counter a bit but in the end, he realized that I have already listened to him and I know everything. Then he quietly started looking at me. I repeated once again, "the sooner you unveil the truth and admit your failure, the quicker this country can get back on track. Otherwise, the longer you do, the more Pakistan will suffer, and this country will be in trouble." And this dream ends here.

(Imran Khan's Decision to Adopt Simplicity)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

3 February 2021

I saw this dream on February 3, 2021. At the beginning of this dream, Imran Khan was addressing the nation of Pakistan. He says that "the price of electricity and petrol is rising due to inflation. And we are seeing this day because of the incompetence of previous governments. But this difficult time will also pass. Our economy is recovering but it will take some time. Everyone should adopt simplicity and save electricity, gas and petrol. And don't use them unnecessarily." So I say "what's going on. In my old dream from 2018, I recall some Army men asking the people of Pakistan to adopt simplicity. But something else is happening here." And I'm upset to see this. Then I follow Imran Khan wondering why he had said this. After walking some distance, I see that Imran Khan tells his close associates that "we were chasing the opposition and we have not paid attention to the economy and big companies. Because of this we lost four or five billion rupees. And now we have no money. So now I have told the people to save and adopt simplicity because we have no other solution and we have failed. We have not been able to perform as we had promised the nation." Then in the dream there is another event and Imran Khan is addressing the audience. Imran Khan again repeats the same narrative that our economy is recovering, it is a little difficult time but you have to put up with a little bit and I will not leave these thieves and then he starts praising his government. I am shocked to hear all this, I say that "not long ago with his colleague, Imran Khan was admitting his failure and now he is coming in front of the people and saying that we are doing a very good job." After his speech, I see Imran Khan then goes to the same room again and repeats that "we have failed." So I say "why is he deceiving the people? If he has failed, he should come forward and admit it. What is the need to deceive the people in this way?" And this dream ends here.

(The Role of Pakistan's Rulers, Shirk and Pak Army)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

16 January 2019

I see in this dream that many rulers come and rule Pakistan but the situation in Pakistan does not change. Then Imran Khan comes and people hope that everything will be fine now because Imran Khan has come but nothing is fine and everything remains the same. Then Asif Zardari gets angry with the government (of Imran Khan) and starts holding meetings and speeches. He says, "I will not leave you and I will not let your government run and this country will not proceed." I'm watching it all on TV. After watching all this, I go out of the house and I say that "if the situation remains the same, the country will not be fine." Then Asif Zardari holds a rally and I see him standing with distance. When I am watching this rally, a field starts to form on the ground to my right. And a field of mud begins to form on this field. The soil in this field is spread as if someone is laying the soil in a very systematic way. The soil is as smooth as a clay floor and looks as if it has been laid by an advanced and expert company. The soil is very suitable, that is, just as it is moist and moist from the top, it is also wet from the bottom. Then I don't pay attention to this soil and I turn to Asif Zardari and say that "many rulers have come i.e. army, other rulers and Imran Khan etc. but nothing has changed." Then I look at the soil, it is spreading a lot and it is spreading in such a systematic way that the level of the soil and distance is the same and natural fertilizer is being applied on it and is spreading itself. I say who is spreading this fertilizer on this soil like this? Then I think that "now Asif Zardari is speaking, in the same way soon my turn is to speak and I also have to talk to people now, so I should prepare for it. I have to plan what I should say and what I shouldn't say." Then I go to a room or a small house. When I go there I see that it is a hall-like room and there are few people there. I talk to them and tell them that "many rulers came and went, and you look at the history of all of them, every time there was hope that prosperity would come but nothing happened and every time the situation got worse than before." I say that there is only one reason for this failure and that is "until this country is purified of shirk and its forms, and until shirk and its forms are eliminated from the country, Allah will not help. And also prosperity will not come until then." I see other people come

there and listen to me. Then I see that two army men are also listening me standing there. Then I say that "there are various idols and sculptures in the name of art and culture on different highways and intersections in the cities, there are big boards with unnecessary pictures on them, and just like there are many idols and statues in the parks, and other unnecessary pictures are shown in cities which are not needed, these are all types of shirk." I say more that "the last Prophet Muhammad ﷺ had also eliminated shirk by eliminating such idols. When we eliminate all these forms of shirk, Allah will help us. Then not only Pakistan would win Ghazwa E Hind, but she would also defeat super powers like Russia and the United States in World War III and Pakistan herself would become a superpower." The people of the army and some other people were listening to me and I say that "when we put an end to shirk, then Allah would bless us with His blessings and mercy and He would open His treasures for us because even in the early days of Islam, the last Prophet Muhammad ﷺ exhorted the people to avoid shirk and he established a society free from shirk." Then here I give a live interview and the anchor asks me about the shirk and the need of pictures in today's life for different purpose so I say that "where it is needed, it is fine, but where it is not needed, images should not be used. It is permissible to use the image in various state affairs, such as the use of images on identity cards and currency notes, or if a photographer has a shop, he can use the image because it is necessary but other than that, if you see various unnecessary pictures in the city or as most people put pictures of celebrities in their houses, it is not permissible and it falls under the category of shirk." I say that "in the same way if you watch live interviews of anchors they use their image, famous anchors don't need to post their image so don't post it because they don't need it and those who are anonymous anchors, they can post a picture in their program promo." The people of the army are standing at a distance and constantly watching all this and listening to me carefully.

(Dreams of Muhammad Qasim to Imran Khan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

4 November 2019

I see in this dream that there is a big building and Imran Khan is present in it and is engaged in some important work. I am also present at this place and I am surprised that I have come here close to Imran Khan. Then I think it is a good opportunity to tell Imran Khan about my dreams that have come to me about him but I do not get a chance all the day to tell him my dreams and it would be night. Then I see that it is evening and he launches a program. Then I say that "he will not succeed as he wanted and he cannot do anything because he did shirk." Then I see that what he wanted to do is not really done and the rest is not done too. Then he looks very tired and frustrated and he goes to his room at night. After that I go to a room and see a man there, and then I say "it is night and Imran Khan has gone to his room, now how can I reach Imran Khan? Why don't I tell my dreams to this man in a loud voice so that my voice will also reach Imran Khan." Then I do the same and I start telling all my dreams about Imran Khan to this man in a loud voice. I tell him all my dreams about Imran Khan's shirk and his failure. Then I see that the sound reaches Imran Khan's room and he hears all the dreams. When he hears this, he comes out of the room and wonders who is that has dreamed about me and the dream ends here.

(Imran Khan's Failure and Scholars Believe in Muhammad Qasim's Dreams)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

15 April 2022

In this dream I see that Imran Khan's government has failed, finished and they leave the government offices and go away. I am standing afar and looking at all this. I say that everything happened to Imran Khan, exactly as I had seen them in my dreams. I get very happy to see this that my dreams have come true. I say Allah had shown me the truth. I then leave towards my home. As I am walking home, I see a large Group of Ullamas walking towards me from the other end of the street. It seemed like this Group of Ullamas were from all around the world but there were more Indonesian Ullamas amongst them. As I get closer to them and eventually pass by them, some of them (mostly Indonesian) stop and say, this is Qasim the guy with dreams. And then they come to say Salam to me and shake my hand. The other ullamas, whom didn't know me also stop seeing this. Then I say that the dreams about Imran Khan have come true by the mercy of Allah SWT. If my dreams about Imran Khan have come true then my dreams about the Rise of Islam and Pakistan will also come true. I think to myself, that If these Ullamas truly love Allah SWT and Prophet Muhammad SAW, then after the truth and evidence has come to light about my dreams, they should in every circumstance spread these dreams with evidence to others. If they spread these dreams this way, then this will have more impact on Pakistan and the rest of the world. I think about this as I continue walking, and I see that those Ullamas also follow me towards my home. I reach home, and there is a gathering of many people and Ullamas, as if there is an important event happening in front of my house. Dream Ends.

(Political Crash With Imran Khan and PTI in Trouble)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

11 August 2022

In this dream I see that an airplane is flying and this airplane is branded with the name PTI (Pakistan Tehreek-e-Insaaf). Just like usually airplane companies have their own branding, for example, Qatar airways, PIA or Emirates have their branding. In that same exact way, this airplane has branding of PTI (Pakistan Tehreek-e-Insaaf). Towards the back of this airplane, near the tail, I see an engine is connected to the airplane, and this engine is running this entire airplane. In the dream, I saw that there is only one engine on this plane. And even this engine was branded with the name Imran Khan (Imran Khan from PTI). I also see that this engine is bolted on to the plane via nuts and bolts. But these nuts and bolts have gone weak over time, and some have come off already. And it seemed like the engine was barely hanging on to the airplane. Just as the airplane is flying, the engine is also working hard, but due to the weakness of the nuts-and-bolts attachments, it is moving or shaking heavily as if it will break and fall apart. Then suddenly, I see that the engine breaks and separates from the airplane and falls to the ground. Upon witnessing this, I see that the top leadership members of PTI appear heartbroken and worried. They say, "Now who will run this airplane? There was only one engine, which has now broken and fallen off". "Who will now become the new engine for this airplane?" Then I see that they begin searching for another engine for this airplane. Upon seeing all this I say that, "how will this airplane function without an engine? There was only one capable engine that has fallen off. I dont know if another engine will be powerful enough to run this entire airplane." End of Dream.

(A Dialogue with Imran Khan & Allah's Plan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

30 January 2020

In this dream, I was inside a house, in which many other people were also present. While looking around, my gaze lands upon a man who I didn't recognize at first, but then I realize that I have seen this man before, this man is seated on a chair against the wall, ...upon careful inspection I recognize that this man is Imran Khan and he seemed to be busy with his work, Eventually... I get occupied in my work. A few moments after I recall that I have tried my best to reach Imran Khan and share my important dreams, and now that I have this opportunity, I should take advantage of it and speak to him. I reach closer to Imran Khan, and I tell him that, "I have seen many dreams regarding you and I have also tried very hard to get the message of these dreams to you but I was not successful. Now that I have this opportunity, I would like to share a dream with you, and I want you to ponder about this dream and when you have time come and meet me, so that I can discuss the dreams in greater detail, as my dreams are coming true just as I have seen them." I narrate that "On 25 July 2018, a night before the elections, I saw in a dream that you are elected as Pakistan's Prime Minister, but you struggle and fail to fulfil the promises you had made to the people. On the contrary, you are forced to withdraw and regress on your promises, different from what you had previously planned. I have also seen the reasons to why you have continued to fail in my dreams" After saying this, I step back and suggest to "Contemplate about what I have said to you, and when you get a chance take some time out to meet me." I then move away and it eventually gets dark (night time). I am in the same house, and I see that Imran Khan is walking with a few other individuals. Upon seeing me, he approaches me and asks me, "So tell me what dreams have you seen?" I tell him, "Take some time out of your schedule, and give me adequate time so that I can properly explain these dreams to you in detail". In that moment I notice that he is not taking much interest, so I start explaining a little more of my dreams. I say that "I have had more dreams about you, for instance I've seen that the people surrounding you do not let you work, give you incorrect advice and misguide you, and they report incorrect information on the progress of their work, when in reality the opposite is

happening in Pakistan. Within your party, there are opposing members who have formed internal rifts & groups, and the coalition members are also pressurizing you. I also state that I have not made up any of this information, I have seen all this in my dreams, and have uploaded my dreams as I saw them on Youtube on earlier dates. If you wish, you can verify this information yourself. And I have also seen in my dreams that Usman Buzdar will cause the most damage, to your party and hurt its reputation.” Upon hearing this, Imran Khan realises that I have proof for what I say, and he takes more interest in the dreams. He proceeds to further discuss with me. “He asks, what other dreams have you seen? ” Nearby in the room, I saw 2 chairs, and we both sat on these chairs as I began to explain my dreams to him. I say that “In the dream I saw on July 25th 2018, I see that you have become the Prime Minister, but you face so many difficulties & problems that you are unable to fulfil your promises. Internal party rifts, grouping, and pressure from the coalition also hinder your activity and you become fed up of these circumstances. You also say, why are these people not letting me work properly. Nevertheless, aside from these things, the most detrimental action that you have done was when you bowed down to prostrate to the shrine in Pak-Pattan, as it was Shirk, and remember that you yourself said that you will not bow down in front of anyone except Allah SWT.” Upon hearing this Imran Khan interrupts me and states, “No I did not prostrate to a grave, I just kissed the floor and people have taken this incorrectly and propagated against me.” I respond by saying “No, 2 days after you had prostrated, I saw another dream in which I was shown that even if someone bows (like performing a rukou) in front of anyone else except Allah, that person has also committed Shirk. Remember that You yourself used to say IYYAKA NA’BUDU WA IYYAKA NASTAEEN, and just to become the Prime Minister you bowed in front of someone other than Allah, this is the reason why you no longer have Allah’s help. You have also not repented or asked for forgiveness for your actions.” “I also saw in another dream that you prioritize on addressing the bigger problems in Pakistan and reduce the current account deficit. In doing so, you forget to focus on increasing prices & inflation which increase abruptly and reaches a point in Pakistan where you are not able to control it despite your many efforts. In this situation, the citizens of Pakistan & the opposition advise you that the economy is failing and not functioning correctly, but you ignore them and only trust the people you are surrounded by. I have also uploaded this dream on YouTube at an earlier date.” “With regards to Usman Buzdar, I saw this dream in 2014, that you and your party members are travelling on a truck. The driver of this truck is not experienced and has not driven a truck before. I warn you that this driver is not suitable for this job,

and your truck (vehicle) is important. The person will crash your truck somewhere, to which you dismiss my warning saying, "No this driver is good, just watch he will drive this truck very well". After a few moments my warning comes to pass as the exact same thing happens, regarding what I had warned you about. The road you were travelling on was leading towards a sharp round about, and the driver Usman Buzdar gets frightened upon seeing the sharp turn, and instead of slowing down he speeds up the truck and crashes into a nearby building. In this particular dream, I saw that many of your party members get injured in this accident, and some even die. In 2019, in another dream I was shown that this truck driver is in-fact Usman Buzdar, and he is accompanied by another person in the driving seat. Now you can examine your own situation and see that this dream has come true as you cannot replace this driver (Usman Buzdar) nor can you continue to rely on him (keep him). "Also recall, that when the elections were near, you began to fear in your heart that what will become of you if you do not win this election and do not become the Prime Minister of Pakistan. You were also fearful and worried when your party did not win enough seats to form a government, thus you were forced to form a coalition government. I was shown all this in my dreams. And I was also shown that you should not have formed a coalition government. In fact, you should have only relied & trusted on Allah's help, which you didn't do" . Upon hearing this Imran Khan responds back and says, "the Government cannot be formed unless you have majority of seats and we did what was right". I answered " No, you were fearful in your heart that you may not be able to win enough seats again..." I then ask Imran Khan, "how many seats did your party win in 2013", he replied back saying "We had 30 seats". I respond by saying, "No, they were slightly more than 30", to which he responds by saying "Yes, it is possible, I cannot recall well". Then I ask him how many seats his party won in 2018, he replied, around 115 seats. I explain to Imran Khan that, "Allah helped you in increasing your party's seats by 4 folds, despite you committing Shirk at the Shrine. You should not have formed a coalition government, instead you should have held back just like you used to say that you will form a government only if you get the majority of seats, otherwise you won't. With regards to forming a coalition government, you did not rely or trust in Allah's plan and you continued to face further difficulties & challenges. During all this period, Allah's help was not with you and you also did not pay attention to the Shirk you had committed." While our conversation was happening, I observe that someone else had come and sat next to Imran Khan but I was unable to see who this person is due to the dim lighting, but I note that Imran Khan is very focussed and is listening to me with great attention. Then I tell Imran Khan that, "if you had

trusted Allah, and had not formed a government as you had said, then the opposition would have setup a coalition government. This would not have gone well with the public and the citizens of Pakistan would have increased their trust, respect and resolve for you, as they had not experienced your governance yet. Then the true face of the opposition and their failures would have come to light in front of the public. They would have realized that the same people have returned to governance and have caused a rise in inflation, and that law & order is not being implemented appropriately. This would have given you the opportunity to recall the election, resign from the assembly, and reset the government with an increased support from the People and their added trust. Maybe at re-election you would not get the simple majority but you would get two thirds majority. Nonetheless, you did not trust in Allah, and your Imaan and Faith weakened, resultantly you compromised and formed a coalition government. Now instead of the Opposition being critiqued, your governance is critiqued. You should see what common Pakistani today has to say about your government's failures...What have you achieved? What respect will you have if you lose your government today?, or if Chief Minister of Punjab is changed, or if something else happens? People will remember you as the worst PM in this history of Pakistan. They will say, once there was Imran Khan who came and made many great promises, but alas he failed miserably." At this point I see that Imran Khan is listening to me very attentively, and concludes that "the way this person is talking about me, is unlike anything I have heard from anyone else before, and he expresses his content with a smile. Then I tell Imran Khan that "I have made many attempts to find a way to reach you and share these dreams. I shared my dreams with everyone else, and even gave a message to those closer to you and your ministers but everyone turned me down. Only if any of those people had shared this message with you, you would not have been in the difficulties you face today, and even now you have an opportunity to fix all this." Imran Khan then asks me how can all this be fixed? I respond and say, "First and foremost, you should provide subsidies to the People of Pakistan, reduce prices on basic food items, reduce taxes, reduce price of fuel & electricity and give support with funds to the most impoverished. If you continue doing this for 3-4 months, you will see that people's opinion will change about you. People will be relieved with low prices on basic items, reduced taxes, and improving conditions of their business and earnings. After 3-4 months you should break the Government assembly, people of Pakistan will trust you more and once elections are held again, it is likely that more people will vote for you and you can possibly form the government again with majority. Once you have a majority government there is no

chance for anyone to stand against you, like in current government, how Pervez Khattak pressurizes you that he will depart with his group. If you had two thirds majority or more, no one would be dare threaten your authority.” Upon hearing this all, I see relief in the eyes of Imran Khan, and he regrets that he did not hear these suggestions before, however after hearing my suggestion about lowering the prices for 3-4 months Imran Khan interjects stating that “The IMF will not allow me to reduce prices and taxes for 3-4 months”. I respond by saying, “Don’t be afraid, you are still worried about what the IMF will do, and what kind of pressure you will encounter on an international level.... You should repent and say ask forgiveness for the Shirk you have committed, and trust only in Allah SWT. The IMF can’t do anything... At most IMF will stop giving you further loan funds, what else can they do?. But if you do not trust in Allah’s plan, you will not be successful.” Imran Khan pays great attention to what I have to say, and he expresses relief in hearing the resolution, but he also regrets that he had not heard about my dreams earlier. And the dream ends here.

(What Is Shirk? How Did it Begin? Forms of Shirk in the Modern Age and the Way to Avoid Shirk)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

What Is Shirk?

To associate someone else with the essence or attributes of Allah Subhanahu wa Ta'ala, or to consider someone equal to him, or to respect or obey someone in the same way as Allah Subhanahu wa Ta'ala is done, is called shirk.

For example; Considering any kind of worship as permissible for someone else other than Allah Subhanahu wa Ta'ala, that is, to offer prayers, or to fast, or to slaughter for or asking help from someone else other than Allah Subhanahu wa Ta'ala is also shirk. e.g., asking help from someone who is in the grave or to call on him, or to call on someone absent to help in a matter over which no one has power except Allah Subhanahu wa Ta'ala. It is every verbal action or deed in which Shari'ah has applied the description of shirk. For example, swearing by someone else other than Allah Subhanahu wa Ta'ala, because the last Prophet Muhammad ﷺ said that

whoever swears by other than Allah Subhanahu wa Ta'ala is a disbeliever or did shirk. Show off also falls into shirk. Show off is doing something, not for Allah but only to show people.

The story of Ibrahim AS in Surah Al-An'am in the Qur'an is very instructive and encouraging. Quran says:

We also showed Ibraheem (AS), the wonders of the heavens and the earth, so he would be sure in faith. When the night grew dark upon him, he saw a star and said, "This is my Lord!" But when it set, he said, "I do not love things that set." Then when he saw the moon rising, he said, "This one is my Lord!" But when it disappeared, he said, "If my Lord does not guide me, I will certainly be one of the misguided people." Then when he saw the sun shining, he said, "This must be my Lord, it is the greatest!" But again when it set, he declared, "O my people! I totally reject whatever you associate with Allah in worship. I have turned my face towards the One Who has originated the heavens and the earth being upright and I am not one of the polytheists." (Surah Al-An'am, 6:75-79)

How Did Shirk Begin?

Images can be a form of Shirk (Polytheism). Because the first people to enter polytheism were through the same pictures and statues, Allaah Subhanahu wa Ta'ala says in the Qur'an: "And they said, 'Never leave your gods and never leave Wadd or Suwā' or Yaghūth and Ya'ūq and Nasr.'" (Surah Nuh, verse 23)

Ibn 'Abbas RA explained this verse in his Tafsir (explanation of Quranic verses) that these are the names of some righteous people of Nuh (AS)'s time. And when they died, Satan inspired their people to place images at the places where they used to sit. And to call those images by their names. The people did so, but those images were not worshiped till those people (who initiated them) had died and the origin of the images had become obscure, whereupon people began worshiping them. (Saheeh Bukhari, 4920).

What Is the Importance of Avoiding Shirk?

The first message that Allah Subhanahu wa Ta'ala has sent to mankind through all the prophets is "**La ilaha illa Allah**" which means "**there is no god but Allah and this is called Tawheed. Tawheed means that Allah is one and no one shares in His essence and attributes. The opposite of Tawheed (monotheism) is shirk, which means associating anyone with Allah, and Allah will never forgive shirk.**" As Allah

Subhanahu wa Ta'ala says in the Qur'aan: "Indeed, Allah does not forgive associating others with Him (in worship), but forgives anything else of whoever He wills. And whoever associates others with Allah has indeed committed a grave sin." (Surah An-Nisa, 4:48)

Muhammad Qasim bin Abdul Karim has had many dreams in which Allah Subhanahu wa Ta'ala and the last Prophet Muhammad ﷺ instructed him to follow the straight path and what to avoid. The most important of these is shirk! Muhammad Qasim emphasizes that "we should avoid shirk and its forms as much as possible because this is the key to our success. In this world as well as in the Hereafter. And if we want to get out of darkness and misguidance, we must give up shirk and its forms and urge others to avoid it as well. Allah has instructed Muhammad Qasim many times that on the Day of Resurrection, I will forgive every sin, but I will not forgive shirk."

Forms of Shirk in the Modern Age and Their Prevention:

In the present age, it has become very tough to recognize and avoid shirk. And it is a pity that in this modern age, shirk and its forms abound everywhere. Even in a dream, Allah Subhanahu wa Ta'ala told Muhammad Qasim that this world had never been filled with as much shirk (polytheism) as it is today. A frequent example of shirk is unnecessary images, such as images found on food products and other daily used materials. For example; "drinks, milk, yogurt, shampoo and other such male and female consumer goods that have pictures on them." Another example is the large billboards in various places in the cities that contain unnecessary images of any animal or creature on them. Similarly, shirks (polytheism) are also available in movies where false Gods and their fake powers or other evil deeds are shown, such as magics, to manifest a common man as very powerful. It is also a form of shirk.

If you see a picture on an advertisement board, don't look at it and roll your eyes and say, "Subhan Allah", meaning that Allah is pure from what I see and there is no partner of Allah. If you see a statue in a park, shop, or any other place, roll your eyes and don't look at them. If you are watching a movie and it shows a false god, don't watch it and turn it off. If there are any pictures of any living things in your room or on the walls, remove them. If you have toys for your children, keep them out of your sight or hide them in a closet when they stop playing. If you have small pictures or statues inside your home, throw them away or hide them too. If you have any creams, perfumes, or other beauty items, as well as the logos of some

brands, are made with a picture of a living thing, then hide those pictures on them with a tape or marker because you will need to use these things for a few weeks. Even if you have a 'Bubble Gum' in your pocket that contains a picture on it, don't put it in your pocket or take off the picture paper.

Never say or write about a person that he is our only hope, but say that hope is only from Allah Subhanahu wa Ta'ala.

And there is no harm in having pictures on mobile phones, laptops, or computers because they are not visible but also keep them hidden in a folder in the computer. If there is a picture on your desktop wallpaper or profile picture, change or remove it because you will see it all the time unnecessarily, and there is no need to look at it. You can take photos of yourself or your children digitally or with a camera, but also keep them hidden and open only when needed.

If you go to a friend's house and there are pictures in his house or room, do not insist on removing them but do not look at them because that house is not yours and you are not responsible for it. Of course, if your friend wants to learn about shirk and they remove those pictures by themselves, then it's ok. But don't force them. Similarly, people keep pots in their gardens that are statues or idols of animals or humans. You should not retain such statues in your house and if, someone has these idol-like pots in theirs, do not look at them.

Indian movies always start with either an idol, or a statue, or an image of a false god, or an idol-worshipping is shown during the movie. Movie also has its own world. And the owner of this world is also Allah Subhanahu wa Ta'ala, and no one else can be associated with Allah Subhanahu wa Ta'ala or shown in it, even if it is just a movie.

Sometimes we have to comply with government-imposed laws where images are required. In that case, images are permissible. Such as images on rupees and dollars, as well as having photos on passports and ID cards, and in this case, you can keep it in your pocket, and also if someone has a health issue and there is a picture on the medicine pack, he can keep it in his pocket. But we should not have any unnecessary photos in our pockets.

We also need to make sure that our clothes, our window curtains, our beds, our towels, our carpets, and even our prayer rugs do not have a picture of any living thing on them. Use a jaenamaz (prayer rug) with a simple print or design.

Sometimes there are too many flowers or other forms of prints on the musalla or jaenamaz (prayer rug), and often they look like an image of a living soul, so do not use such jaenamaz (prayer rug).

In your daily life, whenever you see a picture or an idol or a statue, turn your eyes away from it and say "Subhan Allah"

Du'a for Protection From Shirk in the Hadith:

Hazrat Maqil ibn Yasar RA says: I came with Abu Bakr Siddiq RA to the service of the last Prophet Muhammad ﷺ. The last prophet Muhammad ﷺ said: "O Abu Bakr! Shirk (polytheism) is hidden among the people like a black ant [in a black stone in a moonless night]." Abu Bakr Siddiq Akbar RA asked: "Is there any shirk with Allah SWT other than believing in Allah?" Last Prophet Muhammad ﷺ said: "I swear by the caste in whose possession my soul is, shirk (polytheism) is more hidden than the black ant [in a black stone in a moonless night]. May I tell you a prayer by which you can be safe from every shirk, big or small? Say:

اللَّهُمَّ إِنِّي أَعُوذُ بِكَ أَنْ أُشْرِكَ بِكَ وَأَنَا أَعْلَمُ وَأَسْتَغْفِرُكَ لِمَا لَا أَعْلَمُ

Allahumma inni audhu bika an ushrika bika wa ana a`lamu wa astaghfiruka lima la a`lamu.

(O Allah I seek refuge in You from knowingly associating partners with You, and I seek Your forgiveness for that which I do not know) (Grade: Sahih Albani, Reference: Al Adab Al Mufrad 716, Book 31, Hadith 113, English translation: Book 31, Hadith 716)

Our present tragedy is that no head of any Muslim country cares about avoiding shirk, and they are not even creating awareness about it. The only way to get the Muslim Ummah out of the darkness and regain its lost status is to get rid of shirk, Insha Allah! May Allah help us to avoid all kinds of shirk. Ameen.

Muhammad Qasim Told,

2014

In this dream, I see myself taking a bath, putting on new clothes and going out to the park. I see the main gates of the park open, then I see the last prophet Muhammad ﷺ there and he looks restless. The last prophet Muhammad ﷺ is walking here and there in anxiety and I do not resist and I stand by him that maybe he has something to tell me. The last prophet Muhammad ﷺ is amazed to see me and says "Oh Qasim! I was waiting for you so come here." The last prophet Muhammad ﷺ walks ahead of me and I follow him. He ﷺ takes me somewhere far away and there is a big building there. He ﷺ takes me inside the building and says, "My son! Watch! This was the building of my Islam, the leaders inside are not doing justice to me and my Islam, they have formed groups and many of them have become slaves of the disbelievers. And the leaders of this building are not working sincerely, they do not care about the pors and they are not doing justice even its effects have reached the grassroots level and all the people are following in the footsteps of their leaders and also they are forcing others to follow in the footsteps of their leaders, because of which there is chaos and injustice everywhere. My Islam is being humiliated in every part of the world. Indeed, I want you to be the leader of my nation because you treat me with sincerity and you have done all your work with justice, and you do not seek help from anyone except Allah. Give wealth to the needy and spread justice so that its effects reach all the common people and everyone is happy and peace spreads everywhere and the whole world sees that this is the real Islam." Then I say, "As you command!" On hearing this, the last Prophet Muhammad ﷺ rejoiced and said, "Son! Do not be afraid of anything. Allah is with you and Allah has promised me that He will never leave you alone." And the dream ended there.

(Barren Land and the Blessings of Allah Subhanahu wa Ta'ala)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

10 December 2018

In this dream I am going towards a big ground where the land is barren and some people ask me "where am I heading to?" I tell them that "I am going to that big ground" and some of them also come with me to see that land. I tell the people that "one day by the mercy of Allah, this land will produce grains and fruits and some of them believe me." Then I wait there but nothing happens and that land remains barren only. I said to myself in despair that "this land is never going to produce anything and I turned my face away." Then Allah said from the sky, "When I intend to do something then it definitely happens" and then the clouds appear in the sky. Something happens and some rain comes down. By the mercy of Allah small plants grow in that barren land that are similar to a fresh crop that grows out of the land. Those plants are quite small and then a wave comes and those plants grow bigger. When this happens, those people who are standing there also watch this happening in front of them. Then more waves come and those plants grow even bigger. When around 4 to 5 waves come then those plants grow quite big and there are grains and fruits on them too. Whilst this is happening some of the people who are watching all this also believe in me that "whatever Qasim has said is going to come true." Then another wave arrives and those plants or crops are ready meaning they have fruits on them and then they stand tall on the ground. People become very surprised that it really happened as I told them and that barren land has started producing grains and fruits now. Just when the last wave comes then the people open the doors of their cars and prepare to get out of their cars because they feel that the crop is going to be ready now. Then the people come out of their cars and those who are standing there they also run towards that field and start plucking the fruits. All of them become very happy. When I saw everything, I also became surprised that how did all this happen? But during all this those plants remain laid down on the ground and it feels as if it is to prevent the people from entering that field before the crop is ready and to save it from getting damaged.

And then after the last wave the crop or plants are completely ready. Among the people there are also those who initially believed in me but then changed their minds later on and they are also running towards that field to pluck the fruits and they are very regretful.

(Black Horse and the Freedom of the Important Building of Islam)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

13 August 2015

In this dream we were living in a small place filled with darkness. Our main Islamic building was captured by anti Islamic forces. And then Allah ﷻ sent the last Prophet Muhammad ﷺ to us by His Mercy. Upon seeing the last prophet Muhammad ﷺ we all became really happy that Allah ﷻ has sent the last prophet Muhammad ﷺ to us again. And now the time has come that we become united again and regain our Islamic building. The last prophet Muhammad ﷺ said to me that "Qasim! Go and tell all the Muslim leaders about me that the last prophet Muhammad ﷺ has come to us again to free this Islamic building from anti Islamic forces and to rebuild it". I tell him that "Yes I will go now and convey your message to all of them". He tells me that "I will wait for you". But when I go to Muslim leaders and convey the message of the last prophet Muhammad ﷺ then they don't believe me. Then I tell them that "do you only love the last prophet Muhammad ﷺ in your words? Anyone can say mighty things by his tongue. You all should show your love to the last prophet Muhammad ﷺ by your actions and not only by your words." He is waiting for you all". Then they say to me that "Qasim! Don't waste our time and we know what is right and what is wrong. Whatever we are doing, we are doing it for the service of Islam". Then I decide to go back but on the way back I find powerful black horses so I take them along with me. After coming back I tell the complete story to the last prophet Muhammad ﷺ. And I say to him that I am going alone to free the building of your Islam. He said "Wait my son! I will go with you." I said "alright! Ya Rasululah ﷺ! I have a very powerful horse for you! You ride it". Then the last

prophet Muhammad ﷺ told the other people to wait for us here. Then we go to the place where our main building was. We used to live in this building before. Anti Islamic forces had captured this building and they were killing the Muslims who were already there and were also destroying the Islam. I and the last prophet Muhammad ﷺ started to fight but they were too much in quantity and power. Also I see that some forces disguise themselves as Muslims forces but actually they were not Muslims and they were causing more damage to Islam. I told the last prophet Muhammad ﷺ that "these forces are too much. You sit here and have rest and glorify Allah with praises. I will fight these forces alone with the help of Allah ﷻ". And then I start to fight these forces with the Noor (light) of Allah ﷻ and the last Prophet Muhammad ﷺ start to supplicate to Allah ﷻ that "help Qasim!" And then all the forces were destroyed and only those people remained who loved peace. No hypocrite force could stand before the Nur (light) of Allah. We regain that Islamic building again but that building was much broken. I tell the last prophet Muhammad ﷺ that we need to rebuild this building now. He became very happy on regaining the building. And then the last prophet Muhammad ﷺ said to me that "Qasim! stay here while I go to tell other Muslims" and then the last prophet Muhammad ﷺ told other Muslims that "we have regained our place and everyone should go there. Qasim is over there and play your role in rebuilding the Islam". The dream ended there.

(Angel Jibrael (AS) and Jannat and Muhammad Qasim)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2013

In this dream I was sitting on the roof of my house, talking to Allah. I said "oh Allah! Allow me to walk on the path of the last prophet Muhammad ﷺ and let me see the gardens of your mercy then Allah said **"Okay Qasim! I am sending Jibril (Alaihisalam) in a clean place in front of your house. He will take you to the place where you will be able to walk on the path of the last prophet Muhammad ﷺ,**

and from there you will reach the gardens of my mercy and blessings." I became really happy and went to my brother, telling him "Allah is sending Jibril (Alaihisalam) to me right now." When my brother heard this he said "Qasim! what are you talking about? Why would Allah send Jibril (Alaihisalam)?" He didn't listen to me so I left my house. Then in the park nearby, I saw "a light coming from the ground." My brother was staring at me thinking "what has happened to Qasim!" In some time, I saw Jibril (Alaihisalam) coming from the sky. His wings were purely white and there was light emanating from it. They looked like puffy clouds and they were so white that the back of the wings could be seen from the front and all of those wings were moving around very quickly at once. This was such an amazing sight for me. Jibril (Alaihisalam) came to me and his beauty was tremendous. I felt that he is one of the first Angels (Alaihisalam) ever created. I said to him that "Allah ﷻ told me that you will take me to some place." He said "yes Allah ﷻ has just given me the order. Grab my hand and you will fly with me." I grabbed his hand and I told my brother "look! This is Jibril (Alaihisalam) and he has come to take me." My brother became surprised that I was telling the truth. He ran to meet Jibril (Alaihisalam) but he didn't know there was a terrace in front of him. He was about to fall over but at that moment, Jibril (Alaihisalam) caught him and landed him on the ground. Then he took me far away and landed me at some place. He said "this is where I was ordered to take you". I said "okay" and walked some distance Jibril (Alaihisalam) left. I didn't know where I was, but then I saw the footprints of the last prophet Muhammad ﷺ. I followed those prints until I reached an amazing place. The place had gardens and different types of trees and plants. They were such that I have never seen before. There was a beautiful sweet scent which I have never smelled before and there was a calm breeze that felt amazing against my body. I felt a strange type of pleasure and became very happy. It was a very special feeling of joy, relief, and satisfaction all at once. Then I saw a person reciting Surah Rahman (chapter merciful/Quran) in a very beautiful and soothing voice. His melody was such that I have never ever heard before. I was immediately captivated and sat down next to him and listened to his recitation and I felt a very strange pleasure every time he recited this ayah (verse), "Which of the favours from your lord would you deny?" I look back at the gardens and said, "Indeed we cannot deny any of the favours of Allah." Then I got up and ahead of me, I saw the Nur (light) of Allah ﷻ. Then I felt sleepy and started to lay down there. I thanked Allah for bringing me here out of his Mercy. For bringing me to a place that I could have never ever imagined. Then I fell asleep in peace. The dream ended there.

(Magnificent Painting and the Reward of Allah Tabaarak wa Ta'ala)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

December 2015

In this dream, I saw a huge room in which there was a giant paint board on the wall. There were many different pairs of paints and brushes and I saw three or four cows grazing on grass. Then suddenly Allah ﷻ had ordered me to draw a painting exactly like the ones he had shown me in dreams. I started painting from one side and I was drawing exactly the way Allah ﷻ wanted. Then I slowly started getting tired after I used up a lot of my strength. I ended up only painting half of the board. I told myself "how I can't draw anymore than this." I was so exhausted. I only completed half of the painting. But the other half was still remaining. In all hopelessness, I left the painting. And started to walk to the other side of the room where there was a door. I took one final glance at the painting that I made. I said to myself that "I tried my best to obey Allah ﷻ but I just couldn't finish the task that he gave me." In that exact moment Allah ﷻ ordered the cows to complete the remaining half of the painting. And to my amazement those cows picked up a brush in one of their front legs and started painting. I was confused thinking, how did these cows become so intelligent? I ran towards them but they were painting so fast that they finished by the time I got there and then they went back to eating grass. When I tried talking to them they didn't respond. And the painting was so beautiful that it got famous throughout the entire world. People were praising me saying, Qasim is a great artist. I said "no rather all praise belongs to Allah ﷻ and Allah ﷻ is the best of fashioners." And then Allah ﷻ Himself made a huge and magnificent painting. No one had ever made a painting like this before. And then Allah ﷻ wrote my name on the corner. The people had no words for it except "Subhan Allah" glorified be Allah. The people thought I was an amazing painter and the media was asking me where I got this idea from. I remained silent but in my heart I knew that Allah ﷻ had made this painting. He wished to honour me by giving me the credit. In that dream when I saw that painting even I had no words except "Subhan Allah." The dream ended there.

(Promise of Allah and the Establishment of a Miraculous City)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

10 February 2014

In this dream i saw myself completing a very long and tiresome journey. And then I reached a place where I saw tall buildings. I climbed a roof and said to myself that "this is where I am supposed to run off the edge." Then after that I will be running through the air with the mercy of Allah. So I looked all around to see if everything was clear. But when I look towards the sky, I found out that some forces had spread a net to prevent anyone from flying. This really discouraged me. I thought that "what should I do now. If I run off the edge of this building then I won't be able to fly. I will probably fall down due to the net above." Then I told myself that "no! Qasim! Allah had told me that he will protect me and he will not let me fail." I had no other option except to make the jump and put my entire trust into Allah. Otherwise I will never be able to become successful. Then I placed all of my trust in Allah. And I started to run towards the edge and then I ran off and then I started to fly upwards. Then Allah tore apart the net by his Mercy. I managed to escape from their very easily. And then I saw people down below who looked very busy in their jobs however a few people saw me and said "look! Qasim is flying in the air." Some people said that "wherever he is headed towards, that is the place which contains the mercy and blessings of Allah. Then they said "come and let's go after him!" And then those people left their sweet homes and jobs. And started running in the same direction I was going. I flew far away and then I reached a place where there was a very beautiful city. It was extremely advanced and very well designed and had beautiful architecture such that I have never seen before. There were beautiful buildings and homes and even the streets were amazing. The city was decorated with astonishing colours and even the buildings were very clean. No words can ever explain the beauty of that City and no minds could ever imagine it. It felt like this city was a miracle. Then I thought that, who are these people that Allah made them

build such city and how intelligent must they be. And just with that Allah said from the sky that "Qasim! This city will be built by you and those who are with you by my mercy and my help." And the dream ended with that.

(Muhammad Qasim and Four Moons)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

24 November 2015

In this dream I saw that there was darkness everywhere. The sky was dark too and there were huge machines and planes flying across the sky. They had everything under their control and the people had no other options but to accept their tyranny. I look up at the sky and look for the moon. So I see the moon and I say, "I have seen in my dreams that when there is darkness on all sides, I will see two moons in the sky and that means this is the time when Allah ﷻ will help me." So I looked at the sky and I found the first moon and then I found the second and the third. Then I said "the 4th moon should be here too" but I didn't see it. In confusion I looked all across the sky but I could not find it. I got disappointed and complained to Allah ﷻ saying when will your help arrive. Just then I looked at the sky right above myself and I saw the 4th moon. I became overjoyed knowing the time of Allah's promise has arrived. I climbed a very tall building and I ran off the edge of that building and I was running in the air by the mercy of Allah ﷻ. Then the Nur (light) of Allah ﷻ appeared on my right hand index finger. Then I started destroying those gigantic machines and dangerous planes whilst running through the air. The people became hopeful that at least someone is attempting to destroy them. With Allah's help I destroyed all the machines except one massive sized machine. This machine was firing at me heavily and I too was running towards it very fast and then I threw the Nur of Allah ﷻ at the sky. The Nur of Allah ﷻ quickly spread throughout the sky and destroyed that machine instantly. Then the entire Sky became filled with the Nur of Allah ﷻ. We all gained our freedom once again and everyone was happy. Then I came down onto the land and the people gathered around me saying you have done something amazing. And I said "no but it became

possible through the help of Allah ﷻ and verily Allah helps his servants." Then after that people invited me to their houses for a feast. I said that "there is no need for it" but they insisted. I said jokingly that "if only I could clone myself then I would be able to go to everyone's houses." So they laughed and said that no matter what happens we will never leave you alone.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

I am Muhammad Qasim, and today, I'm going to share a 1400 years old Secret that why Allah created Pakistan. In a dream in 2006, I asked Allah that "Oh Allah! Why did you create Pakistan? Every vice is present in Pakistan. There is no peace or prosperity; there are Injustice and oppression everywhere." Then Allah told me that Qasim! 1400 years ago when the last Prophet Muhammed ﷺ was present in this world. He often used to supplicate to me that "O Allah! Near the Qiyamah (Day of Judgment), create such a country whose name will be **La Ilaha Illallah (there is no God but Allah)**. And when my Islam would become weak in the entire world, let it rise from this country into the entire world. And Qasim! I accepted this supplication of the last Prophet Muhammad ﷺ. And then I decided to create Pakistan. And Qasim! I will defend Pakistan and I will save Pakistan!" I request you all to share these dreams.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Muhammad Qasim Told,

6 June 2017

In this dream, I saw myself in the hall of very big building, I was telling my dreams to a few people that "in the future such and such events will take place and a very bad time will come upon the Muslims and there will even be attempts made to completely end Islam but Allah help the Muslims and Islam will be spread in the entire world." Then a person asked me that "Qasim! When will your dreams come true?" I then became silent and thought that "only Allah knows when these dreams will come true. For now, I can only make inaccurate estimations." Another person asked that "what are the signs that your dreams are true? How can we believe you? Tell us which events will take place which proves your dreams are going to come true." And they ask many types of questions and I had nothing to say and I walked out from there. Then a man who believed my dreams said that "Qasim's dreams are true and I will do my research on this and I will try to find out when these dreams will come true and which events will occur before that." Then he went away and entered some Library like room. There was a book in there and a paper was placed in it. He opened the paper and there was writing on it saying that "the first sign of Qasim's dreams is that they will try to make Pakistan as Tora Bora."

(Terrible Destruction of Evil Forces in Pakistan and Muslim Countries)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

7 July 2017

In this dream I was underground of a big building. Someone approached me and told me that "it would be better for me to exit this building. Some evil forces are invading our building." But I had unfinished work to do, so I stayed there. Those evil forces knew that in this building resides a man who will overcome all evil forces in the future. So they plan to completely destroy that building. So that man as well as everyone living in it would perish. When these forces are fully convinced that the building has been destroyed then they leave and I finish my work in the meantime. When I go upstairs, the building is pretty much destroyed. I said that this building is severely damaged and I didn't even know about it. I go out to see which army it was and where it has gone now. I follow in their footsteps and go a little further. When I go far enough, I look back and see how far I have come and how much distance is left for me to reach those forces. In the distance, I see some buildings that are side by side. Suddenly there was a huge explosion in the first building and its intensity is so high that a pressure of air is created and due to this pressure, I also start falling. Even though I put my hands over my ears after the explosion but I still heard the terrifying loud sound. I said that "what kind of a bomb is this. That it made such an impact even though I am so far away." After that a huge commotion began. Suddenly there was a second blast in the next building. And the impact was even greater than before. I said that "may Allah have mercy! Who is causing these terrifying blasts with huge impacts". A lot of people died and there were sounds of screams everywhere. The people who survived were running around everywhere. Upon seeing those people I recognized them from my dreams. These are those people who asked me for help in a dream then I sent them to a safe place with a boat. Then the third blast occurred which was much more severe than the last two. And the impact was so much that this time, I fell flat on the ground and my ears were screeching and I couldn't hear anything for a while. I hardly recovered and when I came to my senses I looked around. I saw dead bodies everywhere.

Chaos was spread in all directions and the survivors were running around as if the day of judgement has come. I said that "Qasim! I can't help them in this state. So it's better to get out of here before something big happens." Then I ran away from there. And at some place a man attacked me with a dagger and he was very expert. I said that "he is definitely from those evil forces." I sustained some small injuries but I killed him by the mercy of Allah. I went to a safe high place to see how much destruction had happened. I said that "who did this and how can we fight them?" When I looked, I saw how destruction spread beyond my Imagination and it kept on spreading. I said that "this destruction can only be repaired by the special mercy and help of Allah." And the dream ended there!

26 May 2018

In this dream I was thinking "what is the food of Pakistan Army that the enemy can contaminate to harm them? Then I hear a voice saying, "it's the dollar and fuel, if those two run out, the army will become paralyzed and won't be able to make any movement." Then I think in my mind that fuel is bought from dollars, if dollars run out, they won't be able to buy the fuel as well. Then I see that the condition of Pakistan has worsened. Pakistan had to pay the debt instalment which we didn't have. If we pay the instalment, there won't be any dollar reserves. One or two army officers suggest that we should ask the overseas Pakistanis to send us dollars so that we can buy fuel. I ask myself, "for how long will they keep on sending the dollars, they must have their own needs as well; why is army making such inefficient plans?" Then the debt instalment is paid and remaining dollar reserves are near to none. Then I see Army chief imposing all kinds of restrictions to reduce expenses. So much so that the TV channels also start broadcasting public service messages for the citizens to adopt simpler lifestyles. All extra activities like sports and events are also limited. Then the army openly admits that the situation is very bad. On the other hand the enemy rolls out its plans to create chaos in 4 to 5 big

cities so that the things get out of control for army. Then I go to see a big army officer. I think it was the house of a Lt. Gen. I wait for him there so that I can tell him about my dreams. After waiting for a while, I go outside for something. I find a lot of security outside, and the house was protected with a blockade on both sides of the road. Suddenly two big cars appear. Gates are opened and they enter the house. I also go inside immediately so that I can meet the officer. When I go inside, I find out it's no other but the COAS. Then I realize, that this was the reason of this much blockade and security. I recall a dream of mine in which the life of COAS was in danger; I ask myself if it's that time? Anyways, I go inside and look for the chief. I find him in the TV lounge probably. I say my Salam to him and tell him that I have to tell him an important thing. He takes me to the drawing room where I start telling him about my dreams, he listens to me calmly. I tell him about Gazwa e Hind as well. And also how the chaos will ensue and situation will go out of hands and how the 3rd world war would start. Also what should be the strategy of Pakistan? I also tell him that the Muslims of the world would see their first victory in Gazwa e Hind and how the army should plan for that. After listening to my talk, the Army Chief says, "Listen to me Qasim! These are all dreams and they have no relationship with reality, we are doing everything for the defense of Pakistan. It's a tough time right now, but we will take care of everything." The dream ended there.

(US President's Terrible Plan Against Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

21 December 2017

In this dream I came to know that the President of the United States is going to discuss a secret plan. I think this plan will also be about Palestine. Then I say that "this plan can also be a very important plan against the Muslims. I should also go there and see what the President of the United States will say." Then I sat on a plane and went there. The president of USA was sitting in some office like place. And some other people were sitting there too. I go inside there also and no one noticed. Then suddenly the US President stood up and there was a paper in his

hand and he said "Hi India". I said that "what does it mean and why did he say this?" Then the US President showed the paper to everyone and I became surprised on seeing that paper. There was a map of Pakistan and India on it of the same colour. And then US President said that "now Pakistan will be controlled by India." And he signed the map and laughed loudly and showed the map after signing it and kept on laughing that now India will control Pakistan. I am saddened to see that he was planning for Pakistan and he must have said "Jai Hind" and not "High India". I can't believe it happened so quickly. I run back and tell the people of Pakistan that "the United States has a plan for Pakistan after Palestine. Get up and save this country." They said that "Qasim! Such plans have been made against Pakistan before but nothing happened and Pakistan is still here and our army is very strong too and no one can dare to even consider challenging Pakistan and we have defeated India many times before too." I said that "yes! But we shouldn't underestimate the oppressive forces and this time India has other forces too. Don't you all remember that Muslims thought the same in the battle of Uhud. Initially they thought that they had won the battle but suddenly they were caught off guard and the tables were turned and Muslims suffered heavy losses. We shouldn't underestimate our enemy and as they are planning, we should plan to save our country too." Then I went another way. On the way I saw some birds flying in the sky. I said that "what kind of birds are these?" And when I looked closely, those weren't birds but the planes of enemy flying at a very high altitude. Seeing them, I am very upset that even the planes of the enemy have started flying in Pakistan and it is not known whether they are planes or birds, but they are flying a lot. Then I went to some huge building and met some people there. And told them the same thing and they too said that "Pakistan's army will take care of it." I said that "how much work will Pakistan's army do? Are they responsible for everything? And you people aren't responsible for anything?" I said "the army is doing everything that it can but due to lack of funding, the enemy attacks from where Pak army is not present and Pakistan is losing money too. The army can't fight without the funds." Then I walked away from there and came home and started to think that "all these people are sleeping. How can their plan be stopped from being completed?" And the dream ended there.

(Nawaz Sharif Returns to Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

7 May 2021

In this dream I saw that after some big incident in Pakistan all parties become much happy except one. Then I saw in dream that they are bringing back Nawaz Sharif with full protocol and this time Nawaz Sharif looks much powerful and all his followers supporting him fully and Maryam is leading them from front. They look so happy as their political statements /agenda have proven successfully. The biggest reason of their happiness was that people used all kind of tactics against Nawaz Sharif but Nawaz Sharif get succeed. And I also saw myself moving around Maryam Nawaz and I also happy in the dream because my statements are coming true. Then I says to Maryam Nawaz by coming closer to her that my statements are coming true same as I said. Then she gave me a positive reply that yes your statements has come true. In dream, the meaning of my saying to Maryam Nawaz was that as my past statements came true, so my future statements will also come true. And the dream ends after this.

(Death of Nawaz Sharif and Civil War in Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2 May 2018

In this dream I see that Nawaz Sharif (former Prime Minister of Pakistan) has been disqualified and he is holding big gatherings all over the country and protesting with his famous slogan "mujhe kiyu nikala" meaning "why have you disqualified me!" "This is injustice and this is not how you run a state or a country. I am being targeted

according to a well thought out plan but I am not going to give up." His daughter Maryam Nawaz is also with him and she also protests in the similar fashion. Many people make a mockery of the speeches of Nawaz Sharif and they laugh at him. They also oppose his stance and present the counter narrative against it but Nawaz Sharif still doesn't back off. Then the political activities of Nawaz Sharif start getting limited and his speeches are not broadcasted either. Many people leave his political party and this creates even more problems and difficulties for him. Due to this he gets a lot of mental stress and is unable to figure out how to get out of this difficult situation. Nawaz Sharif keeps losing powers but he keeps protesting even more than ever. Then he limits himself to his house and starts recording his protest from there that "Injustice is being done with me." He says "No one can stop me and look despite sitting in my house I am still sending my message across to the whole world." He says that "They didn't do the right thing by limiting my activities." And his daughter stands with him through it all and completely supports his stance. Many people express their feelings against Nawaz Sharif and due to the mental stress his health also starts to deteriorate. I keep observing this entire situation and then I see Nawaz Sharif going towards his room. His daughter Maryam Nawaz is busy with sending messages on the internet. Some powers take advantage of this situation. Then I see some miscreants going towards Nawaz Sharif's house. I said to myself that "there is definitely something wrong", and I start running towards Nawaz Sharif's house. When I reach there I find some miscreants on one side of the house and then I use a different entrance to go inside. There is a big hall there and it leads to different paths. I am looking for the way that will lead me to Nawaz Sharif's room. Then I see some Army Commandos coming from one side and it feels like Army is also trying to help and protect Nawaz Sharif. When I see all this I said to myself that "if something happens to Nawaz Sharif then the situation will get out of control. And that is why the Army is here to protect him." Army commandos are also heading towards Nawaz Sharif's room. Then suddenly the news came out that "Nawaz Sharif has died" and upon hearing this I said to myself that "perhaps the Army has been late to arrive at the spot." After walking around I arrive in a big room where Maryam Nawaz is present and she is crying and says that "someone has killed my father." Upon seeing this I expressed grief on the situation as "whatever happened was very bad." Then I leave from there, I see some miscreants but I manage to escape from there. But during this time the news about the demise of Nawaz Sharif is spread all over the country and there is chaos everywhere. The enemies of Pakistan try to take advantage of the situation and spread unrest and anarchy everywhere so much so that the situation gets out of control and even the

Army is not able to handle it. The scenes in the dream were very scary and disturbing. When the calamities befall Pakistan and the circumstances get worse then the events unfold as I propagated through my dreams. When people witness that the events are happening as I have seen in my dreams and shared them. Then they start following my dreams even more and believe in them.

(Tyrannical Powers Are About to Destroy the Political Planes of Pakistani Leaders)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

25 May 2017

In this dream I saw that there is a green colour layer on the sky which is see-through and I can see the blue sky through this layer. There are passenger planes flying in the sky and then I see that one passenger plane is coming down for landing. There is a big leader present in this plane as well. Suddenly this plane catches fire and it crashes into the ground. Then I see another plane flying downwards for landing and this plane also catches fire and crashes into the ground. Upon seeing this people are absolutely shocked- I come out running onto the road and see chaos everywhere and people are also running in every direction out of fear. Then I go back to the roof of my house, I see that the green layer in the sky has shrunk and there are blue colour patches on it and now it has blue and white layers as well. I thought to myself that what has happened to the sky suddenly that it has changed completely? Then I get a feeling that these are the evil forces that are controlling the whole world and that the sky changing colour is a sign of that. Then I notice that there is no plane flying in the sky which means that the evil forces have taken everything under their control. Then I see that their machines start destroying the houses and the buildings. Then these machines start heading to the place where I am present. Then I come down again and see that a lot of people are gathered there and I explain to them that these machines belong to the evil forces and we do not have anything to fight with them. Then I said that to fight with these forces we need heavy ammunition. Then I go out in search of this heavy ammunition. Then

I see a place and I say to myself that I may find that heavy ammunition here. When I try to get to that place then some forces send some green coloured crocodiles and other small dinosaur type of dangerous animals get in my way to stop me from reaching there. Upon seeing these, I turn back and see my friends. I say to them that you have fought with such forces before and you will also be able to fight these forces as well. I ask them to come with me and they agreed and then we fight these forces together.

(India will Attack on Lahore and Pak Army Paralyzed)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

20 March 2017

In this dream I see an area across the Pakistani border which looks like the border of Afghanistan and enemies are sending terrorists in Pakistan from there. Pakistani Army is dealing with these terrorists very well and exterminates them. Upon seeing this the enemies become very angry that Pakistani Army is always in their way. Then the enemies send their trained terrorists into Pakistan by providing them night vision tools and modern weapons. But as soon as they enter the Pakistani territory Pakistani Army detects their movement on their systems and takes out every single terrorist. On seeing all this the enemies get very frustrated and furious because none of their plan is working. Then they plan and decide to launch an internal attack to weaken Pakistan internally and then launch an attack from the borders. They mix some kind of virus or chemical in the food of Pakistani Army and after eating that food the army becomes paralyzed and they can't move around. Then the enemies said that "now we will attack Pakistan." India attacks Pakistan on the eastern borders and Afghanistan attacks from the western borders. India launches a massive offensive attack on Lahore and Pakistani Army is not able to handle this attack. Then the people of Pakistan take arms and ammunition and fight with India. I also head towards the border to fight with the Indian Army. I find a big machine gun and I start firing at the enemy. There are other soldiers with me as well. When the Pakistani Army and the public fight together then the Indian Army

stops where they are. During this I tell our people that "we need to go back and shift our public to a safer place because we can't stop the Indian Army for too long." Some people say that "we are here to fight the Indian Army and we are ready to die but we are not going back." Then after that when we are going back to the city then some people said that "if Army Chief believed in Qasim's dreams and planned accordingly then the circumstances could have been different." And during all this chaos a big part of Lahore gets destroyed. Then I go to a place which is like an underground basement of a building. Then after that It feels like I am going in search for some place. At this point a country that has a red colour flag gives a very strong warning to India that stop your Army where they are otherwise we will destroy you. Then this country supports and helps Pakistan. They also send their doctors to treat the Pakistani Army. Their Head of the State also visits Pakistan himself to show moral support. Whilst helping Pakistan they also bear some losses but even then they don't complain about it. India continues to adopt the cheap tactics and sends virus and bacteria inside Pakistan through the drones. Due to this a vast amount of Pakistani children get affected and become ill. Upon seeing this sad situation, I make Dua to Allah Subhanahu wa Ta'ala and ask for His help. Allah Subhanahu wa Ta'ala sends rain by His mercy and all the viruses vanished. Then I head towards some destination and on my way I see an area which is like a meadow. The Head of the state of the country with the red flag, that helped Pakistan, is also there. He is sitting among the people and talking to them. Upon seeing me he recognizes me and says "you are Qasim, right?! I have heard about your dreams and they have become true as well." After greeting him, I go searching for a place, and I feel like without finding that place we cannot get out of these difficulties.

(Chaos and Panic Everywhere in Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

13 May 2018

In this dream, I see that chaos has spread everywhere in Pakistan and there is a lot of fear among the people. Resources and funds of Pakistan are also finished. Army is unable to fight and there are speculations whether this country will survive or not. Using this chaotic situation to its advantage, India opens up various fronts against Pakistan and starts killing the people in different areas in large numbers. The number of Pakistani troops is small and they keep moving along the borders but they can't defend the whole border efficiently. Every Pakistani is sad over the appalling condition of Pakistan. Then India opens up another aggressive front at a place and the Army of Pakistan is mobilized to tackle the situation. I only see two helicopters in the entire arsenal of Pakistan's Army. Upon seeing this, I said to myself that "this situation is the interpretation of a previous dream of mine; where I see that the ammunition of Pakistan Army is finished and they only have two helicopters left and there is some ammunition with the Army Chief, and there is a big tank type machine on the other side which is not getting destroyed." At this occasion people start complaining to the Army Chief that "if the Army Chief had believed in Qasim's dreams before then we wouldn't have faced these problems." Then the people start saying to me that "Qasim! Please do something and take us out of this misery." Looking at those bad circumstances, I said that "now it is too late, how can I fix all this mess and I ignore what the people said to me." People become very hopeless that there is no hope of getting out this miserable condition. Then India starts a big operation at some place and start killing the Pakistani people. On this the President of the USA says to India that "Stop these killings! You have only been ordered to control Pakistan and not the killings", after this India aborts this big operation. I became very sad on seeing all this that we had to face this time of disgrace and people of Pakistan also became very grieved. Once again people turn towards me and try and push me to do something. Army Chief also says that, "Qasim! We were wrong, we should have listened to you under any circumstance and we should have made plans to save Pakistan. We have made a mistake and we are regretful for that, please do something and help us." I said that "without the

help and mercy of Allah I will not be able to do anything." At this point I get a strong feeling that whatever I will say Allah will make that happen by His mercy. Then I invoke Allah's name and say to myself that "they haven't even seen the Army of Allah yet", then I call out and a lot of fighter jets, other war machines and tanks come out of the earth and India got absolutely gobsmacked upon seeing that arsenal. Then I said that "we will progress by the help of Allah and we will end all kinds of darkness and there will be no one to stop us."

(Army Chief of Pakistan, Conspiracies and Martial Law)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

8 August 2017

I saw in this dream, I was in a big room. The Army Chief and other people were talking on a round table. I was standing near the exit door way. This meeting was urgently made to address a severe issue. The problem was there were people who planned to create chaos and destabilize the country. Those people were in civilian dress. The Army Chief listened to their plans and he became very upset. He said "don't do that or else I will impose martial law." But those people replied him saying "you can't stop us and you can't do anything after taking over either." The Army Chief became silent. Then he said to them again "I warned you don't do that." But those people ignored him and continued to make their plans. Out of anger, the army chief walked away towards the exit door where I was standing. Seeing me there, he approached me and said "Qasim! Help us! Stop those people otherwise this country will fall apart. And kindly inform me when you're finished." I said "okay I will try to stop them", then he left the room. I said "if the army chief was not able to stop them then how can I?" But then I place my trust in Allah ﷻ and relied on Him. I walked over to the circular table and saw that they had already began their plans. I was looking at what they were doing for some time. Then I started talking to them but I don't remember exactly what I said. However in the end I was able to stop them. Then I went to the army chief and told him "I stopped them." The army chief became happy and said "you have done a great job. Now stay with us so that

we can rebuild our country and soon we will become powerful and spread peace and mercy."

(Spreading the Anarchy of the Political People in Pakistan)

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

Assalamu Alaikum.

Muhammad Qasim Told,

20 October 2019

In this dream, I am seeing the current situation and I say in my heart that this is the same time when some politicians want to spread chaos in the country. Then the army chief forbids them to do so and says that the situation in the country is already bad. You will make things worse by holding sit-ins but they do not agree. I have seen all these things in a dream before and then I say that right now Imran Khan is in power and he is also a patriot, so how did he get involved in this chaos. Then I see the government and its pro-government ministers speak out against these people and threaten to stop them. Then I say that the government itself is leading them to anarchy and so is Imran Khan will become part of this anarchy. These people will go away in protest and there will not be much damage but their move could lead to a series of chaos and sympathy for the common people and further worsen the situation. Therefore, Imran Khan should stop this chaos. Imran Khan is the Prime Minister and he should act wisely and this chaos should be reduced, not be increased.

I saw in a dream that people are discussing politics in a big room that, "if the circumstances get bad then Imran Khan's government will end and after that Army or someone else will take over." I said that "If Imran Khan's government is overthrown, there will be elections and people will re-elect Imran Khan because he has not been tested properly yet. Until Imran Khan gets 30% of the time, people will know about him and then after that some other system will be established. Imran Khan is the last political option. After him such a system of governance will be implemented which will be Islamic and it will be a presidential form of government.

(Rage of Allah and Chaos in Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

28 December 2018

In this dream I saw that, Allah is explaining something to the Muslims but they do not pay attention. Allah became angry and said to me "Qasim! Write my message and deliver to these people, they are not paying attention." "I will inflict my wrath on them." Allah is speaking in an angry tone and I do not have any other option but to write the message. Allah starts speaking and says "LA ILAHA ILLALLAH MUHAMMADUR RASOOLALLAH" meaning "There is no God but Allah and Muhammad ﷺ is his final Messenger." After this Allah narrates something which I

do not remember. Allah is enraged and he speaks in an angry voice but this anger is not for me. I keep writing and then some people come to me. They come to know that Allah has told Qasim to write His message and Qasim is writing it continuously and delivering it to the people. Allah's anger and annoyance remains constant and it continues and I become scared to write anymore due to the fear of Allah. I said to myself "why is Allah asking me to write this message, what can I do now as I do not have any other option." Then I tell those people who are with me to write the remaining message. Then I tell them that "whatever Allah is telling me I will narrate it to you and you just keep writing it", and one of them said "Yes that's fine, we will write it." Allah is watching all this and when those people are ready, then Allah starts speaking. I listen to that and narrate it to those people and they keep writing it. This work is very good. Allah's anger and rage is not for those people. I said to myself that "these people are quite courageous that they have started to write all this." When Allah has completed His message then one of them says that "the message, Allah has narrated is very dangerous and scary. India will also occupy some part of Pakistan." Then I said to them "yes! But when Allah will help us, we will regain that area." Then it also has to happen that an earthquake will come and the circumstances will get worse after that. Then there is an earthquake of low intensity and we do not realize that it's the same earthquake which we were waiting for and the news comes out that those people who were controlling the two big provinces, after this earthquake their houses have collapsed and they have died. I said to myself that "this was a very light earthquake but it has collapsed their houses." The circumstances get worse after this and no one knows what is happening and how to control the chaos. Chaos spreads everywhere and it happens exactly how Allah had narrated and there is darkness everywhere. Then I wear some clothes and they even shine in the darkness and people can see me from a faraway distance.

(Allah Subhanahu wa Ta'ala and Pakistan)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

Spring or early summer 2011

In this dream, Allah Tabarak wa Ta'ala was high on His Arsh (throne) and Allah Tabarak wa Ta'ala was teaching the Muslims about Pakistan. Allah showed every sign to teach the Pakistanis but they didn't understand at all. Then Allah Tabarak wa Ta'ala directs Himself to the Arabian sea and says to the Pakistanis that "you are not of those whom understand!" I was seeing all of this from a small cloud I was sitting on. I get worried after seeing this, so I get down to try and make the people of Pakistan understand. When Allah Tabarak wa Ta'ala sees what I am doing, Allah Tabarak wa Ta'ala starts to observe me. One and a half years later I saw the second part of this dream. I reached the earth and took a roundabout in Pakistan. Allah Tabarak wa Ta'ala put a boundary around me so that nothing could harm me. Then I pray to Allah Tabarak wa Ta'ala that "O! Allah send your blessings to Pakistan and its people!" Then the earth starts pouring out its blessings of Allah and its treasures.

(Allah's Black Helicopter and Pak Army)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

4 December 2015

Yesterday in a dream, I was lost and going somewhere. I supplicated to Allah Subhanahu wa Ta'ala to let me walk on the path of last Prophet Muhammad ﷺ and let me do such works by which you shall become happy. After that I saw a huge and tall building and I went inside. Then I went ahead and reached the roof of the

building and said that "This is the time when Allah Subhanahu wa Ta'ala will talk to me." So just after that Allah started to talk to me from the sky and said that "Qasim! I am sending a powerful big black helicopter for you and then I will teach you how to fly it." After some time the helicopter arrived and Allah Subhanahu wa Ta'ala told me about the helicopter and how to fly it. I flew it but I couldn't fly it correctly. Then I learned how to fly the helicopter and I flew the helicopter and brought it near the Army of Pakistan. Pakistan's Army was ready to go on some mission. So I asked them to take me along with them, I have been given this helicopter by Allah Subhanahu wa Ta'ala, and Allah Subhanahu wa Ta'ala and the last Prphet Muhammad ﷺ has told me that,

"Qasim! one day the Muslim Ummah will need you to take them out of darkness!"

Then the Army Chief said that "thank you for your help! You should take rest, we are enough for this operation!" So I said that "as you wish." Pakistan's Army came out for an operation and I went with them a bit far and then I went to another direction. And then the night fell, and I slept in the helicopter and the last Prophet Muhammad ﷺ came in my dream and said that "Qasim! Pakistan Army is getting trapped in a hardships and their ammo is also going to finish!" I woke up and started to find a way to get to Pakistan Army but I didn't find them. I said "Pakistan Army is a strong army they can handle it" and then I slept again. Then the last Prphet Muhammad ﷺ came to my dream again and said that

"Qasim! Pakistan is the last castle of Islam! wake up! you have to save Pakistan go and help them!"

Then I woke up and said that "whenever the last Prophet Muhammad ﷺ comes to my dreams two times then it means that I have to do that work." Then I search and say "where has Pakistan Army gone?" I ask Allah Subhanahu wa Ta'ala to show me the way, so the Nur (light) of Allah Subhanahu wa Ta'ala appeared in front of me and I followed that Nur with full speed and I reach the place where Pakistan Army had conducted the operation. I had went ahead where there were some terrorists left and they were becoming powerful. I kill them with a machine gun but I couldn't aim correctly and a lot of ammo got wasted but I killed them all. Then I went ahead and saw that an operation had occurred at another place but a few terrorists were still left there. I said to myself that "Qasim! leave these little terrorists and go and help the Army." So I flew the helicopter once again at high speed and reached the place where Pakistan Army was conducting the operation. There was a huge tank

like machine which Pakistan's Army was trying to destroy but it was not getting destroyed and only Army Chief and two other helicopters had ammo. The ammo of everyone else had finished and one or two Pakistan's helicopters had also been destroyed. So I opened fire on it immediately after arriving there. My aim wasn't very accurate but I destroyed it with the Help of Allah. Then another machine came which was much bigger than the last one and it fired a missile at Pakistan Army helicopters. And I destroyed that missile in the air. I said to Pakistan Army that "you all go away and let me fight with this machine." So Pakistan Army went to a side and I went in front of the machine and fired two small missiles at it and those missiles exploded after going inside the machine and the machine got destroyed. After that Pakistan Army raised the slogan of Allahu Akbar and everyone became happy. Army Chief said that "you destroyed the machine with ease, we should have listened to you before, you came in the niche of time otherwise our ammo was almost finished and that machine was also not getting destroyed." I replied "I had told you before but anyway Allah Subhanahu wa Ta'ala brought me here at the right time and I destroyed the machines with the Help of Allah Subhanahu wa Ta'ala. Allah Subhanahu wa Ta'ala has sent this helicopter and no machine can withstand in front of it." And this dream ends here.

Assalamu Alaikum.

Muhammad Qasim Told,

2 April 2019

I saw in a dream that I was giving an interview on TV and I was asked questions about Pakistan. I am asked "how will your dreams be advertised?" I say, "Imran Khan hopes that he will succeed but after he becomes the prime minister his party is divided and people inside the party say that if you do this and that then we will support you, otherwise we will not support it, as all political people do. Imran Khan does the same and says, look what happens now. Maybe there is a way out and he keeps working in this type of situation but when the situation gets so bad he says; I will leave the government and dissolve the assembly." Then I am asked, "If Imran

Khan will know your dreams?" I say that "you may know a little bit about the current situation but when the situation gets very bad then Imran Khan thinks; why I failed? And what is the reason for my failure? Then he considers my dreams and then the army chief also knows my dreams." When Imran Khan leaves the government, the situation worsens than before. Due to which the army chief has to handle the situation of the country. Before that the army chief also knew my dreams and the last Prophet Muhammad ﷺ testified to my dreams to the army chief and then the army chief has to choose a leader under a new system and the government is given to him. After this shirk is abolished and the country develops.

Assalamu Alaikum.

Muhammad Qasim Told,

10 December 2017

In this dream I was sitting in my house, this house was old and was also on rent. Me and a few other people were in a room when Allah ﷻ sent a flying machine with a message that there's a place in space and Allah ﷻ has called me there. I was happy to see that Allah ﷻ has given me some work. Jibril (AS) came there too. I looked at him but he went to that room where the people were sitting. Then I went out towards that place. I boarded on the machine and was going forward with full speed far from earth into the darkness of deep space. I was completely surrounded by darkness. In the front and the back of me all I could see was darkness but I kept moving forward. Suddenly some evil forces came and said that "stop him!" If he reaches that place then we will be destroyed. So they attacked my flying machine and it got destroyed but I was saved with the help of Allah ﷻ and nothing happened to me despite being in space. I kept on flying away from the impact of the space and then I controlled myself and looked for the way to go back but I couldn't understand that from which way I came. Then I estimated a way and I went into that direction by using my arms and a lot of force and soon I gained much speed. I said "Allah ﷻ has saved me in space and has allowed me to fly without the

machine, so He will guide me to the right path also and I will go straight to earth and then to my home.” I kept on flying and also got scared that if I went astray then I probably won't ever be able to go back. Suddenly I saw the earth and became very happy and Allah ﷻ took me to my home. When I reached home, Jibril (AS) was still sitting with those people. I felt that he was talking to those people and telling about me, after I came back he noticed me. I said “Why is Jibril (AS) watching me and why is he still here? I came from so far but he is still here and what is he doing sitting with these people?” After a while Jibril (AS) left and so did the other people. After coming back, I didn't meet anyone neither did I talk to anyone. I went and sat in another room and started to think, I said "why didn't Allah ﷻ tell me that there was danger on the way and if Allah ﷻ had told me, I wouldn't have ever went in that direction. I became very sad and I said “I took so much risk and went so far, I used all of my energy and the result was nothing. Had I known, I wouldn't have had ever went on this journey.” Then I started to become weak. Then I went to some place and I met a man from those people who were in the room, and he asked “what happened to you? Why are you so sad?” I said “Allah ﷻ gave me a task to do and I couldn't do it. I keep on becoming weaker and this work is beyond my capacity.” He said “don't lose hope like this, this difficult time will pass too, you should go to see some doctor.” Then I went to a doctor and he gave me a prescription for a medicine and he said “take this medicine and you will be fine again.” I came back and thought “Where can I find this medicine from?” I showed the prescription to that person, he said “I know where to get this from, I will get it for you.” Then I went to some place and a man was making a house there and he was setting it really nicely, upon seeing that I said that “I wish I had a home like this too.” Then I met a second person and he was also from those people in the room and he said that “Qasim! We are making a house for you.” I got surprised “they are making a house for me? Where and why?” He took me to a place and those people from the room were there. I said “these are the same people who were in the house and before going on the journey I was with them. Why are these people doing all this for me? How did they know that I wanted a home?” Those people were working with devotion and honesty. I thought that “did they receive a message from Allah ﷻ so they are doing all this?” Then the man reached there with the medicine. Upon seeing that medicine I said “these are multivitamins which my father used to take”, then I took the medicine and started to watch that house. The house was rather small, upon seeing it, I said "this is a small home with barely any walking space and hardly we all can fit in it, I had to build a big house", and in my mind the same big house came which I often saw in my dreams. Then I said “It is better to have

something than nothing, for now we can make do with this house, and then if Allah ﷻ wants, we would also get the big house too, these people have worked really hard to make this small house.” I was still standing there thinking all this. Then someone came near me and said "a fight has started at such a place" and that place was famous. I said "how is this possible?" He said "all this happened suddenly. You can go to see yourself." When I saw the TV then really a fight had started there and that fight kept on spreading and became the cause for a huge calamity. I said "this just keeps on spreading." Those people who were working with me started to work even more and they told the people "It is going to be exactly as Qasim dreamed." I became surprised by seeing all this and thought "these people are very genuine and honest by spreading this message that if the people don't unite, from the war many Muslims Countries will be destroyed." Many people sat around them and listened to this and many believed them too. I said "I should go there myself and see what is happening." When I reached there, I saw a severe fight between Muslims and non believers was taking place. I couldn't understand and didn't know what to do. Muslims were losing very badly. I mustered up courage and went forward and there was a path leading to another place. I followed it and I reached an open area and I became surprised from what I saw there. The army of the non believers was getting ready there. Upon seeing it, I said "this is the same army which I saw in my dreams. It destroyed Turkey and Saudi Arabia and now it is advancing towards Pakistan." There were many planes, helicopters and land troops there. I felt that this army is the army of Dajjal (Antichrist). Upon seeing all this I said "we Muslims aren't powerful enough to fight this army." I turned back and went to those people and told them everything that "the armies of the non believers are ready and this is the time when non believers destroy the Muslim countries." They said "this means that we don't have much time." So those people kept on trying to reach out to even more people with the message and said "the non believers are planning a huge attack on us and if we don't use our brains and unite then a huge calamity will fall upon us. Pakistan will play a great role in this war. The time for Ghazwa-E-Hind is very near." This time I saw that some well known people came and sat near them and listened carefully and the dream ended there.

(The Power of Dajjal (Antichrist) and the Help of Allah)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

4 November 2015

In this dream, I had reached a place and saw there was a rather large plant Dajjal was using to increase his powers. He installed special equipment to help him accomplish this. He also had a team of people assisting him. Dajjal was wreaking havoc and in listing people to join his dark forces. He killed those who didn't comply. I saw Dajjal, but this time I saw him in a very different form. He was so terrifying; he was exceptionally tall and very strong. He said, "Soon, when my strength peaks and I attain even more new abilities. I will instil fear in the hearts of people all around the world, and the people will either bow down to me or be killed." I was so disturbed. I wondered "how can I fill the world with peace and spread true Islam throughout the world once again as it once was, if Dajjal appears?" I prayed "O Allah! Please do something to stop Dajjal". So Allah gave me a sword like weapon. I went back to the plant where Dajjal was upgrading his strength. I started breaking up the equipment with the weapon given to me by Allah. When I broke all the equipment Dajjal suddenly came running out of nowhere and said, "Qasim! That wasn't a very good job you did of trying to get rid of me and now I'm going to come after you!" I said, "You're a troublemaker that causes confusion and chaos. You deserved it." Dajjal says, "How do you think you're going to stop me?" Then I hit Dajjal with a swift blow using the weapon given to me by Allah and he was injured pretty badly but didn't die. He was incapacitated so I buried him deep in the depths of the earth and melted iron over the area where he was buried and said to myself, "Dajjal isn't dead, but this will slow him down. It will take many years for him to get out of there!"

(Magic of Dajjal (The Antichrist) and the Negligence of the Muslims)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

7 June 2017

In this dream, I was given some work to do by Allah ﷻ, I had to convey a messages to the people. I began meeting with people, but Dajjal found out that I was helping the Muslims unite and regain their lost status. Shortly after this Dajjal started to use his powers. I met with some Muslims and gave them the message, but Dajjal had already taken affect on them and made them heedless and the people neither listened to my messages nor did they care. However there were some people who had upon them, the special Mercy of Allah ﷻ and Dajjal had no power over them and they listened to what I said and they recognized me and that my name is Qasim!" I were very happy we met with these people, and the people passed the message on to others, but no one listened to us except for very few people. Then one or two people who used to believe in the dreams just abruptly left. I were surprised and thought "What happened to them"? Then I felt difficulty in breathing and one friend who was with me said that "My face looks changed". I became surprised and looked at the mirror and saw that there was a mask on my face, and I said that "This is why I have difficulty in breathing and then some people left me and went away because they couldn't recognize me because of the mask". My friend said that "This is definitely the work of Dajjal, so that the people who believe in you will leave you," I took off the mask and said that "Dajjal isn't in full power yet and still he is so powerful, how dangerous will he be when he gets the full power?" After this we decided to reach out to some influential people but Dajjal had beat us too them and the people became deaf, and blind and they were unable to think or understand anything as if they were in a trans. I became really surprised and thought why is Dajjal so strong. How did he find out we were gonna go these places?. I told all the people who were sitting with me that "Dajjal is after us, I have something which was given to me by Allah ﷻ Dajjal doesn't have full power yet so he wont come to us now, but he will attack us with his magic from behind the scenes, so you all be careful and act upon all the advice given by the last prophet

Muhammad ﷺ to keep us safe from Dajjal". Then we went to different places to contact the people. There were two or three people with me and we reached a place along the sea. There was a boat there. I said we will get on the boat and go somewhere else. There were also some people who had gone to other places to give the message. We left a person with the boat and went to contact more people. We brought some of these people back and one of them was sitting with his leg in muddy water then suddenly he screamed and took his legs out and his feet up to his knee were burning as if someone threw acid on him. We became very worried after seeing what had happened!. I said to him "Why did you sit and place your leg in the muddy water?" I had already said that "Dajjal is behind us and he will not miss a single chance." He couldn't walk and other people had to pick him up and put him in the boat. I went back once again and looked at the influential people and said to myself "when will these people wake up?, and how long will they be in this state? These people will only believe me when they wake up and thats when their followers will believe me but when will all this happen?" Then I thought to myself "I should leave them and go to the other side of the boat, perhaps there I might find some hope." While on the way back I got some medical supplies to treat that person's leg so that he might recover soon. Then another person said "where will we go on this boat?" I said "somewhere where we might find some hope, because we have tried here but nothing happened." When we finally boarded the boat and we were ready to go, we saw some people who looked as if they had escaped a war zone. We asked them "Who are you?" They said "A war started suddenly at the place we were living at and our homes were destroyed badly. We barely made it here." I said "What happened there that all their homes were destroyed and they were forced to leave?" I said to my friends "Lets take them to a safe place first and then we will go on our journey." After taking them to a safe place we went on our journey and we reached a place where there was a very huge caste style house with very high walls. After seeing it I said that "This is the place where I wanted to go." I said to the people "There is a huge door here which we will open to enter the castle." Then we searched for the door but we couldn't find it. I was surprised because this was the right castle, so why couldn't we find the door? Then I saw a pillar and said "The door was near it so why can't I see it?" When we went a little closer to the pillar then we saw the door but when I went back a little then it disappeared. One person said "Maybe Dajjal knows about this door and he hid the door with his magic so that no one could see the door from far. I said "Yes this could be the reason, there's a wall he formed with magic in the middle which is hiding the door." And when I looked from far then I could only see

the wall but when I came near then I started seeing the door. One person said "How will we open the door"? I went near to the door but it did not open. I looked at the door and said "perhaps Dajjal has control of it otherwise this door would have definitely opened upon my arrival." Then I took out the thing which was given to me by Allah ﷻ. It was a pure water and I poured it on the door and the door started to upgrade. I said to the people who were with me that "this door has a level 6 but by pouring this pure water on it, it has started to upgrade to a level 10. Then it will be free from Dajjals control and it will open." One person asked "how long will it take the door to upgrade?" I said that "Allah ﷻ knows better, now come with me there is a secret way near this door from which we can look inside the castle but we cant enter it from there. If we see someone inside then we will convince him to help us." When we went up from the secret way then the castle was filled with darkness and it was abandoned and it seemed that no one had come here for centuries. Upon seeing it abandoned I became very sad. I looked at the door and it was upgrading and we could only go inside when it opens. We couldn't find anything there either except for the door so we decided to go back because we could only do something if the door opened. Suddenly a green coloured paint bucket came jumping towards me while shouting my name and said that "Qasim! you have come! I've been waiting for you for a long while hiding inside here." Dajjal has taken control over everything and he has made everything ghost like. They are unable to understand what is happening to them and only those people who have a special mercy of Allah ﷻ upon them are safe ". I said " This is why I was surprised everyone in the castle knew me whether they were living or non living and thats why the door didn't open either." Then I sprinkled the pure water on the bucket and suddenly a peacock came flying while speaking my name, and said that "Qasim! you have come!" That peacock was very beautiful and I sprinkled pure water on it too and it started to shine and then another peacock came. We became happy on seeing all this that at least we got some hope even if these are birds and non living things but these are very great signs for us. Then I looked at the corner of the castle. I saw a black weak and hungry cow which was chained. Its face was very weird and horrifying and I felt as if Dajjal has brought it into this state. When I looked into its horrific eyes, I felt that Dajjal is present in this castle and he is looking at me from this cows eyes. And the dream ended there.

(2 Faces of Dajjal)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

28 November 2021

I saw a short dream a few days ago that there was a person who looked in his middle age and he had a very pious look and he was doing welfare work and helping people and pretending to be a very nice and pious person and religious too. And then i found myself in a place where some person was looking for him. That person was wearing a hoodie (black-coloured outfit). And that person was looking for me and he was finding me in that dream to kill me or harm me. But I found myself in sort of a place which is not easily visible just like you see there is a chimney or fire place inside rooms. As in some western constructions, you see fireplaces that are made within rooms so that it is used as a heater. So in that kind of place, i saw myself hiding in. And that hoodie person was looking around for me but he couldn't see me. Because my position under that fireplace, i could see that person. After some time that person found a woman who was wearing an Islamic dress and she looked religious and that person slaughtered her right there. And while slaughtering her, his face was revealed a bit and then i was able to see his face and i says to myself in the dream that O! This is Dajjal. Before that, i don't know that the person looking for me and after me was Dajjal and then i realises that O! This is Dajjal that was after me. I think that is about the dream. But basically, that dream is about the 2 faces of Dajjal. In public Dajjal is living like a very pious person in his middle age and he does welfare work and pretends himself as a very nice and pious and religious man and pretends to be a caring Muslim but in his other mode, he actually is some sort of assassin who hits religious people and Islamic people and the people who are in the path of Allah and kills them for no reason and he is living like two faces and two presentations.

(Muhammad Qasim's war against Dajjal)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

Suddenly, I saw the Nur (light) of Allah appear on my right hand index finger. Allah had also transformed my appearance into a younger version of myself. He even changed my clothing into fresh and beautiful ones. And Dajjal was approaching very fast and he throws a punch. But I somehow manage to block it and I punched him back. And this made him go flying backwards. This made him very angry and he became red. He changed his appearance into a more frightening one. And he started to run towards me again. But he stopped at some distance and started to scream. Saying things like how can I beat this guy? I want to destroy him. He became so frustrated and enraged. That he went to the people around him and started beating them up. And he was so embarrassed that he couldn't fight me. He knew I had something special protecting me from him. And he knew if he fought me. Then he would get beat up even more. And the dream ends there.

(Sending a Terrible Storm of Dajjal (Antichrist) in Muslim Countries)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

19 August 2017

In this dream, I was on the roof of a very large house, situated between some smaller houses where I and some other Muslims lived. There was a smaller house to the right of me that wasn't too sturdy. There were Muslims occupying all these houses. In the distance I could see two large buildings surrounded by several large houses and some more small houses, Muslims lived there too. Around there was huge lofty buildings. I could see some people constructing a rather large plane.

They fixed one engine but left the other not fixed. I was puzzled as to why anyone would attempt to fly a plane in this condition. I figured it's probably going to crash and hit something if it takes flight like this and cause a lot of destruction. Just as I suspected when the plane took off it went out of control and turned slightly ultimately heading straight towards my house. I was terrified. A huge blast which caused me to duck in shock. I had to muster up some courage and get up. The plane crashed into the house next to mine. The house caught fire and spread to my house causing a wall to become engulfed with flames. People in the house were asking "who would do a thing like this." When I looked in the direction the plane took off from, I could see "the Dajjal (Antichrist) standing there on the roof of a house." I was shocked and confused. "Why was he there? He seemed to be doing something strange." Then he used his powers to unite the winds and the clouds and a terrifying sort of thunderstorm was formed. He sent it towards the place where there were several big homes and a few smaller ones. The thunderstorm was terrifying and scared the Muslims upon seeing it. The thunderstorm just stopped over top of those homes. Thick dark clouds with lightning and fast winds kept hovering over the roofs of their houses circulating like a huge hurricane. It felt as if it would destroy everything. The clouds were so enormous they reached my roof, it was terrorizing for every Muslim home but no Muslim or scholar could muster up the courage to say anything. All Muslims started to pray to Allāh ﷻ to stop this thunderstorm or finish it. I said "Dajjal is doing all of this, It's better to do something practical along with the supplication." I was looking at Dajjal, "he was looking at the sky and thinking something." I wondered "what he's looking at and what he's waiting for." Then, Dajjal raised his arms in the sky and did something. I decided that it's better to go down there and try to prevent any further evil. As I left, rain started to pour. On my way down, I noticed the ceiling being filled with water drops. I said "What is this? Water is dropping from the roof? There isn't even a single hole". Then in the floor below, I noticed the same water dripping through the ceiling like before. I became horrified, thinking how is this even possible? This will completely destroy our house. I saw the others, they looked very worried. I went back to the roof. The rain was so much, visibility was zero. I looked over the edge and saw that water was accumulating in the house. The water was swirling around violently, I felt like it was going to break the walls. I looked at the main gate and it was closed. I became shocked upon seeing the powers of Dajjal. I said "I should open the main gate so the water can leave and the pressure is lifted before the wall breaks." I went to the ground floor and saw that many people were drowning in water. I swam towards the main gate and then grabbed it. The water was pushing me back with force but

I managed to open the main gate. All the water drained out and we were all saved. They said "Qasim! If you hadn't opened this gate, then we would have surely drowned." Some army men came and warned us against people who are attacking our homes. The people became distressed saying "one problem was solved and now another one begins." The army men left and I decided to follow them in order to defend the innocent people. I stopped and realized that I needed ammunition to fight. After searching the house, I found some ammo as well as a giant weapon with a scope, and a uniform in one room. I saw that the back side of the house was slightly damaged and there was a house on the other side of this wall. I then made my way back. The army was fighting a few people but their ammunition was weak and running out and the enemies were too strong. Those enemies had a very solid strategy leaving the army at a disadvantage. I hid myself strategically and looked through the scope. I was able to see through the wall very clearly. I aimed and activated the weapon which passed right through the wall and hit the enemy. That enemy fell and became unconscious. I became amazed thinking "what kind of weapon is this? I activated the weapon a few more times and the rest of the enemies fainted." The army also saw me and became surprised that "what kind of weapon is this?" I said to them that "these enemies are very powerful and only this weapon can stop them." Then we went into a room and there was a person controlling that entire building. Upon seeing him, I knew that he is a helper of Dajjal. I captured that person and left the army detain him and guard him carefully because he knows the whereabouts of his leader. I didn't tell the army that Dajjal sent these men. Then we returned and the army said that "the enemies are dealt with" and so everyone became happy. They said "Qasim defeated all these enemies when we were unable to do anything." People became surprised and said "Qasim, how did you overcome the enemies? Where did you get this weapon and uniform? Are you a soldier?" I said "yes I am a soldier of Allah ﷻ." Then I thought about Dajjal and said that "this is just the beginning." I never got a chance to see how much destruction the thunderstorm caused. This is because of the heavy rain.

('Dajjal' Satan's Rich Warlord)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

I saw dreams about Dajjal and I am going to share that dream in parts. This is the first part. I've seen Dajjal many times in my dreams. Dajjal's height is 6 feet and 1 or 2 inches. Little curly hair, a little black coloured skin. Dajjal's face was cruel and when he walks it seemed like no one can stand before him. He seems like a normal man to me but he had many magical powers. In one dream Satan calls him as his "Rich Warlord." When Allah fills the entire world with His Nur (light) by His mercy then after that it becomes filled with peace for a while. And after a few years Dajjal suddenly appeared. When Dajjal appeared, pious people became worried. Dajjal claimed to be a God and he had also magical powers. To support his claim, Dajjal tried to lure the people by false promises to get eternal youth and life. People with weak faith started to follow him very quickly. I went to stop Dajjal and he said that "Qasim! Join me! I will give you eternal life and Youth!" So I asked Dajjal that "what will happen by that? One day we are all going to die. You will never succeed in your purpose and you have to die one day also. The Lord of me and you is one Allah. The Lord of all the worlds!" Upon hearing this Dajjal became irritated and he changed his appearance into a very terrifying one. My body started to shake and I couldn't muster up courage to say anything. Dajjal said to me that "Qasim! If you do not join me then I will kill you! So go home and think carefully which path you want to choose!" Then I came back towards Muslims and said "if anyone went in front of Dajjal then there's a 99.9% chance that he would join him. Dajjal is a great trial and only those can save themselves from this trial upon whom is the special mercy of Allah. And O Muslims! Instead of joining Dajjal it is better that we die as a Muslim! Come let's die in the way of Allah while fighting Dajjal!" All the Muslims agreed. We wage a big war against Dajjal. The Nur of Allah appeared on my right hand index finger and I engage him with the Nur of Allah, so he won't be able to use his powers on the Muslim Army. The Muslim Army fought with Dajjal's Army and I fought with Dajjal so that the Muslim Army may deliver as much damage as possible to Dajjal's Army. I keep on fighting Dajjal for a long time with the nur of Allah. But Dajjal was very powerful and while fighting him suddenly the Nur of Allah disappeared from my index finger. I said to myself "Qasim! run away from here!" Dajjal came after

me and said that "Qasim! I will not let you go alive today". I started to run in the air with the mercy of Allah and I kept running till I reached a mountain terrain and Dajjal also came there after me. Dajjal attacked me from the back and I fell down there injured. A large Stone was lying there and it opened and said that "Qasim! Hide yourself inside me! I will save you from Dajjal!" but I refused and with that Dajjal approached towards me and said "Qasim! Get ready to die!" He was going to kill me but at that time I called Allah. I said "Ya Allah help me!" And then the word "Allah" written came down from the sky and then Allah threw lightning on a mountain nearby. And a terrifying sound was produced and the mountain shattered after becoming black. Dajjal fainted and fell down. Allah healed my injury and said "Dajjal has only fainted for 4 hours and he will wake up after 4 hours. You run away from here and hide yourself somewhere as long as I do not command and don't come in front of Dajjal!" I thanked Allah that He saved me and then I ran away from there. When Dajjal woke up again, he thought that he had killed me. Then Dajjal came back towards Muslims and told them that he had killed me and the Muslims felt weak after hearing this. Dajjal continued his Mission again without any hurdle. The spirits of Muslims are lowered by the news of my death.

(Who Is Dajjal (the Antichrist)? Where Is He Now? And When Will He Appear? Learn Full Details)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

Many years ago the last Prophet Muhammad ﷺ said to his companions: "Between time of the creation of Adam AS and the Resurrection day, there is nothing greater than the mischief of Dajjal (the Antichrist)." "In my dreams, I have seen many things pertaining to the false Messiah and today I'm going to combine them to present a comprehensive narrative of what I have witnessed regarding MASIH AD-DAJJAL (THE ANTICHRIST)."

The Physical Description of Dajjal (the Antichrist):

Dajjal's height is about 6 feet and 1 or 2 inches. He has a cruel face with dark brown skin. He is clean shaved and bears a mole on his cheek. Dajjal has slight curly dark hairs and he bears close resemblance to a typical south Asian or Middle Eastern man. Dajjal has a muscular built and when I saw him, I didn't see any of his eyes bulging out rather they were normal. I don't know if he is blind in one of his eyes, however he does have the ability to shapeshift, therefore he can take on any appearance he desires and uses this ability to appear in a pleasant form and seduce the masses.

When Dajjal walks, he strides with a lot of pride and it feels like no one can approach or stand in front of him even those who may seem to have unshakable resolve will fall victim to his deception. In my dreams, I have heard Iblees addresses Dajjal as **"My Rich Warlord."**

The Power of Dajjal:

According to what I've seen in my dreams, Dajjal is frequently triggering and conspiring pandemonium (fitna) in the Middle East. Bear in mind that he hasn't reached his full potential yet, perhaps that's why he has not yet appeared in front of the people but he wants to achieve his full power so that he can appear in front of the people and for this he increases his power in various ways. So for the most part of my dreams, I have seen him constructing some black-magical harnessing plants which he uses to fuel his powers. In one particular dream, I've seen him performing bizarre rituals through the use of skulls which he used to gather magical power and collect them in a fuel tank which acted as a repository similar to what you see sorcerers and magicians do. In one dream, I have heard Dajjal saying "very soon my power will increase and I will acquire some new powers. I will implement my fear across the entire world and the whole world will either submit to me...otherwise I will kill them." Perhaps this is symbolic for something ominous...Allah knows better. To me it seems that dajjal is waiting to gather enough power until he is ready to make an appearance to the world and he gains this power by establishing magic-harnessing plants. I'm not sure if the construction of the 3rd temple is a part of his ritual to obtain more powers, Allah knows best.

When Will Dajjal Appear?

After the great Malhama (WW3), the noor of Allah is filled throughout the earth and the Muslim ummah implements peace and justice upon the entire world, and this peace lasts close to a decade (for 7 years). During this peaceful reign the Muslim army builds heavy, high tech weaponry and technology to prepare for the war against Dajjal. While the Ummah prepares for this trial, a few disbelievers await the arrival of the Dajjal, most of them being from the Yahood (Jews).

What Will Dajjal Do When He Appears?

When Dajjal emerges in public, he is able to quickly subdue the entire world which causes the believers to become fretful of him. Dajjal claims that he is a God and is easily able to appeal to the masses and support his claims through the use of his diabolical powers. Dajjal fools many people and those with weak faith start joining him very quickly.

Many people have questioned me about whether or not Dajjal will use technology or Jinns to perform his deceptive miracles. From what I have seen, Dajjal will be able to perform his supernatural feats through the use of black magic. It is only by Allah's decree that he is able to have such powers and he is indefinitely the greatest trial for mankind. In my dreams, I was informed that the supernatural feats which we watch in movies and television would easily be performed by Dajjal. *Such as running in the air, shape shifting, mind manipulation, weather control, and power over the elements, and so on. These are just examples Allah knows best.

Dajjal promises the people a paradise on earth, to the men he promises women, wealth, property, and whatever their hearts desire. To the women Dajjal promises to beautify their appearance, make them more attractive, and grant them anything they desire. Due to this, billions of people join him in a matter of days.

Dajjal and Muhammad Qasim Face to Face:

The Islamic forces advance to confront Dajjal and engage him and his army of followers, however our efforts seemed to be of no avail and our heavy missiles were like firecrackers in front of Dajjal. Remember that at this time technology and military equipment is at its peak. Allah has sharpened the minds of Muslims and the world has developed in a way that no one has seen before but still Dajjal and his armies are easily able to repel our attacks.

After the appearance of Dajjal and the battle of the Islamic army with him, I go myself to confront Dajjal and he persuades me to join him and promises me eternal life and a high status. I renounce/rebuke him saying "what will happen by that? we are all going to die someday and nothing except Allah can live forever, you will fail in your endeavors and you too shall die one day. The Lord of you and I is one, Allah..the lord of all the worlds (of the worlds)." Upon hearing this Dajjal becomes infuriated (irritated/aggitated) and changes his appearance into a very terrifying form which causes my body to shake and I couldn't muster up the courage to say anything. Dajjal then exclaims that "Qasim! If you don't pledge your allegiance to me, I will kill you...go home and contemplate about your final decision."

After this encounter, I leave from Dajjal's presence and go back home. I approach the Muslims and warn them that "If anyone confronts Dajjal, there is a 99.9% chance that they will join him. Dajjal is indeed a great trial and only those who Allah has bestowed his special mercy upon can save themselves from this trial" I instruct them that "O Muslims! If we love Allah and the last prophet Muhammad SW, it is better for us to die as Muslims than to pledge allegiance with Dajjal. Come! let us die as shaheed in the path of Allah while fighting Dajjal" The Muslims agree with me and the believers gather to wage a war against Dajjal and his group of disbelievers. And with that begins the war between truth (Haq) and falsehood (Batil).

The Ultimate War Between Dajjal and the Muslims:

And with that the war between truth (Haq) and falsehood (Batil) begins. I engage Dajjal with the Noor of Allah on my index finger and attack him to divert his attention so that he doesn't use his powers on the Muslim army. I keep engaging Dajjal so that the Muslims could inflict as much damage to Dajjal's armies. Due to Allah's Noor, I was able to fight with Dajjal for quite some time, however Dajjal was extremely powerful.

In the midst of battle, the Noor of Allah suddenly disappears from my index finger and then I say to myself that "Qasim! It's best to fall back from here." I start evading Dajjal and try to run away and then by the mercy of Allah, I begin to run in the air and Dajjal comes after me by flying and he exclaims "Qasim! I will not let you live today!" I manage to traverse into a mountain terrain; Dajjal follows me there and continues his onslaught. Dajjal strikes my back and injures me; I lose my balance and fall down. A large stone next to me opens up and says "Qasim! Hide yourself inside me, I will save you from Dajjal" but I refuse the offer. At that moment Dajjal

approaches me while uttering “Qasim! Get ready to die.” I then beseech Allah praying “ Ya Allah! Help me!” And then the word “ALLAH” descends from the sky, and then Allah causes the lightning to strike at the side of a mountain. The mountain darkens in colour and it shatters into many pieces. Subsequently causing a frightening sound to arise and upon hearing this Dajjal immediately faints and falls down.

Then Allah heals my wounds and tells me that “Qasim! Dajjal has only fainted for four hours and he will wake up after that.” Allah says to me that "Qasim! Run away from here and hide elsewhere, afterwards I will tell you what to do next and don't come in front of Dajjal as long as I command you." I say "as you command my Lord!" And I express my gratitude to Allah for saving me from Dajjal and then I start journey to another location and hide myself.

When Dajjal regains consciousness, he doesn't remember the incident that had just occurred and believes that he has killed me. Dajjal goes back and gloats to the Muslims that he has killed me. Upon hearing this news the Muslim army becomes disheartened and demoralized and with that Dajjal starts his mission without any resistance and one by one the Muslims fall.

The wars with Dajjal cost the lives of hundreds of millions of people most of them being Muslims.

The End of Dajjal:

Dajjal advocates a lifestyle filled with facade, illicit acts, debauchery, adultery and basically a false “kingdom of heaven on earth” for his followers and this fitnah continues for 4-5 weeks until the descent of the son of Mariyum Isa Alisalam.

The Descent of Hazrat Isa (عليه السلام):

In my dreams, I have seen our noble prophet Isa alaisalam descending from the sky. He appears to have wet black hair and he resembles a Middle Eastern person. Me and the few believers who remain start to live with Isa alaisalam, and this is followed by appearance of Yajuj wa Majuj.

(Who Are Gog and Magog? What Are They? When Will They Appear?)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

I have seen Gog and Magog and Isa (AS) many times in my dreams. Here is a summary of the dreams I had about Gog and Magog. Gog and Magog are of two colours which are black and white. Both are the same and the only difference is their colour. Gog and Magog are like a different type of big gorillas. I have never seen a face similar to Gog and Magog in pictures or movies. When they start coming out then they never stop. And they have a unique type of anger inside them for humans. Because of humans they were in prison for centuries and they take revenge for this from humans. Gog and Magog live in a very huge hole in the earth. And the way to the hole is through a very large cave and inside is a long way that leads into the earth. This one is smaller as compared to the cave but Gog and Magog can easily come and go from the cave via this path. The roof of the hole was very high and Gog and Magog are unable to climb it and in the roof are small holes from where they get light and air. When Gog and Magog are in the hole, they have no idea what is going on in the cave or in the way leading to the cave. When Gog and Magog come out they spread mischief and after spreading mischief they go back into the hole and they live there for 4 to 6 months and they don't come out. And this is the time when Zulqurnain builds a wall on the opening of the cave. Zulqurnain first blocks the inner way to the cave and when the inner way is blocked then Gog and Magog are trapped and they couldn't break down this wall. When Gog and Magog come out, just a few weeks before it, the Muslims have the worst battle with the Antichrist. And When Gog and Magog come out; humans have no heavy weapon to fight Gog and Magog. In a dream I go to fight with a strong headed non believer. And before going I boarded my family and some other people in an advanced type of train and I tell them "to wait for me here. When I come back, we will leave this place forever and will go to join Isa (AS)." When I kill that strong headed non believer with the help of Allah, I hear the voice of the last Prophet Muhammad ﷺ saying "Qasim! Gog and Magog have come out; get to your home fast." I get to my home fast. When I reach home, everything was fine. I tell the people that "you all sit with caution" and that "Gog and Magog have come out" and

they can attack our train". I started the train and get up on the roof of the train. So that if Gog and Magog would attack, I will kill them with the Nur (light) of Allah. The Nur of Allah then appeared on my finger. And on the way four or five white coloured Gog and Magog attacked our train. And when I see them it seems like they are coming down from the sky. They attack with a terrifying scream and a lot of speed. But when I throw the Nur of Allah on them they die in the air. Later I feel that Gog and Magog run fast and they make small jumps and then they make a big jump and they go very high in the air. And then they attack on coming down so that no one is able to defend himself. The best way to kill Gog and Magog which I have understood is to kill them while they are in the air because their movement speed is very fast and their body is very strong and they have a lot of power in their arms and legs. On the way I saw a few people and I stopped there to board them on the train and the people who were with me told me not to stop as it can be dangerous but I said that "perhaps I will be able to save a few more people." And just as I stop the train black-coloured Gog and Magog attacked and since it was night, I could not see them clearly either but I kill them all with the Nur of Allah. And the people who were with me were saved with the mercy of Allah and there was no damage to the train but those people were killed for whom I stopped for. My companions said that "Qasim! You will get us killed while saving a few people" and I said that "you are right we shouldn't take the risk." Then we did not stop anywhere. And with the mercy of Allah we reached Isa (AS) at fajr (dawn) time. Isa (AS) came to earth just a few moments before we reached him. Then we started to live with Isa (AS). I've never seen in my dreams that what Gog and Magog eat and how they are alive in the cave for so many years and also I've never seen who kills them all but I've seen that Gog and Magog destroy the entire world and only a few people were left.

(Yajooj and Majooj or Gog and Magog, The Final Sign)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

Since time, many scholars, thinkers, and historians have researched the perplexing topic of Yajuj Wa Wajuj and have brought forth various speculations and theories surrounding these creatures. I have seen many dreams pertaining to these beings,

and today I'm going to combine them to present a comprehensive narrative of what I have witnessed regarding YAJUJ WA MAJUJ. Yayajuj and Majuj are of two colors which are shades of black and white, they look like a very large type of gorilla and are covered with hair all over their bodies. I cannot approximate their exact height as it varies between them, but I can say that they are much taller than the average human being, this is just an example and Allah knows best Yajooj and Majooj have incredible strength, stamina and speed and they run on 2 legs, albeit when they want to jump into the air they use all four limbs. Take a look at this picture, this is the closest example I can give of what I have seen Yajuj Majuj to look like. I'm not sure as to the specific location of Yajuj and Majuj, Allah knows best if they are located in the caucuses around the Darial gorge or the mountainous borders of Kazakhstan and Uzbekistan or if they are located in Russia somewhere in the north. I did see however that the mountain was very tall, steep, sharp and is very difficult to climb. To paint a clear illustration, I would compare this mountain to the Nanga Parbat mountain of Pakistan nicknamed the killer mountain as it is notoriously difficult to climb. Yajuj majuj live in a great big hall underground with a high ceiling which they cannot climb, to get to this hall there is an opening in a mountain which leads to a huge tunnel which eventually leads to their abode (large hall). Allah knows best about the approximate dimensions of their abode, this is just an example and shouldn't be taken factually. The hall that Yajuj Majuj live in has holes in the ceiling so they have access to oxygen and sunlight. I have never seen what they eat, or drink but something interesting which I have seen in my dreams is that Yajuj Majuj have drawn caricatures of human faces on the walls of their halls, and teach their offspring about humans, and teach them that because of these humans we have been imprisoned in here, and we have to get revenge from them, hence the generational hatred persists and is carried on across their descendants. In my dreams I saw that Yajuj Majuj would cause mischief and mayhem when they are out of their cave, and then they would return to their home for a period of 4 to 6 months, and it was during this time frame that Dhul-Qarnayn (may Allah be pleased with him) trapped Yajooj and Majooj with an iron wall. In my dreams I've seen the construction of this wall by Dhul-Qarnayn, and his helpers. First, Dhul-Qarnayn blocked the inner tunnel passageway which leads to the hall of Yajuj Majuj, afterwards he began working on the outer opening, and this process took him 6 years, during that time, there were no cranes or any type of machine that would provide the workers with leverage so after filling up the base of the mountain with molten ore, they started pour the molten ore which was composed of iron and copper from the top of the mountain to fill in the remaining gaps, and this was a

difficult task to undertake as the mountain was a very sharp and steep. I haven't seen Dhul-Qarnayn face as I was watching him from a distance but I can say that he was wearing a grey piece of clothing while working on the construction of the iron wall. Take a look at this picture, this is how I have seen the wall that Dhul-Qarnayn builds, it was similar to this color with rust around it and it was composed of iron and copper. Everyday Yajuj Majuj ram into the iron wall built by Dhul-Qarnayn in an endeavor to break free from their confinement, they each take turns ramming into the wall but with no avail. I have seen that they have already broken the barrier to their tunnel entrance. I have also seen that the outer wall is now covered with a natural ecosystem as mud, grass and tress have started growing on this barrier, so you cannot tell that there is a wall there. A few weeks before Yajuj and Majuj come out, the worst war of humanity takes place with Dajjal. And almost all the ammunition was finished in that war. When Yajuj and Majuj come out mankind has no heavy weapon to fight against them. In the dream I go to fight with a powerful strong headed person, and before going I boarded my family and some other people in an advanced type of train. I tell them to "wait for me here, when I come back then we will leave this place forever and go join Isa Alaihisalam (Jesus)". After fighting and subduing that powerful strong headed person with the help of Allah, then I hear the voice of Muhammad ﷺ. saying "Qasim, Yayajuj and Majuj have come out get to your home fast." When yajuj majuj come out they attack relentlessly, I have seen them run on two feet and have also seen them hinge on all 4 limbs at times, especially when they are about to leap into the sky. I get to my home very quickly, when I reach there, I see that the situation was fine. I tell the people that "you all sit with caution" and that "Yajuj and Majuj have come out and they can attack our train at anytime". I started the train and get up on the roof of the train, so that if Yajuj and Majuj would attack. Then i will kill them with the Nur (light) of Allah. The Nur (light) of Allah then appeared on my index finger and on the way four or five white colored Yajuj and Majuj attacked our train, when I see them it seems like they are coming down from the sky. They attack with a terrifying sharp scream and a lot of speed. But when i throw the Nur of Allah on them, they die in the air. In one dream I see that Yajuj and Majuj run fast and they make small leaps, and then they make a great big jump which carries them to the sky and they reach a high altitude. I'm not sure about how high they can jump, but I can tell you that in one of my dreams when I was awaiting their attack, I saw them attacking from the sky and they were behind the lower level clouds. Allah knows best if this is the cumulus or stratus cloud. When Yajuj Majuj ascend into the sky they attack with great speed coming down so that no one is able to defend themselves. The

best way to kill Yajuj and Majuj which I have understood is to kill them while they are in the air as their movement is limited, and on the ground they can quickly maneuver and have great speed, and their body is also very strong and they have a lot of power in their arms and legs which they utilize as their weapons. I haven't seen Yajuj Majuj carry any weapons but Allah knows best if they will use weapons. While on board the advanced train I saw a few people in the distance and I stopped there to board them on the train, and the people who were with me told me not to stop as it can be dangerous. But I said that "perhaps I will be able to save a few more people", and just as I stopped the train black-colored Yajuj and Majuj attacked, and since it was night, it made it difficult for me to spot them, but I was able to subdue them all with the Nur of Allah, and the people who were with me were saved with the mercy of Allah, and there was no damage to our train, but those people whom I stopped for were killed, and people said that "Qasim you will get us killed while trying to save a few people". And I said that "you are right we shouldn't take the risk". After this incident we did not stop anywhere and eventually with the mercy of Allah reach Isa Alaihisalam (Jesus) at fajr (dawn) time. Isa Alaihisalam (Jesus) came to earth a few moments before we reached him, and then we started to live with Isa Alaihisalam (Jesus). I've never seen how Yajuj and Majuj (Gog and Magog) are alive in their cave for such a long time, or how many they are and who kills them all. but I've seen that Yajuj and Majuj destroy the entire world and only a few people survive. Allah knows best. I request you all to share the dreams and visit my website divinedreams.co my Facebook page and YouTube channel for more details. (Corona Virus Compatible Dream)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

9 October 2017

I saw in this dream that I was sharing my dream with people that an earthquake will come and that our fragile buildings will be destroyed and that this will create a huge problem for us but the people said that "it's just a dream." I told them that

"our business buildings are much damaged and they have huge cracks in them" but they said that "we have withstood many earthquakes and we are still here and not much has happened." I said: "Yes! But our building will not be able to withstand any further earthquakes and our buildings will fall." Then I saw myself moving into a very badly damaged building with huge cracks. In this building, I and my family members were doing business. I told my family members that "if an earthquake comes, then we will have to get out of this building immediately because this building will collapse." But they kept on doing their work and after sometime nothing happened. I thought maybe the earthquake will not come so I also started to do my work. Suddenly, I felt the earth is slightly shaking. Then I looked around and saw fan and other objects are shaking as well. I told myself that "the earthquake is coming and we have to get out of this building. I shouted loudly that the earthquake is coming! Leave this building fast!" Then I started to run downstairs very fast. In that time, a heavy earthquake came and the building started to shake heavily. I exited the building, and to my left on the other side of the road, I saw another damage building starting to collapse. I said "oh no! This will be a huge loss for us because that building was huge". A few of my family members also got out and I told them to run because when this building collapses, some parts of it will collapse and a lot of dust will come from them and I started to run in the opposite direction and I saw other buildings started to fall and I saw everyone running around frantically. I kept running and reached my house. I saw almost every business building falling down. I said that "this damage is intense and it can't be repairable. I saw that my house had no damage since our homes are strong and they can sustain heavy earthquakes unlike our weak business buildings. When I came home, my family members those were with me in that building reached home. And someone asked me "what happened?" I said that "all the business homes and buildings are destroyed." The people are running around in worry and the dust is spreading everywhere because of the collapse of the buildings. Another one said that "what can we do now? How can we sort this out?" I said that "I informed all of you before that this is going to happen but no one listened to me. As of now, I don't know what we could do to solve this?! At least many of our homes are still safe." Then we moved to a safer location and everyone was sad and worried. When the people saw the destroyed buildings, they said to each other that "where did that time go when these buildings were still standing and we were happy? Now everything is destroyed." One of them asked me that "Qasim! What will happen to us?" "Please do something and recover all of this." I became sad and

thought that "I can't do anything in this situation. No one can help us, only Allah is the one who can help us."

(Muhammad Qasim Gave a Good News That Corona Virus Can Be Cured)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

22 March 2020

In this dream I saw a black and white screen and in there I saw the Corona virus moving in its real shape or form. I felt as if I was watching this under a type of microscope. Then someone told me that "if we cut this virus in certain way, it becomes weak and ineffective." He then cut the virus at a certain point in front of me and said: "Now if we put this weak or ineffective form of virus into the human body it won't cause any harm to the body, and the immune system of the body will destroy the weakened virus, and information pertaining to this virus will register in the immune system, which means that the body will learn how to fight off the virus. Now if the original virus enters the human body, the immune system will recognize it and eliminate its negative impact and there will be no harmful effect on the body." After this I said that this concept might not be understood by the common people but if I explain this to a medical professional (such as a doctor, medical scientist or a virologist) they will understand it easily and dream ended there.

(Muslim Leaders and Their Followers Deny Qasim's Dreams)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

9 November 2015

In this dream, I was wandering somewhere and I asked myself "where am I going?" The Last Prophet Muhammad ﷺ used to walk in light and Allah would fill that place with light from His mercy but I can't seem to find the way even after being in the Ummah (nation) of the last Prophet Muhammad ﷺ. I made a du'a (supplication) to Allah to walk on the path of the last Prophet Muhammad ﷺ so that I might be successful. Then I saw a building. When I went inside there was a girl crying while she was cooking in the kitchen. I was tired and hungry. I asked the girl for something to eat but she didn't listen to me. I called her several more times but still she didn't listen to me or look at me as if she didn't know I was there. Then she closed the kitchen door. I kept moving. A little further away, I saw stairs going up. I started to climb them. After climbing a few stairs, I stopped for a brief moment and said to myself, "Qasim! This is just what I saw in my dreams, that is, I'm wandering somewhere, then I find a girl and she doesn't listen to me." Then I go ahead and think now "I will definitely meet Allah." I then continued up the steps and saw there was a huge hall; there were Muslims and their leaders. When I go near them, Allah says in my right ear "Qasim! Narrate the dreams which I have shown you." So I stopped and told them "Allah and the last Prophet Muhammad ﷺ have been coming in my dreams for many, many years. Allah has promised me that He will help me and He will take me out of this darkness. And Allah has shown me the straight path from the dreams." After hearing this, they started to laugh at me and said "are you crazy? Who has seen Allah in dreams?" But a few people believed me. I said "why not? Allah is able to do all things and the last Prophet Muhammad ﷺ has told me in the dreams that Qasim! Whoever supports you is just like a person who supported me but they made fun of me again after hearing that. I said "You all are making fun of me because Allah and the last Prophet Muhammad ﷺ keep coming in my dreams?" So their leader said "yes this is exactly why and you're a liar!" I said to myself silently that this Ummah (nation) makes supplications to Allah

to help them and take them out of darkness but when Allah sends someone, they ridicule him. I go forward from there and those people who believed me also started to walk with me. So the rest of the people told them not to walk with me and they said "it's a sin" but they didn't listen to them and they came behind me. I said to my companions "if these people don't believe, Allah will shake them heavily." Then suddenly a very strong earthquake came and everyone was terrified. I felt as if this building will collapse. I said "if this building starts to collapse, its roof will tear open and Allah will take out me and those with me but the earthquake stopped and the people who were with leaders, most of them ran away and they became scared but the leaders and their few companions started to ridicule me again. I said to them "Allah has sent such a terrifying earthquake and still you don't understand then maybe you will never understand." Then Allah showed up on His throne in great anger and Allah said "you just keep on ridiculing Qasim! Your hands will break and you will become ruined!" Upon hearing the angry voice of Allah I woke up, shaking with fear.

(Muhammad Qasim's Decision to Abandon the Mission of Spreading the Dream)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2 October 2015

I decided one night on February 10th, 2015 that tomorrow, I will delete all my social media accounts and I will abandon this work once and for all. Then, on that night the last prophet Muhammad ﷺ appeared in my dream. The last prophet Muhammad ﷺ said, "Qasim! Do not despair in the mercy of Allah. He is helping you and you are very close to your destiny. Qasim! Just wait a bit more, Allah is with you". The voice and accent of the last prophet Muhammad ﷺ was extremely sad. It was as if he would lose everything if I would stop my work. I never ever saw him worried like that before.

(Work on a Mission to Spread the Dreams)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

February 2018

I see in this dream that we are living in a house. This house, I saw many times in my dreams. It was damaged a lot and many people were repairing it. I was inside of the home doing some work. After finishing the work I said, "I have to see the other people and the work they have done." They are working but I could not meet with them due to my own work. So I went outside and I saw these people are painting the home as well as they repair the exterior walls and other things. They didn't come inside yet because they are busy outside. I went to the door and I saw these people from door and they are busy with their work. I saw their work through the door space and I said that there is a lot of work still left. They will finish the outside first then they will go inside and it might take some time. When I went outside, they see me and become happy to see me there. I start handshaking with them and I told them that "I was busy with my own important work and I just got time to see you." They said "no worry, we are also working here." Then we start talking about our work and the dream ended there.

Assalamu Alaikum.

Muhammad Qasim Told,

In this dream, I was walking somewhere and I knew my destination was the era of peace and a person meets with me and we were headed in the same destination, although he was going down the wrong path. I did not say anything to him or force him but I hinted to him that you are going the wrong way. He noticed in time and went the right way and was working like a spark, he gathered a few people and at

one point they were waiting to meet me, they knew my name and where I was going which surprised me. Thinking, "Where have I met them before." Allah ﷻ told me, "It is because you share all your basic dreams and they recognize you." They were awesome people very nice and kind, they asked me, "Qasim! Where are you headed to?" When they knew I was headed to the path of peaceful land they started following me and even walked faster than me. Then Allah ﷻ gave us cars and we moved faster, at one point that man gather many more people and then the whole world saw our efforts. The dream ended there.

(The Search for a Peaceful Land and Allah's Special Help)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

2015

In this dream I see, There was darkness and destruction everywhere, it was as if an evil country dropped a nuclear bomb, me and some other people wanted to escape from there. I had some type of flying machine, there was gas in it, everyone went inside but I was still outside because the gas didn't catch fire, I thought that "Perhaps the engine was malfunctioning." I did something and sparks appeared however they were very tiny, after about 5 or 6 sparks the gas finally caught fire. I was feeling unwell due to the radiation of the nuclear bomb, I could barely breathe and it was very difficult for me to stay outside. I joined the others and the machine started to fly, it wasn't flying properly at one point the machine almost crashed, Allah ﷻ saved it at nearly the last second, then it started to fly correctly and went forward with full speed. Then we finally came out of that darkness, we finally saw the sun coming out. Some people on the ground saw our machine and said "look where are these people going." One of them said "they are definitely going towards a peaceful place." They all called out saying "take us with you; we also want to get out of this darkness and reach the land of peace." The machine flew with full speed and didn't stop for anyone it only had those people who sat inside when it was about to fly, the rest of the people had to walk or run after us in any way just to get to the peaceful land. Then I strongly felt the mercy of Allah ﷻ descending down

into the earth and surrounded our machine, this made our machine fly much more higher and faster, Allah ﷻ protect our machine so that we were flying forward with full speed, and the people were chasing after us. Dream ends.

Assalamu Alaikum.

Muhammad Qasim Told,

February 2019

In this dream, I saw, I was living a useless life, a life of darkness. Then I saw a company who isn't interested in hiring anyone. I think to myself that the owner of this company is a good man, I should talk to him. I go and talk to him and tell him that, "I'm living a life of darkness, if you give me a chance, I may come out of this life of darkness." The owner doesn't give me much attention but says that, "I can

only give you a chance, if you don't do well I won't be able to help you." He gives me a chance and then I start my work and I try my best to do well. Then slowly my progress starts getting better. Slowly the owner starts getting happy with my work and thinks that I was doing well and it was according to his expectations as well. Then the owner starts telling other people about my work that Qasim is doing well. Then he becomes so happy that he starts keeping an eye on me via cameras. He is so happy with me that once he was attending a high-profile meeting and I called in the middle of it. He starts listening to me with full attention and ignores the people in the meeting. The other attendees also feel that the owner is paying much attention to Qasim and ignoring us. I mean the owner becomes extremely happy. The dream ended there.

(Muhammad Qasim Gets the Job and Faces the Problems)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

February 2019

In this dream, I saw myself in my house. I said to myself "I don't have any work to do. What is this life and what is its purpose and what kind of life is this?" There is a very big company which is going around advertising for manager job. They don't appoint anyone as manager for quite some time. They want to hire someone and began to advertise even more. They advertise a questionnaire on the TV and wait to see who gives the best answer. I said to myself "my qualification is not that high and this company is big. I might not get the job." I see on the company's website that the questionnaire is there and I feel that "I can answer easily." I write the answers, and after writing them, I put the answers in an envelope and hand the questionnaire in to the reception. The receptionist informs me that tomorrow is the interview. There is people there who get surprised that how did he get the interview and I became surprised that, "Why did they call me?" I prepare my clothes for the morning; I iron, and make preparations. When the morning time comes, I leave the house. I see a girl in the way, and I like that girl and I want to marry her. I follow the girl and wherever she goes, I follow her and run after her

nearly the whole day. Then the night time falls and neither did I get the girl nor the job and I became sad. I think to myself that "the company who is hiring must have hired a manager by now." I should check who has been selected but nothing appears. I said to myself that, "If I had went for the interview at the right time, I might have been the lucky guy." Then I fell asleep, when I wake up in morning, I become curious as to who got the job and I wanted to find out. I go out to see who got the job. I check the website but there is nothing there. I went to the office but I look at my clothes and they are untidy and not so clean. I said to myself "if I go out in this condition they will not select me." Anyways, I come back to home and I take a shower and when I am finished, I see that there are new clothes that appeared from somewhere! With these new clothes I can go for the interview. I change clothes, get ready and leave for the company's office. At the reception I see a lady who is sitting there handing out the envelopes. Seeing me she gets up and says salam and greets me with respect and says, "Welcome sir." As if they are waiting for me. Many other people say Salam to me and they all welcome me as well. They told me that "they had hold the interview and that I was selected." I asked "how can I be selected?" I wanted to see the owner to find out how? They give me directions to his office and I go there. I am very surprised and curious as to how I got selected for this job. I go quickly to the room and enter without permission. The owner was sitting there. He says "come here Qasim! I was waiting for you and I selected you as manager". I said "I only came for the interview." The boss said "I wanted to see who gives the best answers and I saw that no one else gave answers good enough but you". Then I wondered who that person who gave such good answers was. I wondered why he didn't come for the interview; he must have got in trouble or something." Then I said to myself, "I came out of my house and I ran into trouble outside." The owner said "go to your office there is a room dedicated for you. We will briefly explain to you how to do the work." I said "I know quite a bit as what to do." I meet some people, and they introduce me the product. I became grateful to Allah. I see the office and it was a luxurious office, it had cameras and monitors. I looked at a monitor and I wondered "where is my car?" It was a white coloured car and I saw it on the screen. I thought, I need to go out and meet the rest of the people. I look into a mirror and see that my hair is old and messy and I need to comb it and set it with gel to make myself look smarter. I should ask the owner, if he has gel so I can tidy up. I go to the owner who is in the hall talking to people. I asked him for hair gel so that I can meet the people. The owner doesn't pay attention to my hair and gives me an old gel which is a bit dry. I think "it's ok! I have to use this." When I put the gel to my hair, it doesn't get tidy. I said

to myself that “the owner of this big company should at least give me better gel so that I can work nicer. What will people say? But the owner did not provide it.” Out of anger, I get upset and take off the gel and I throw it. I said “if the owner himself doesn't care how his manager looks, then so be it.” I walk away from there and make my mind up that I have to go and meet the people in this condition. As I am thinking all of this then the dream ends.

(People of Indonesia, Malaysia and Bangladesh Help Spread Dreams)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

24 November 2021

In this dream I see that I am in an area of a big building construction, like a government institution with blocks and buildings. There are also open grounds, and some parts where construction is still under progress. It is darkness all around. There are also many security people present in this area. In this darkness I am walking around, amongst many other people whom I don't know. I then send a message that we have to spread the true Islam of Nabi Muhammad ﷺ. I don't know who I send this message to, but I just send it. Then I feel that the message has reached some mysterious people, and they begin chasing me. I then begin to run to evade these people, and I reach a place. When I arrive at this place, I pray to Allah ﷻ that 'Oh Allah, for how long will we keep on running, please show us the path out of this.' Then I find a pond nearby, with blue colored water. By that point, some people have also joined me, about 3 or 4, but we don't talk about Islam openly, because of mysterious people around. I see that some people, of Indonesian, Malaysian and Bangla descent, are rising from the bottom of the pond to the top. Then they appear out of the blue water. I feel that Allah has sent these people towards me. This group of people indicate to me to go in the same direction as they came from. I then tell the people with me that we have to go to that direction, then all of us go there. As soon as we enter the pond, we start descending, like an elevator/lift. We end up in a room, like a room of a hotel. And

this hotel has a window through which I can look outside. I see that this place is near mountains. I say, Allah has helped us reach this location by His mercy and now we can begin working freely. The Indonesian, Malaysian and Bangladeshi group of people are not present in the room, but I feel that they can see us from far. While I'm looking around the room, I see more people coming and joining us in the room. Then, I find myself in a separate area of the room, and I begin to feel hungry. I see that there is nothing to eat except some dry flat-bread (roti) and some leaves. I say, that in such a tough situation, even this food is a blessing for us. I begin eating the roti with leaves. The leaves had a mixed sweet and sour taste and they tasted fairly good. I think to myself, leaves normally taste bitter and bad, but these ones are tasty. Then it comes to my mind that during the difficult times of Prophet Muhammad ﷺ, he also had similar diet and difficulties, so we should be thankful to Allah. Then, I feel that the Indonesian, Malaysian group of people are watching us from far, and they say that these people are living in difficult conditions and their food is not good either, we must arrange for food and sustenance for them so that they can live more comfortably and work easily. Then I say that Allah is helping us and continuously watching over us at all times. We must begin our foundation and grow it so that the people from Indonesia, Malaysia and Bangladesh can also reach us easily and we can work together to spread the true Islam of Nabi Muhammad ﷺ. Dream ends there.

Assalamu Alaikum.

Muhammad Qasim Told,

19 November 2021

In this dream I see that I am at the bottom floor of my house. Some people come to visit me in Pakistan, and then they leave. Then I see that a place (maybe Indonesia and Malaysia), is suffering from lack of rain and experience drought. There are groups of people in this area that are praying to Allah SWT for rain and ease. At the same time I am also thinking that at my home my plants will not grow

unless there is humidity in the air. Due to lack of rain in the other place, Pakistan is also impacted and that's why there is less moisture in the air. Then I see that Allah SWT answers the call of those groups of people and it rains in that area. Due to this rain, it also impacts at my home, and I see rain drizzling through my window. I get happy that this moisture will help my plants. Then I go outside my house to see what sort of clouds are bringing this rain, but I don't see any dark clouds, I only see white clouds and rain. Then I come back inside my house. Then the dream continues and it feels like a few months have passed and those people who had come before return again. I feel that this time is end of January or February. When they return, the work begins again and many people come to know of my dreams. When the dreams spread, I see the anchors and journalists don't stay quiet any longer and they talk about my dreams. More and more people join us, and I also see that my clothes are formally changed. The dreams then spread and the year goes on, and I feel that at this time I become a well known person. Allah SWT continues to help us, and I say that by the end of this year, the work will be done.

(Muhammad Qasim Bin Abdul Karim Softening Iron and Gold for His Companions)

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Assalamu Alaikum.

Muhammad Qasim Told,

13 May 2022

In this dream I see that some people from Indonesia and Malaysia have arrived to Pakistan and they are doing some work, but it does not happen or complete the way they wanted. I am also present there amongst them. They have a pipe made of iron that they are holding and preparing to cut. But they do not have any equipment to cut it with. Then I put my saliva on my index finger (Shahadat finger) and I draw a line on the pipe where it needs to be cut. As soon as I finish the circle the pipe cuts and upon seeing this, I get surprised how this had happened. Then I see that there is a lot of iron that needs to be melted so that some people can use it to make something. But we do not have anything to melt this iron with. Then I see that I put my saliva on both my hands and I touch the iron. I see that it gets soft

upon my touch. I continue to repeat this (put saliva on my hands and then touch the iron) and slowly after sometime the iron gets soft just like sand. Then I also do the same process with Gold, and I make it soft and like sand. Then I give these soft metals to the people who are with me, so that they can use it and design their shops and open them. And I say in amazement, how Allah has made this happen for us. Dream Ends.
